The American Clipper Ship, 1845-1920 Glenn A.

Knoblock,2014-01-23 This work offers a new and comprehensive account of the fastest and most beautiful sailing ships ever built. It

explores the quest for speed on the seas from the early 1800s through the fast-paced times of the 1850s spurred on by the California Gold Rush of 1849. Not only are the career details of such noted ships as the Flying Cloud and Challenge discussed in detail, but they are also put in context with the times in which they operated. Their builders in East Coast states from Maine to Florida are discussed in detail, as are the men, and a woman in one instance, who commanded and manned these ships. The book documents the roles that owners and shipping agents played, what kinds of cargo the ships carried worldwide and the unusual trades in which they participated.

The American-built Clipper Ship, 1850-1856 William L. Crothers,2000 The American-Built Clipper Ship presents in detail 152 clippers that comprise the culmination of the shipbuilder's art. Every facet of clipper-ship design and construction is covered, from felling timber to details on interior finish work. Detailed drawings illustrate this work.

Clipper Ship Thomas P. Lewis,1992 Captain Murdock is accompanied by his wife and children as he commands a clipper ship from New York to San Francisco.

Nautical Newburyport Dyke Hendrickson,2017-03-06

Newburyport was once the most dangerous harbor on the East Coast and one of its most prosperous. Local captains and sailors led the nation to battle during the American Revolution and founded the U.S. Coast Guard. They sent vessels to Bombay, the gold rush and the farthest reaches of the world. Author Dyke Hendrickson explores the perfection of the clipper ship, the city's

famous Federalist mansions and the bold adventures from the Age of Sail. Follow the men and women of Newburyport into battle, into gales and into fortune--or ruin.

Flying Cloud David W. Shaw, 2009-10-13 *Flying Cloud* is the riveting and thoroughly researched tale of a truly unforgettable sea voyage during the days of the California gold rush. In 1851, navigator Eleanor Creesy set sail on the maiden voyage of the clipper ship *Flying Cloud*, traveling from New York to San Francisco in only 89 days. This swift passage set a world record that went unbroken for more than a century. Upon arrival in San Francisco, *Flying Cloud* became an enduring symbol of a young nation's daring frontier spirit. Illustrated with original maps and charts as well as historical photographs, Shaw's compelling narrative captures the drama of this thrilling adventure. In a position almost unheard of for a woman in the mid-19th century, Eleanor Creesy served as the ship's navigator. With only the sun, planets, and stars to guide her, she brought *Flying Cloud* safely around Cape Horn at the height of a winter blizzard, faced storms, dodged shoals, and found her way through calms to make the swift passage possible. Along with her husband, Josiah, the ship's captain, she sailed the mighty 3-masted clipper through 16,000

miles of the fiercest, most unpredictable oceans in the world. Shaw vividly recreates 19th-century seafaring conditions and customs, for both the crew and the passengers who entrusted their fate to an untested ship. Including excerpts from letters and diaries of passengers, Shaw recounts Flying Cloud's victory in the face of adversity—including sabotage, insubordination, and severe damage to the clipper's mainmast that might have sunk her with all hands lost. But the ship triumphed and would ultimately sail the world. Flying Cloud brings to life, for the first time, the glory of one of America's most important seafaring tales and one woman's incredible achievements.

China Clipper Robert Gandt, 2010-10-01 When the China

Clipper shattered aviation records on its maiden six-day flight from California to the Orient in 1935, the flying boat became an instant celebrity. This lively history by Robert Gandt traces the

development of the great flying boats as both a triumph of technology and a stirring human drama. He examines the political, military, and economic forces that drove its development and explains the aeronautical advances that made the aircraft possible. To fully document the story he includes interviews with flying boat pioneers and a dynamic collection of photographs, charts, and cutaway illustrations.

Pan American Clippers James Trautman, 2019 Illustrated with rare period photographs, vintage travel posters, magazine ads and colorful company brochures, Pan American Clippers covers every aspect of the era of flying boats, from 1931-1946. Trautman explains PanAm's founding and growth, their wartime activities, and the design choices that made the company a symbol of luxury. --
