Yale University. Class of 1902

*The Ideal Adult Class in the Sunday-school* Amos Russel Wells,1912

**The New Politics of Class** Geoffrey Evans,James Tilley,2017-02-16 This book explores the new politics of class in 21st century Britain. It shows how the changing shape of the class structure since 1945 has led political parties to change, which has both reduced class voting and increased class non-voting. This argument is developed in three stages. The first is to show that there has been enormous social continuity in class divisions. The authors demonstrate this using extensive evidence on class and educational inequality, perceptions of inequality, identity and awareness, and political attitudes over more than fifty years. The second stage is to show that there has been enormous political change in response to changing class sizes. Party policies, politicians' rhetoric, and the social composition of political elites have radically altered. Parties offer similar policies, appeal less to specific classes, and are populated by people from more similar backgrounds. Simultaneously the mass media have stopped talking about the politics of class. The third stage is to show that these political changes have had three major consequences. First, as Labour and the Conservatives became more similar, class differences in party preferences disappeared. Second, new parties, most notably UKIP, have taken working class voters from the mainstream parties. Third, and most importantly, the lack of choice offered by the mainstream parties has led to a huge increase in class-based abstention from voting. Working class people have become much less likely to vote. In that sense, Britain appears to have followed the US down a path of working class political exclusion, ultimately undermining the representativeness of our democracy. They conclude with a discussion of the Brexit referendum and the role that working class alienation played in its historic outcome.

*The Cambridge Handbook of Class Actions* Brian T. Fitzpatrick,Randall S. Thomas,2021-02-18 International authors describe class action procedure in this concise, comparative, and empirical perspective on aggregate litigation.

*Rethinking Class in Russia* Suvi Salmenniemi,2016-04-08 Social differentiation, poverty and the emergence of the newly rich occasioned by the collapse of the Soviet Union have seldom been analysed from a class perspective. Rethinking Class in Russia addresses this absence by exploring the manner in which class positions are constructed and negotiated in the new Russia. Bringing an ethnographic and cultural studies approach to the topic, this book demonstrates that class is a central axis along which power and inequality are organized in Russia, revealing how symbolic, cultural and emotional dimensions are deeply intertwined with economic and material inequalities. Thematically arranged and presenting the latest empirical research, this interdisciplinary volume brings together work from both Western and Russian scholars on a range of spheres and practices, including popular culture, politics, social policy, consumption, education, work, family and everyday life. By engaging with discussions in new class analysis and by highlighting how the logic of global neoliberal capitalism is appropriated and negotiated vis-à-vis the Soviet hierarchies of value and worth, this book offers a multifaceted and carefully contextualized picture of class relations and identities in contemporary Russia and makes a contribution to the theorisation of class and inequality in a post-Cold War era. As such it will appeal to those with interests in sociology, anthropology, geography, political science, gender studies, Russian and Eastern European studies, and media and cultural studies.

Inequality, Class, and Economics Eric Schutz,2022-01-24 The COVID-19 pandemic exposed the economic inequalities pervading every aspect of society - and then multiplied them to a staggering degree. In *Inequality, Class, and Economics*, Eric Schutz illuminates the pillars undergirding the monstrous polarities which define our times revealing them as the structures of power that constitute the foundations of the class system of today's capitalism. Employers' power is the linchpin of that system, but the power of professionals in all fields, the power exerted by some businesses over others, political power, and the power of cultural institutions - especially mass media and education - are also critical for the class system today. Each of these social power structures is examined closely and shown both to sustain, and to be sustained by, economic inequality. Employing both traditional and novel approaches to public policy, *Inequality, Class, and Economics* denounces economists' studied avoidance of the problem of class as a system of inequality based in unequal opportunity, and exhorts us to tackle the heart of the problem at long last.--Back cover.

**The Middle Class in World Society** Christian Suter,S. Madheswaran,B.P. Vani,2020-05-21 This volume delves into the study of the world's emerging middle class. With essays on Europe, the United States, Africa, Latin America, and Asia, the book studies recent trends and developments in middle class evolution at the global, regional, national, and local levels. It reconsiders the conceptualization of the middle class, with a focus on the diversity of middle class formation in different regions and zones of world society. It also explores middle class lifestyles and everyday experiences, including experiences of social mobility, feelings of insecurity and anxiety, and even middle class engagement with social activism. Drawing on extensive fieldwork and in-depth interviews, the book provides a sophisticated analysis of this new and rapidly expanding socioeconomic group and puts forth some provocative ideas for intellectual and policy debates. It will be of importance to students and researchers of sociology, economics, development studies, political studies, Latin American studies, and Asian Studies.

