Forged By Fire Janine Cross,2008-08-05 In violation of every law of the Dragon Temple, which forbids women to own property, Zarq Darquel has secured a dragon estate for herself. But now what Waikar Re Kratt, Zarq's former overlord, has begun a fanatical crusade to find her, last ally—Kratt's turncoat brother—can no longer stand between her and the threat of imprisonment. Zarq does not see herself as a revolutionary, but her enemies give her no choice. Abandoning the estate where she thought she would be safe, she journeys deep into the jungle in search of an ancient dragon secret that will give her the power to overthrow both Kratt and the corrupt Dragon Temple. She takes with her some of the female dragons from her own estate, and in the jungle she once again risks the dragons' highly addictive hallucinogenic venom, renewing a craving that is becoming an obsession...

The Golden Heart, Second Edition Harold Klemp,2023-08-17 Do you live your own dreams or someone else's? Are your spiritual beliefs from your own experience, or do they come from books and teachers? You have to put your heart and love into any approach to God, says Harold Klemp. As a spiritual being, you owe it to yourself to give this life one good whirl, to put everything into it, and to make it worth living. Through stories, inspiring viewpoints, and simple everyday exercises, the author shows how to clearly recognize the relationship between the physical life and the spiritual self. The golden heart refers to one who has a loving, aware, and creative attitude toward life. Every day we have opportunities to grow in our ability to meet life's challenges. Harold Klemp helps the reader understand the practical benefits of spiritual awareness. As you begin to grow beyond your built-in attitudes and expand your point of view, the author shows you how to see more of the spiritual horizon of your own life. One day you will notice you are no longer asking God to make your life better; now you are taking full responsibility for your own actions. The Golden Heart is a thought-provoking book on how to achieve a greater spirituality, regardless of your background.

Jellyfish Lisa-ann Gershwin, 2016-06-07 Jellyfish are mysterious creatures, luminously beautiful with remarkably varied life cycles. These ancient animals are found in every ocean at every depth, and have lived on Earth for at least 500 million years. Jellyfish looks at their anatomy, life history, taxonomy and ecology, and includes species profiles featuring stunning marine photography.

How He-Man Mastered the Universe Brian C. Baer, 2017-03-10 Elaborate cinematic universes and sophisticated marketing tie-ins are commonplace in entertainment today. It's easy to forget that the transmedia trend began in 1982 with a barbarian action figure. He-Man and the other characters in Mattel's popular Masters of the Universe toy line quickly found their way into comic books, video games, multiple television series and a Hollywood film. The original animated series (1983–1985) was the first based on an action figure, and the cult classic Masters of the Universe (1987) was the first toy-inspired live-action feature film. But it wasn't easy. He-Man faced adversaries more dangerous than Skeletor: entertainment lawyers, Hollywood executives, even the Reagan administration. The heroes and villains of Eternia did more than shape the childhoods of the toy-buying public—they formed the modern entertainment landscape.

Stung! Lisa-ann Gershwin, 2013-05-07 "The world of jellyfish is brought alive as you never imagined it could be by Lisa-ann Gershwin in this engaging, gripping, and often funny book." —Callum Roberts, author of *The Ocean of Life* As our oceans become increasingly inhospitable to life, there is one creature that is thriving in this seasick environment: the beautiful, dangerous, and now incredibly numerous jellyfish. As foremost jellyfish expert Lisa-ann Gershwin describes in *Stung!*, the jellyfish population bloom is highly indicative of the tragic state of the world's ocean waters, while also revealing the incredible tenacity of these remarkable creatures. Despite their often dazzling appearance, jellyfish are simple creatures with simple needs: namely, fewer predators and competitors, warmer waters to encourage rapid growth, and more places for their larvae to settle and grow. In general, oceans that are less favorable to fish are more favorable to jellyfish, and these are the very conditions that we are creating through mechanized trawling, habitat degradation, coastal construction, pollution, and climate change. Despite their role as harbingers of marine destruction, jellyfish are truly enthralling creatures in their own right, and in *Stung!*, Gershwin tells stories of jellyfish both attractive and deadly while illuminating many interesting and unusual facts about their behaviors and environmental adaptations. She takes readers back to the Proterozoic era, when jellyfish were the top predator in the marine ecosystem—at a time when there were no fish, no mammals, and no turtles; and she explores the role jellies have as middlemen of destruction, moving swiftly into vulnerable ecosystems. The story of the jellyfish, as Gershwin makes clear, is also the story of the world's oceans, and *Stung!* provides a unique and urgent look at their inseparable histories—and future.
