Coaching Up! Inspiring Peak Performance When It Matters Most Jordan Fliegel,2016-09-06 Connect, engage, motivate, and inspire using top coaching techniques Coaching Up! is about inspiring those who matter to you to achieve peak performance. Whether you are a coach, a business leader, a civic activist, a teacher, a counselor, or a parent, this book will offer you a powerful, highly effective way to connect to the people you care about and move them forward toward their best selves. In sports, coaches have developed ways of connecting with their players quickly in the heat of the battle, inspiring them to perform to their fullest potential and leave it all on the field. Interestingly, although these techniques have not been codified, great coaches have

independently developed remarkably similar models. This book aligns these techniques and distills their essence into a fundamental skill set that anyone can use to connect with, support, and inspire his or her colleagues, teammates, friends, and family members. At its foundation, great coaching is based on a solid set of techniques that can be applied to all areas of life. Essentially, those skills boil down to forging authentic connections, providing genuine support, and offering concise direction. While our everyday pressures may be less intense than those of a championship, the long-term game is even more important. Why not borrow from the best to develop the skills and abilities to win every day? Inspire and motivate people to higher performance Improve communication in high-stakes situations Be more effective both professionally and socially Getting inside the way great coaching works gives you an unparalleled glimpse at the core of inspiration. A great coach can make the difference between a mediocre player and a world champion. What would that difference look like if you could inspire every colleague in your business? Everyone who matters to you in your personal life? You can be the source of empowerment and motivation that helps the people around you reach higher, go further, and achieve more. Coaching Up! gives you the game plan—and shows you how to run the plays.

The Coaching Habit Michael Bungay Stanier, 2016-02-29

Coaching is an essential skill for leaders. But for most busy, overworked managers, coaching employees is done badly, or not at all. They're just too busy, and it's too hard to change. But what if managers could coach their people in 10 minutes or less? In Michael Bungay Stanier's *The Coaching Habit*, coaching becomes a regular, informal part of your day so managers and their teams can work less hard and have more impact. Coaching is an art and it's far easier said than done. It takes courage to ask a question rather than offer up advice, provide an answer, or unleash a solution. Giving another person the opportunity to find their own way, make their own mistakes, and create their own wisdom is both brave and vulnerable. It can also mean unlearning our "fix it" habits. In this practical and inspiring book, Michael shares seven transformative questions that can make a difference in how we lead and support. And, he guides us through the tricky part - how to take this new information and turn it into habits and a daily practice. -Brené Brown, author of *Rising Strong* and *Daring Greatly* Drawing on years of experience training more than 10,000 busy managers from around the globe in practical, everyday coaching skills, Bungay Stanier reveals how to unlock your peoples' potential. He unpacks seven essential coaching questions to demonstrate how---by saying less and asking more--you can develop coaching methods that produce great results. - Get straight to the point in any conversation with The Kickstart Question - Stay on track during any interaction with The AWE Question - Save hours of time for yourself with The Lazy Question, and hours of time for others with The Strategic Question - Get to the heart of any interpersonal or external challenge with The

Focus Question and The Foundation Question - Finally, ensure others find your coaching as beneficial as you do with The Learning Question A fresh, innovative take on the traditional how-to manual, the book combines insider information with research based in neuroscience and behavioural economics, together with interactive training tools to turn practical advice into practiced habits. Dynamic question-and-answer sections help identify old habits and kick-start new behaviour, making sure you get the most out of all seven chapters. Witty and conversational, The Coaching Habit takes your work--and your workplace--from good to great.

Coach the Person, Not the Problem Marcia

Reynolds,2020-06-02 From a founding member of the coaching movement comes a detailed guide to mastering one of a coach's toughest skills: thoughtfully reflecting clients' words and expressions back to them so they see themselves and their world through new eyes. "Coaches rely far too much on asking open-ended questions," says Marcia Reynolds. But questions only seek answers—inquiry provides insight. When, instead of just questions, clients hear their thoughts, opinions, and beliefs spoken by someone else, it prompts them to critically consider how their thinking affects their goals. Reynolds cites the latest brain science to show why reflective inquiry works and provides techniques, tips, and structures for creating breakthrough conversations. This book will free coaches from the cult of asking the magical question by offering five essential practices of reflective inquiry: focus on the person, not the problem; summarize what is heard and expressed; identify underlying beliefs and assumptions; unwrap the desired outcome; and articulate insights and commitments. Using these practices, combined with a respectful and caring presence, helps create a space where clients feel safe, seen, and valued for who they are. Coaches become change agents who actively recharge the human spirit. And clients naturally dive deeper and develop personalized solutions that may surprise even the coach.

Coaching Affirmations Dan Spainhour,2010 Your imagination is

your preview of life's coming attractions. Albert Einstein Coach Dan Spainhour explains how affirmations can benefit coaches of every sport at every level. When I used to hear all the talk about affirmations I had a tendency to think of some New Age feel good stuff that had little to do with coaching. However, the more I investigated the process of affirmations I came to realize maybe it was only the term affirmations that caused me not to take the process seriously. I've always believed in the importance of self-talk and the effects it has on performance. Like most coaches, I posted daily quotes in our locker room for the team to read and recite back during practice. I know motivation is different things for different people and athletes need inspiration that is designed specifically for them. I also believed that as Peter Davies says, Motivation is like food for the brain, you cannot get enough in one setting. So I started to give my players specific individual statements that I asked them to say to themselves over and over. I would give them new statements at different times throughout the year based upon areas that I wanted to see them improve. I immediately saw results. My players seem more confident and our performance has improved since I instituted this process. And all coaches know the relationship of mental to physical performance. As Bob Knight says, 'Mental is to physical as four is to one.' About the Author Dan Spainhour has more than 27 years of high school and college coaching experience. He has received numerous awards during his coaching career, including three state championships and 15 coach of the year honors. His teams have collected more than 450 victories. He is the author of several books including: Coach Yourself: A Motivational Guide for Coaches and Leaders and A Season in Words: A Coach's Guide to Motivation from the Preseason to the Postseason.
