Mankind also changed: the familiar human face is almost forgotten in a world now populated wholly by mutants. Investigation of Colorless and Water-based Concrete Curing Compounds C. F. Derrington, 1969 Eleven compounds designated as colorless and two designated as water-based were evaluated to their suitability for curing of concrete and for their lack of color. All met present requirements for sprayability, drying time, and flash point. Only ten met the moisture- retention requirements. The three that failed the moisture test were one styrene- acrylate resin and both water-based compounds. Infrared analysis revealed that the colorless materials represent 5 different chemical classes: 4 chlorinated rubbers; 2 modified styrene-butadienes; 1 phthalic alkyd; 3 carboxylated hydrocarbons; and 1 styrene- acrylate. Both water-based materials were identified as sodium silicate liquids. Infrared measurements were used to detect chemical and physical changes of the colorless materials when exposed to laboratory conditions and natural sunlight. (Author, modified-PL).

Colorless Rita Stradling, 2017-07-30 In Domengrad, there are rules all must live by: Fear the Gods. Worship the Magicians. Forsake the Iconoclasts. To Annabelle Klein, the rules laid down by the Magicians are the mere ramblings of stuffy old men. As far as she's concerned, the historic Iconoclasts, heretics who nearly destroyed the Magicians so long ago, are nothing but myth. She has much more important matters to worry about. Heiress to a manor mortgaged down to its candlesticks and betrothed to her loathsome cousin, sixteen-year-old

Annabelle doubts the gods could forsake her more. Then Annabelle is informed of her parents' sudden and simultaneous deaths, and all of the pigment drips out of her skin and hair, leaving her colorless. Within moments, Annabelle is invisible and forgotten by all who know her. Living like a wraith in her own home, Annabelle discovers that to regain her color she must solve the mystery behind her parents' murders and her strange transformation. Meanwhile, hundreds of the Magicians' monks, with their all-black eyes and conjoined minds, have usurped control of Annabelle's family manor. An Iconoclast is rumored to be about-a person who they claim goes unseen, unheard, and lost to memory, yet is the greatest threat to all of Domengrad. For the first time in a hundred years, the monks plan to unleash the dire wolves of old. Their only target: Annabelle.

A Colorless Blue M W Muse, 2017-03-07 I have everything. Rich parents, popular friends, hot boyfriend. An expectation to be a colorless, snobby stereotype. I don't like maintaining that image, but I get it. I know the drill. Until one day when I can't stop bleeding, and that shell of a charmed life shatters in the wake of my new reality. I have everything. Including leukemia. As soon as I get rid of this cancer, things can be normal again. Denial. It's such a beautiful thing until that thin veil crashes down. But left standing in the debris is a boy who brings color into this dying girl, who is there at my lowest and teaches me what it really means to live. A boy who urges me to fight a losing battle because my death would tear him apart. A boy who is not my boyfriend. And a death that will find me anyway.
