The Auto Biography of the Citroën 2CV Ellie Charleston,2026-03 The Auto Biography of the Citroen looks at the history of this unusual vehicle from its pre-war conception through to the last car to roll off the production line in 1990. It explains how the 2CV was intended to be a lightweight cheap car for farmers and the common person and how the designers developed this umbrella on wheels. It also takes a nostalgic look at its many derivatives, including a four wheel drive version and kit cars built on the 2CV chassis. Though the car is often the butt of jokes and given derogatory names such as dustbin on wheels--it was manufactured for over 40 years and nearly 4 million were produced. To top everything it beat flashier cars such as Aston Martin and Lotus Esprit to come top of a poll in James Bond car chases. Not bad for a modest little car! The 2CV has become something of a cult car with its unique and quirky design and The Auto Biography of the 2CV provides a brief but fascinating look at this enduring motoring icon.

The Citroen 2cv Ed Carlow,2019-04-30 Part of a series designed to support poor readers. Here we read of the 2CV connection with the James Bond franchise and through that a curious connection to Queen Elizabeth I. We also see how the car can be adapted for the 21st Century and the need to clean up the air. This car was a combination of engineering innovation and utilitarian bodywork for extra strength without extra weight.

Sixty Years of the Citroën 2CV John Reynolds,1997 Twelve years in design and development and 41 years in manufacture, the Citroen 2CV is one of the longest-running motoring success stories. Almost seven million of its various versions were built and this text chronicles the conception, life and death of the French people's car.