*Rethinking Class and Social Difference* Barry Eidlin,Michael A. McCarthy,2020-09-30 This volume draws together scholars rethinking social scientific and theoretical approaches to a wide range of forms of social difference and inequality. These include race, nationalism, sexuality, professional classes, domestic employment, digital communication, and uneven economic development

**The Musical Times & Singing-class Circular** ,1920

**Revelations of Ideology: Apocalyptic Class Politics in Early Roman Palestine** Anthony Keddie,2018-09-11 In *Revelations of Ideology*, G. Anthony Keddie critically investigates the social motivations and implications of apocalyptic class rhetoric in late Second Temple Judaism, including the Jesus movement.

**Class Reunion** Lois Weis,2005-01-15 Noted scholar Lois Weis first visited the town of Freeway in her 1990 book, *Working Class Without Work*. In that book we met the students and teachers of Freeway's high school to understand how these working-class folks made sense of their lives. Now, fifteen years later, Weis has gone back to Freeway for Class Reunion. This time her focus is on the now grown-up students who are, for the most part, still working class and now struggling to survive the challenges of the global economy. *Class Reunion* is a rare and valuable longitudinal ethnographic study that provides powerful, provocative insight into how the lives of these men and women have changed over the last two decades--and what their prospects might be for the future.

Women, Race, & Class Angela Y. Davis,2011-06-29 From one of our most important scholars and civil rights activist icon, a powerful study of the women's liberation movement and the tangled knot of oppression facing Black women. "Angela Davis is herself a woman of undeniable courage. She should be heard."—The New York Times Angela Davis provides a powerful history of the social and political influence of whiteness and elitism in feminism, from abolitionist days to the present, and demonstrates how the racist and classist biases of its leaders inevitably hampered any collective ambitions. While Black women were aided by some activists like Sarah and Angelina Grimke and the suffrage cause found unwavering support in Frederick Douglass, many women played on the fears of white supremacists for political gain rather than take an intersectional approach to liberation. Here, Davis not only contextualizes the legacy and pitfalls of civil and women's rights activists, but also discusses Communist women, the murder of Emmitt Till, and Margaret Sanger's racism. Davis shows readers how the inequalities between Black and white women influence the contemporary issues of rape, reproductive freedom, housework and child care in this bold and indispensable work.

Structure Theory for Canonical Classes of Finite Groups Wenbin Guo,2015-04-23 This book offers a systematic introduction to recent achievements and development in research on the structure of finite non-simple groups, the theory of classes of groups and their applications. In

particular, the related systematic theories are considered and some new approaches and research methods are described – e.g., the F-hypercenter of groups, X-permutable subgroups, subgroup functors, generalized supplementary subgroups, quasi-F-group, and F-cohypercenter for Fitting classes. At the end of each chapter, we provide relevant supplementary information and introduce readers to selected open problems.

*Classes, Cultures, and Politics* Clare V. J. Griffiths,James J. Nott,William Whyte,2011-04-07 This volume investigates the fields in British history that have been illustrated by the works of Ross McKibbin. Written by a distinguished team of scholars, it examines McKibbin's life and thought, and explores the implications of his arguments.

**Women Without Class** Julie Bettie,2003 Publisher Description  
*Frame-Constructional Verb Classes* Ryan Dux,2020-11-15 While verb classes are a mainstay of linguistic research, the field lacks consensus on precisely what constitutes a verb class. This book presents a novel approach to verb classes, employing a bottom-up, corpus-based methodology and combining key insights from Frame Semantics, Construction Grammar, and Valency Grammar. On this approach, verb classes are formulated at varying granularity levels to adequately capture both the shared semantic and syntactic properties unifying verbs of a class and the idiosyncratic properties unique to individual verbs. In-depth analyses based on this approach shed light on the interrelations between verbs, frame-semantics, and constructions, and on the semantic richness and network organization of grammatical constructions. This approach is extended to a comparison of Change and Theft verbs, revealing unexpected lexical and syntactic differences across semantically distinct classes. Finally, a range of contrastive (German-English) analyses demonstrate how verb classes can inform the cross-linguistic comparison of verbs and constructions.

**Reports by the Juries on the Subjects in the Thirty Classes Into which the Exhibition was Divided** ,1852

Whispering the Techniques of Language: An Mental Quest through **Class**

In a digitally-driven world wherever screens reign supreme and instant transmission drowns out the subtleties of language, the profound techniques and mental subtleties hidden within words usually get unheard. However, located within the pages of **Class** a captivating literary treasure pulsating with fresh thoughts, lies an extraordinary quest waiting to be undertaken. Composed by a talented wordsmith, this wonderful opus invites visitors on an introspective trip, softly unraveling the veiled truths and profound impact resonating within the fabric of each word. Within the mental depths of this poignant review, we will embark upon a heartfelt exploration of the book is core subjects, dissect its charming writing fashion, and fail to the strong resonance it evokes heavy within the recesses of readers hearts.
