**The Complete Alien Collection: Symphony of Death (The Cold Forge, Prototype, Into Charybdis)** Alex White, Tim Waggoner, 2023-11-07

Collected together for the first time, this action-packed omnibus is filled with secrets, lies, and the silver smile of the deadly Xenomorphs. Across three epic novels, see how the Xenomorph doctrine of Weyland-Yutani and Venture is a short and angry road to hell. The Cold Forge Weyland-Yutani has suffered a devastating setback: the loss of the Xenomorphs they aggressively sought to exploit. True to form, they have a redundancy already in place... the facility known as The Cold Forge. When company man Dorian Sudler is sent to assess their progress, he discovers that there's a spy aboard who may destroy the entire station... That is, if the Xenomorphs don't do the job first. Prototype Corporate spy Tamar Prather steals a Xenomorph egg from Weyland-Yutani, taking it to a lab run by Venture... Former Colonial Marine Zula Hendricks has been tasked with training personnel to deal with anything that gets thrown their way, but nothing can prepare them for the horror that breaks out of Venture's lab. Into Charybdis "Shy" Hunt and the tech team from McAllen Integrations thought it was an easy job—set up environmental systems for the brand new Hasanova Data Solutions colony, built on the abandoned ruins of a complex known as "Charybdis." There are just two problems: the colony belongs to the Iranian state, and the complex is located above a series of hidden caves. Charybdis has a darker history than any could imagine, and its depths harbor deadly secrets. The deeper they dig, the more Shy is convinced there's no one they can believe. When a bizarre ship lands on a nearby island, one of the workers is attacked by a taloned creature, and trust evaporates between the Iranians and Americans. The McAllen integrations crew are imprisoned, accused of being spies, but manage to send

out a distress signal... to the Colonial Marines.

### **Big Sky Alien Mail Order Brides Box Set Collection 1:**

**Original Trilogy +1** Elsa Jade, 2023-03-11 The original Big Sky

Brides, all in one place! Adventure and romance together in high-

speed pursuit of Happily Ever Afters throughout the universe. If

you've been looking for love in all the wrong galaxies, find your

alien mate with the Intergalactic Dating Agency! ALPHA STAR

She just wanted a quiet place to hide from the world. Instead, she

found adventure with a sexy alien seeking his mate and a once-in-

a-lifetime chance for a cosmic love... Recovering from a traumatic

concussion, Zoe Nazario fears she'll never trust her own senses

again. So when she stumbles over a shiny chrome cube, she

laughs off its chirpy announcement that she's the lucky bride of

an alien prince. Aliens? Love? Yeah, no. Better to be dazed and

confused—and alone—than desperately delusional. Sinclarion

"Sin" Fifth-Moon Jax feels most at home roaming the infinite stars

with his cybernetic enhancements and princely privilege to

protect his misfit spaceship crew. But his imperial great-

grandmother, despairing of his free-flying ways, demands he

settle down to claim his solar system inheritance—and the Big

Sky Intergalactic Dating Agency has already identified his perfect

match in Sunset Falls, Montana, Earth! Grudgingly resigned to

seizing the woman of his destiny, Sin instead gets an innocent

Earther girl—who rejects him utterly. But when he realizes an

interstellar menace is stalking his reluctant bride, he can't just leave her behind...even if his five mating rings threaten to lock with desire when she's near. The small-town Earther girl and the arrogant alien prince must join forces to survive a vast and treacherous universe, but what happens when they find that Sin's inheritance might be a lie—and so is his perfect match with Zoe? RED SHIFT Unmated drakling shifters are one of the hottest threats in the universe, as everyone knows...everyone except this one drakling with amnesia and the innocent Earther girl trapped with him! Banished from his homeworld for refusing a mate that would tame his fiery beast, Honey the drakling followed his wandering prince into battle and then—more terrifying yet—into courtship. But then espresso-induced amnesia leaves him marooned in the backwater wilds of Big Sky Country, Montana, Earth, lost and alone but for a female with hair as dark as the night skies and hidden sparks in her eyes. Tisha Beauchamp just wanted a weekend in her granny's remote cabin with her girlfriends to figure out her life plan. No one said a thing about an early snowstorm or invading aliens! And now she's stuck in the mountains by herself—until her one-woman pity party gets crashed by a wild, red-haired man with no memories, strange dragon-ish tattoos, and a scorching touch... Though he has forgotten his name, his beast, and the freedom of space, the feverish urge to claim Tisha grows stronger with every night under the pale light of Earth's solitary moon. But if he finds his way back to his ship and himself, how can he burn forever with his bold, bright Earther girl? DARK MATTER While it is a verifiable reality that the universe is vast and strange, no one in all those lightyears could ever love an emotionless, soul-sucking space vampire. Unless there are deeper truths out there somewhere... The secretive, ancient species of the vrykoly were designed to pilot the deathly cold distances of space, and Ivan has never known anything else; even his dreams have always been black and empty. Though he guides the Sinner's Prayer to a

