The Seed Gatherers Inge Meldgaard, 2013-10-19 In the year 2457, in the Dandenong Ranges, on the outskirts of Melbourne, Australia, a crime is committed by two young Norwegians that affects the entire community. If caught, Yngwie and his friend Torleif, who are expert communication systems hackers, must answer to the Federation Special Investigation Unit. Others use the event as inspiration, plunging the forests and its people into chaos. The lives of scientists, forest guardians and seed gatherers are placed at risk, as are their cats – remarkable creatures bred in special centres and able to influence human emotions. Meanwhile, a new and intriguing forest inhabitant is discovered and those who know of its existence must decide whether to reveal its secret. In this third book of the series, that began with 'The Cicada', followed by 'A Death In The Making', the story gradually links back to earlier, unresolved questions and continues to explore the relationship between the main characters and their feline companions.

Programming with UNIX Threads Charles J. Northrup, 1996-01-25 Now that multithreaded programming has brought concurrent processing within the reach of a far greater number of businesses and academic institutions, experienced UNIX C programmers need a comprehensive reference to help them take full advantage of this exciting new development. Programming with UNIX Threads is the book to fill that need. The most complete book available on the practical applications of UNIX Threads, this invaluable guide is packed with useful, concise examples that both clarify complex information and help you develop a glossary of practical functions that can be easily reused. Millennium Falcon: Star Wars Legends James Luceno, 2009-03-31 Two years have passed since Jacen Solo, seduced by the dark side and reanointed as the brutal Sith Lord Darth Caedus, died at the hands of his twin sister, Jaina, Sword of the Jedi. For a grieving Han and Leia, the shadow of their son's tragic downfall still looms large. But Jacen's own bright and loving daughter, Allana, offers a ray of hope for the future as she

thrives in her grandparents' care. And when the eager, inquisitive girl, in whom the Force grows ever stronger, makes a curious discovery aboard her grandfather's beloved spacecraft—the much-overhauled but ever-dependable Millennium Falcon—the Solo family finds itself at a new turning point, about to set out on an odyssey into uncertain territory, untold adventure, and unexpected rewards. To Han, who knows every bolt, weld, and sensor of the Falcon as if they were parts of himself, the strange device Allana shows him is utterly alien. But its confounding presence—and Allana's infectious desire to unravel its mystery—are impossible to dismiss. The only answer lies in backtracking into the past on a fact-finding expedition to retrace the people, places, and events in the checkered history of the vessel that's done everything from making the Kessel Run “in less than twelve parsecs” to helping topple an evil empire. From the moment the Falcon broke loose from a Corellian assembly line like an untamed creature with a will of its own, it seemed destined to seek out trouble. It wasn't long before the feisty YT-1300 freighter went from shuttling cargo to smuggling contraband. But it's a fateful rendezvous on Coruscant, at the explosive height of the Republic/Separatist uprising, that launches a galaxywide cat-and-mouse game whose newest players are Han, Leia, Allana, and C-3PO. And they're not alone: Crime lords, galactic pirates, rogue politicians, and fortune hunters alike loom at every turn of the quest—each with his or her own desperate stake in the Millennium Falcon's most momentous mission. Through the years and across the stars, from the Rim worlds to unknown points beyond, the race will lead them all to a final standoff for a prize some will risk everything to find—and pay any cost to possess. Features a bonus section following the novel that includes a primer on the Star Wars expanded universe, and over half a dozen excerpts from some of the most popular Star Wars books of the last thirty years!

Star Wars James Luceno, 2008 Two years have passed since the defeat of Darth Caedus, the former Jacen Solo. For a grieving Han and Leia, the shadow of their son's tragic downfall still looms large. But Jacen's own bright and loving daughter, Allana, offers a ray of hope for the future.

