**Dolce's Aretino and Venetian Art Theory of the Cinquecento** Mark W. Roskill, Renaissance Society of America, 2000-01-01 Dolce's Dialogo della pittura first appeared in Venice in 1557 and consists of a three-part dialogue between two Venetians, Aretino and Fabbrini, on the particular merits of works of art and artists, including Michaelangelo, Raphael, and Donatello.

**Singing Dante: The Literary Origins of Cinquecento Monody** Elena Abramov-van Rijk, 2017-07-05 This book takes its departure from an experiment presented by Vincenzo Galilei before his colleagues in the Florentine Camerata in about 1580. This event, namely the first demonstration of the stile recitativo, is known from a single later source, a letter written in 1634 by Pietro dei Bardi, son of the founder of the Camerata. In the complete absence of any further information, Bardi's report has remained a curiosity in the history of music, and it has seemed impossible to determine the true nature and significance of Galilei's presentation. That, unfortunately, still remains true for the music, which is lost. Yet we know a crucial fact about this experiment, the poetic text chosen by Galilei: it was an excerpt from the Divine Comedy by Dante Alighieri, the Lament of Count Ugolino. Starting from this information the author examines the problem from another angle. Investigation of the perception of Dante's poetry in the sixteenth century, as well as a deeper enquiry into cinquecento poetic theories (and especially phonetics) leads to a reconstruction of Galilei's motives for choosing this text and sheds light on some of the features of his experiment.

*Visual Experiences in Cinquecento Theatrical Spaces* Javier Berzal de Dios, 2019-01-01 Through an interdisciplinary examination of sixteenth-century theatre, *Visual Experiences in Cinquecento Theatrical Spaces* studies the performative aspects of the early modern stage, paying special attention to the overlooked complexities of audience experience. Examining the period's philosophical and aesthetic ideas about space, place, and setting, the book shows how artists consciously moved away from traditional representations of real spaces on stage, instead providing their audiences with more imaginative and collaborative engagements that were untethered by strict definitions of naturalism. In this way, the book breaks with traditional interpretations of early modern staging techniques, arguing that the goal of artists in this period was not to cater to a single privileged viewer through the creation of a naturalistically unified stage but instead to offer up a complex multimedia experience that would captivate a diverse assembly of theatre-goers.