neglected little planet to find brides from the Intergalactic Dating Agency, Ivan dispassionately considers bonding and mating to be irrational pursuits. But when his captain and first officer find incandescent love with the extraordinary females of Earth, this vrykoly is forced to wonder if he was—dare he say it?—wrong. After the tragic death of her first love, Montana river guide Delaney Nazario thought she'd be alone forevermore. So she quietly signed up with the Big Sky matchmaking outpost in Sunset Falls, hoping an alien will whisk her away. Instead it was her two roommates who found their mates—also staving off an attack by interstellar mercenaries trying to kidnap Earth women. Now Del is being guarded by a silent, hulking, scary vrykoly—who might be the only being in the universe she could never, ever date. But while there are deeper truths in the universe, there is also secret menace. And Big Sky's only hope is a space vampire who's never felt anything and an Earther girl who feels too much.

**AFTER BURN** When Vaughn Quaye's older sister goes missing in Big Sky Country, she's willing to risk everything to hunt down the only man who seems to know anything about the mysterious mail order bride agency that closed under suspicious circumstances. Except Vaughn is risking more than her life—she's discovering a universe of danger and desire she never knew existed. Dejo Jinn, sole proprietor of Jinn Data Recovery, just wants to steal—no, sorry, not steal, recover—the data left behind at the abandoned Intergalactic Dating Agency when it was forced to close after mistakenly losing some brides. He has no interest in revealing his extraterrestrialness to a clueless if distractingly curvy Earther, but after they are attacked and she sees his green blood, his secret is outed. Now reluctant partners, he'll have the chance to steal—sorry, recover—the valuable data and she'll get her sister back. Assuming they don't end up dead. Or worse yet, end up dating. \_\_\_\_\_

American Gun Culture Jimmy D. Taylor, 2009 Taylor focuses on the value that gun owners place on their guns and the

possibility that different guns mean different things to their owners. His research explores the symbolic meaning of guns, and the ways in which the meaning assigned to guns influences gun ownership and use. Some of the more interesting findings center around conversations with gun collectors and enthusiasts about a series of interaction rituals; rituals pertaining to being a gun owner, a gun user, and possibly even the gun as an object of near-worship. Gun owners also recognize a unique stigma, and respond through a complex series of stigma management techniques.

**Rough Forged** W. Darrin Weaver, Sr., 2020-09 *Rough Forged* is the expansive revision of the author's 2000 text and covers the history and development of German self-loading rifles starting from the late 1800s, to World War One, the inter-war years, through to the Gewehr 41, Gewehr 43 and Karabiner 43 rifles, optics and accessories of World War Two. When the Wehrmacht plunged into Poland in 1939, the individual German soldier found himself issued with weapons and equipment little different than his father had been given in World War One. And, just as their fathers had done a generation before, German soldiers went off to war armed with a version of the venerable Mauser 98 rifle. Sure, it had been improved, shortened, lightened, the bolt handle bent down- but it remained a slow, outdated, bolt-action design, better suited to an age past. It didn't take long to realize that the K.98k was outdated, but it would take the better part of four more years of bloody conflict before German troops began to receive sizeable numbers of semi-automatic rifles. The World War Two self-loading G.41, G.43, and K.43 rifles of course are the whole purpose and make up the bulk of these texts. But, with the United States and the Soviet Union fielding large numbers of self-loading rifles by the eve of WW2, many historians, researchers and collectors alike often ask the same fundamental question: why had Germany, a nation that designed and built some of the greatest airplanes, armored vehicles, artillery, and machine guns the world had ever seen, been so slow to the game when it came

to self-loading rifles? This issue and many more are explored in depth within this copiously illustrated two-volume set, that also includes markings, codes, production differences, telescope development history, rifle and optical accessories, and detailed appendices covering all of the major manufacturers' production codes and manufacturing variants. *Rough Forged* is the definitive study for all who collect and are interested in German World War Two self-loading rifles!
