A realm where humans battle legendary creatures for the amusement of the gods. In a war between man and myth. Damien's powers set him above the rest, a lord of life and death - enemy of all. First Song, Book One Blaise Corvin, Outspan Foster, 2018-09-15 It has been two years since the Shift--when most technology stopped working, and the laws of physics changed. Humanity has been brought to its knees. Like other survivors, Noah Henson has heard rumors of the Aelves. Among other guesses, predatory aliens seem as good as any other theory for what caused the Shift. But for Noah, everything else takes second place to survival, sometimes even self-respect...or any sort of decency. Lawless, post-apocalypse America had forced Noah to make many difficult decisions, and he has never seemed to choose correctly. However, despite hating himself, he doesn't have the strength or the courage to change. He will get a lucky break in a big way, though--a mysterious orb with otherworldly power. In time, perhaps Noah will find another path. And if he does die during the Shift, maybe it won't be the end of his story. Sometimes, another chance can be an opportunity for redemption.

Nightlord Garon Whited, 2015-08-31 It's not easy, being King. Especially since he has an allergy to sunrise and sunset, a fire-goddess for a mother-in-law, demonic adversaries, random assassins, and a basement full of insecurities to cope with. Add to that his daughter, the priestess/princess, a couple of lightly-deranged professional magicians, a whole city full of wizards, and enough squabbling princes to resemble a kindergarten argument. It's enough to make a man want to just go home. Luckily for Eric, he has the world's largest pet rock, a smart-mouthed sword, and a horse that not only understands him, but likes him anyway.

Limitless Lands Dean Henegar, 2018-08-06 Colonel James Raytak is about to die. The 93-year-old combat veteran is living his last days in a nursing home; his only hope for survival is an experimental Medpod life support system controlled by an Artificial Intelligence. Co-developed by the world's largest gaming company, Qualitranos the Artificial Intelligence will also control the soon to be released game Limitless Lands. Without its creator's knowledge, the Artificial Intelligence decides the best course of treatment is to import its patient's consciousness directly into the game. Colonel Raytak must dust off his military training and lead his virtual troops in a fight to repair his broken body and mind while exploring the Limitless Lands.
