*A BIOGRAPHY OF SUN YAT-SEN* Zhang Lei,Zhang Ping,2020-04-07 A Biography of Sun Yat-Sen, a record of the renowned historical personage in China, co-authored by Zhang Lei and Zhang Ping and published in 2011 by the People's Publishing House, was listed as one of the key publications for the celebration of the 100th Anniversary of Sun Yat-sen. It has been highly regarded in the major media of the country. The book is composed of two parts, the first of which consists of five chapters that narrate his experience of overseas studies and his leadership in the establishment of the Revive China Society and the Chinese Revolutionary League, the struggle against the Qing Dynasty and Yuan Shikai, the building and protection of the Republican system. The second part of the book provides a detailed description and interpretation of the development of the democratic and revolutionary system of ideology represented by the Three Principles of the People and the Three Great Policies, and of the significance of his theories for the Chinese revolution. Different from other biographies, A Biography of Sun Yat-sen does not dwell on telling the long story about his family or daily life, but is focused on his spirit, i.e. his patriotism and enthusiasm for reform and revolution, and based on it, recounts the development and elevation of this spirit, which is revealed by the whole process of his first advocating the reform of the Qing Government to proposing the (New) Three Principles of the People. The book is an important reference for further study and understanding of Sun Yat-sen and his ideas and revolutionary cause.

*CHINESE PAINTING* Deng Qiaobin,2019-12-26 Chinese Painting: An Intellectual History provides a panorama of Chinese painting from primitive times to the Qing Dynasty. But it is not a mere list of various theories, paintings, and painters in chronological order. Much space of the book is devoted to describing the political, cultural, and economic situations as well as the philosophical, literary, and academic elements that have influenced Chinese painting. In its presentation of painters, painting theories, schools, and genres, the book combines general introduction with case studies, and in so doing maintains an objective and unbiased stance. To controversial topics such as the role of Buddhism and Taoism and the division of Northern School and Southern School in landscape painting, the book analyzes political and cultural causes, but gives no definite answer, thus allowing interpretation by the readers. As the title suggests, the book is not an exclusive discussion on painting theories; otherwise, a more appropriate title would be "Chinese Painting Theories," or "A History of Chinese Painting." By "intellectual," the author meant to include not only systematic painting theories and fragmented commentaries that are written in words, but also the implicit and intangible message or thoughts underlying the creation of Chinese painting. Therefore, reading this book is not only a way of appreciating Chinese painting, but also helps in understanding Chinese culture.
