Cuchillo Corvo Combat Knife of Chile James Loriega,Fernan Vargas,2017-03-17 The traditional Corvo is a bladed weapon that is popularly regarded as the national knife of Chile. As such, it ranks alongside the Navaja of Spain, the Kukri of Nepal, and the America Bowie as a blade that was pivotal in the wars-and ultimately, the history-of its nation. The Corvo knife was so uniformly carried by Chileans that it saw wide use in Chile's 19th century War of Tndependence from Bolivia. So significant was the Corvo's prevalence in the war that the knife was officially adopted by the Chilean military. Today, the Special Commandos adhere to a uniquely-developed curriculum for the combative use of the Corvo, which includes its proper deployment in confronting enemy opponents, whether unarmed, or wielding knives, entrenching tools, or bayonets. In this book two edged weapons Masters, Fernan Vargas and James Loriega take you on a journey to explore the history, culture and use of the Corvo.

Before creating one of the most effective knife-defence systems in modern warfare, Echanis studied under the supreme grandmaster of hwa rang do, Joo Bang Lee, and specialised in un shin bup, the Korean counterpart to ninjutsu.

The Complete Book Of Knife Fighting William L. Cassidy,1975 This is the classic book on knife fighting from one of the world's foremost experts. Knives Of War Gordon Hughes,Robert A Buerlein,2006-07-01 This book has the widest array of international fighting knives ever assembled! Compiled by three of the most recognized names in historical military knives, Knives of War presents detailed line drawings, rare historical photos and fascinating facts and anecdotes about the edged weapons used by both sides during World Wars I and II, as well as contemporary fighting knives since World War II. A number of World War II veterans who used these weapons on (or behind) the front lines in elite units enthusiastically shared inside information with the authors, and it is presented here for the first time. Of particular interest is some previously unknown information about the U.S. Marine Raider Gung Ho Knife and the Gerber Mark II Combat Knife, as well as a wealth of details on the most famous fighting knife of all, the Fairbairn-Sykes. Among the other edged weapons examined in this book are big knives; knuckle knives; folding and gravity military knives; bayonet and sword conversions; ceremonial hangers; and trench clubs.

KA-BAR Greg Walker,2001-01-01 The KA-BAR Fighting/Utility Knife is the most widely recognized and popular combat knife ever to be produced in the United States. Since its introduction on 23 November 1942, the KA-BAR has performed brilliantly on the battlefields of Europe, the South Pacific, Korea, Southeast Asia, Central America and the Middle East, earning its moniker as the ultimate fighting knife. Early in 1995 the KA-BAR company decided to update the venerable combat veteran to ensure its combat readiness for the next century and immediately began assembling a team of the top military combat men in the country. On this team was the author, Greg Walker. In this book Walker gives readers an inside view of the exacting design criteria, cutting-edge materials, extensive factory tests and exhaustive real-life field tests that went into the historic redesign of the blade, handguard, handle, pommel and sheath of the ultimate fighting knife of the future. The new fighting knife excelled at these rigorous tests, earning the right to be called a KA-BAR.

Allied Military Fighting Knives Robert A Buerlein,2002-01-01 Paladin is pleased to reissue this classic book in the field of military battle knives. THE KA-BAR KNIFE COMBAT MANUAL James Loriega,2020-04-02 The United States Marine Corps does not have this manual-or any manual on the combat use of the Ka-Bar knife. This, however, is not because they lack a structured knife combat method for training new recruits, or because the method is in any way secret or classified. They have a structured method, and it's not secret or classified. They just don't teach from a manual! Why? Simply because Marine Combat Instructors have their knife combat method internalized. They can teach it in their sleep, they can use the knife without even waking up-and they want Marine recruits to know this method in the same manner. Not to learn it-to internalize it. To own it! Because they won't have a manual with them when they need this knowledge to save their lives. Learn what they already know!

Randall Fighting Knives in Wartime Robert Eugene Hunt,2002 This first-ever publication offers the reader a colorful and interesting guide to Randall knives spanning WWII, the Korean War, and the Vietnam War, which involved American Soldiers, Sailors, Airmen and Marines. Pictured alongside the knives is a range of distinctive militaria, separating this book from other publications. A Collector's Value Guide rounds out this book, giving the reader an at-a-glance comparison of the value of each knife.

Bowies, Big Knives, And The Best Of Battle Blades Bill Bagwell,2000-11-01 This book binds the timeless observations and invaluable advice of master bladesmith and blade combat expert Bill Bagwell under one cover for the first time. As the outspoken author of Soldier of Fortune's Battle Blades column from 1984 to 1988, Bagwell was considered both outrageous and revolutionary in his advocacy of carrying fighting knives as long as 10 inches and his firm belief that the Bowie knife was the most effective and efficient fighting knife ever developed. His assignment as a contributing editor to SOF was to test and evaluate contemporary knives from all over the world, and he soon earned a reputation for cutting to the chase. Candid and frank almost to a fault, he told it like it was - and he could always back it up. Sixteen years after his first column made its debut, Bagwell's convictions on knife design and blade technique have gained validity in the industry, and he has earned the respect of even some of his most vocal critics. This book provides an unprecedented opportunity to study the design and use of Bowies and other big knives and learn which blade designs and combat techniques stand up to both the rigors of battle and the test of time.

Kukri Fernan Vargas,James Loriega,2018-05-11 The traditional Kukri is a bladed weapon that is popularly regarded as the national knife of Nepal. As such, it ranks alongside the Navaja of Spain, and the America Bowie as a blade that was pivotal in the wars-and ultimately, the history-of its nation. In this book two edged weapons Masters, Fernan Vargas and James Loriega take you on a journey to explore the history, culture and use of the Kukri

The Fighting Kukri Dwight C. Mclemore,2018-01-09 The kukri is one of the oldest combat/utility knives in existence today. Recognized as the national weapon of Nepal, the kukri has been associated with the British Army's fearsome Gurkha brigades since their creation. The unique downward slope of the blade gives the kukri its distinctive look and renowned ability to effect powerful, accurate cuts. In this latest addition to his Fighting Weapons series, Dwight McLemore explores the full range of kukri training and deployment. He presents a sprinkling of history with informed discussions of fighting approaches and numerous training exercises on cutting, thrusting, blocking, and the associated movement of a kukri fight. By mixing modern and historical concepts and illustrating the text with hundreds of his highly acclaimed instructional drawings, McLemore has created the first and perhaps ultimate training guide to this unique weapon. The Fighting Kukri is a must for martial artists, blade enthusiasts, historical reenactors, fight directors of stage and screen, and men and women of the armed forces.
