Collapsible Per Mollerup,2001-11 Collapsibles are objects that fold out for use and then fold back in again to save space. They include anything from sofabeds to Swiss army knives. Per Mollerup identifies 12 essential principles of collapsibility and looks at examples of each.

*The Collapsible Mannequin* Charlotte Matthews,2020-12-10 The Collapsible Mannequin tells the story of a misunderstood twelve-year-old Clarence Clark, a resourceful, independent dreamer, and his mother, Sarah, who hides truths from him out of an abiding love.

**The Collapsible World** Anne N. Marino,2000-09 Written in the tautest prose, this portrait of a family on the verge of collapse shimmers with the heat and dissipated fog of October in San Francisco. Lillie returns home one night to discover that her mother has disappeared. She is left to care for her father, a drug-addicted anesthesiologist, with little support from her only sibling, a stripper at a North Beach nightclub. Fueled by alcohol and too-little sleep, she seeks comfort in the form of sex and target practice with an attractive cop. Her one true solace is the map store where she works with Finch, the man who was always there for her when her own family wasn't. Grappling with the loss of her mother and her vexatious relationship with her father, Lillie navigates San Francisco's seedy underworld of sex for sale, drugs, and duplicity, in search of a grown-up life that might lie at the periphery.

Collapsible Tim Conley,2019 Fiction. Short Stories. The short story form is unambiguously un-dead in this new album of thirty fictions from Tim Conley, coming at the reader in a variety of shapes and guises running the gamut from elliptical micro-fictions to tales of the inexplicable. Steeped in Beckett, Borges and Nabokov, Conley's multiple universes allow for werewolves that excite ridicule not fear, and where birthdays are an occasion for forgetting not remembering. Here, the world greets a new colouring book with the same seriousness as it might some newly discovered gospel, and struggles to embrace fictional celebrities with the same ardour it reserves for real ones. And why not a variant of origami that is used on the human form?

**Genesis and Properties of Collapsible Soils** Tom Dijkstra,Ian J. Smalley,2012-12-06 Collapsing engineering soils are a formidable hazard around the world. These difficult materials also include some of the world's most fertile agricultural soils, fostering dense human populations which are therefore increasingly at risk. Despite an impressive literature on the engineering aspects of collapsing soils, these materials are coming under increasing scrutiny by scientists in other fields. This is most evidently the case with soil scientists, stratigraphers and sedimentologists. Past earth surface conditions have a direct influence on the detailed behaviour of collapsible soils: as a complement, these materials also provide detailed data on changing global climates. The selected papers presented here highlight the common ground between three scientific groups with a vested interest in a better understanding of collapsible soils.

*Flow Past Highly Compliant Boundaries and in Collapsible Tubes* Peter W. Carpenter,Timothy J. Pedley,2013-11-11 The IUTAM Symposium on Flow in Collapsible Tubes and Past Other Highly Compliant Boundaries was held on 26-30 March, 2001, at the University of Warwick. As this was the first scientific meeting of its kind we considered it important to mark the occasion by producing a book. Accordingly, at the end of the Symposium the Scientific Committee met to discuss the most appropriate format for the book. We wished to avoid the format of the conventional conference book consisting of a large number of short articles of varying quality. It was agreed that instead we should produce a limited number of rigorously refereed and edited articles by selected participants who would aim to sum up the state of the art in their particular research area. The outcome is the present book. Peter W. Carpenter, Warwick Timothy J. Pedley, Cambridge May, 2002. VB SCIENTIFIC COMMITTEE Co-Chair: P.W. Carpenter, Engineering,

Except lately she feels more like a chair than a person. One of those folding chairs. Solid one minute. And then. Margaret Perry's play *Collapsible* is a funny, furious monologue about holding on in this collapsing world. It was premiered at the 2019 VAULT Festival, London, where it won the Origins Award for Outstanding New Work. It transferred to the Edinburgh Festival Fringe and the Dublin Fringe Festival in 2019 (winning the Fishamble New Writing Award), and the Bush Theatre, London, in 2020, in a co-production between Ellie Keel Productions and HighTide

*Folding Tech* Karen Latchana Kenney,2020-11-03 Space probes, self-assembling robots, crash-absorbing cars, and designer proteins all have one thing in common: their use of folding technologies. To develop these technologies, engineers are taking inspiration from an unusual source—origami, the ancient art of paper folding. Examine origami's origins, how it intersects with mathematics, and how it became a tool to solve some of the most complicated challenges in engineering, architecture, technology, and medicine today. Plus, get a close-up look at these technologies with two augmented reality images included in the book!

**Collapsible Poetics Theater** Rodrigo Toscano,2008 Rodrigo Toscano's Collapsible Poetics Theater is a genre-expanding force to be reckoned with. From polyvocalic pieces for multiple readers to 'body-movement poems' to 'simultaneous activities pieces' to anti-masques and plays, these fourteen texts & scores constitute one of the most sustained studies of poetic thinking and action to come in a long time. The question Toscano poses is 'can the poem be tested any further?' With a cape, confetti and placard, two players and Master of Ceremonies conduct their feints and dodges about concepts of engagement and faith. Has this author been reading the critical social spatiality of Michel de Certeau? The author has certainly been reading poetics, from Mikhail Bahktin's radical linguistics to the controlled clamor of Carla Harryman's dramatic praxis. The art of play has found a talented proponent. --Marjorie Welish, 2008 National Poetry Series Judge