Jamie doubts she can ever achieve the peaceful life she dreams of—until she meets smart, idealistic Adele Sabellius. As their relationship deepens, almost anything seems possible. Soon, however, Jamie learns that something more menacing than nightmares and flashbacks has begun to twist the restless shadows around her. Stealth: Star Wars Legends (Clone Wars Gambit) Karen Miller, 2011-06-28 Planet by planet, darkness creeps across the galaxy. Among warriors and generals, among ordinary beings living in far-flung worlds, the fear will not go away: We are losing this war. . . . Anakin Skywalker feels it, too. The Separatist Alliance, with ruthlessness and treachery, is beating the Republic to every strategic target. But after a costly clash with General Grievous for the planet Kothlis, Anakin has a mission that will focus his anxious mind. Alongside Obi-Wan Kenobi, he is posing as a long-lost native of Lanteeb, an impoverished world on the Outer Rim. This seemingly unimportant planet has drawn the interest of the Seps—and Anakin and Obi-Wan soon discover the disturbing reason: A scientist enslaved by General Lok Durd is drawing on Lanteeb's one natural resource for a devastating

bioweapon. Now Anakin and Obi-Wan have entered the eye of a storm. Their presence has been exposed, Lok Durd's plans unveiled, and a fight has begun for survival behind enemy lines—and a chance of winning a war that must be fought at any cost. Features a bonus section following the novel that includes a primer on the Star Wars expanded universe, and over half a dozen excerpts from some of the most popular Star Wars books of the last thirty years!

FSpace Roleplaying Concise Rulebook 4.2 Martin Rait, 2008-03-01 FSpaceRPG is a science fiction roleplaying game in the classic mould. In the late 22nd century mankind expands into the stars only to find them in more turmoil than its own internal nationalism. Pitted against the onslaught of the expansion of the Stotatl Empire, humanity must defend itself while forging alliances with others who face absorption. Whether you're a Terran soldier or an Aronhi Warrior from the partially conquered Aronhi Empire, one goal stands supreme above all, survival. The wits and courage to stand and fight against superior odds and create victories from difficult situations. But not all the glory lies in the hands of warriors. Exploration of the vast wilderness that is space, charting dangers, finding resources and contacting potential allies is a cornerstone of survival. The conflict, intrigue, action and adventure of these times provide an exciting roleplaying environment for players, whether they like playing space marines, traders, spies, investigators or just general adventure seekers. The span of events in reality are all possible, giving a wide scope of play. If you don't like flying around the cosmos as a British Royal Space Marine then you could always visit a primitive society and face the challenge of worlds filled with mystery, fantasy and danger. The Concise rulebook contains all you need to generate characters, select equipment and play this roleplaying game. Includes information on robots, starships and vehicles as well. Plenty of information on the various alien races and empires exist, including character generation profiles for 15 races. This is a revised presentation of our prior book which includes 28 of the illustrations presented in colour. What you get The FSpaceRPG Concise Rulebook includes a 234 page rulebook with all the core rules for running this role-playing game as well as plenty of information on the universe.

The Life and Legend of Obi-Wan Kenobi Ryder Windham, 2011-05 Hermit. Mentor. General. Jedi. Overlooked as a Padawan, he was to become one of the most revered Masters of all. Sworn to serve the Galactic Republic and the Jedi Order, his own apprentice would bring about their destruction. Powerless to retrieve Darth Vader from the dark side, he would train the only one who could.

Scoundrels: Star Wars Legends Timothy Zahn, 2013-11-26 To make his biggest score, Han's ready to take even bigger risks. But even he can't do this job solo. NEW YORK TIMES BESTSELLER Han Solo should be basking in his moment of glory. After all, the cocky smuggler and captain of the Millennium Falcon just played a key role in the daring raid that destroyed the Death Star and landed the first serious blow to the Empire in its war against the Rebel Alliance. But after losing the reward his heroics earned him, Han's got nothing to celebrate. Especially since he's deep in debt to the ruthless crime lord Jabba the Hutt. There's a bounty on Han's head—and if he can't cough up the credits, he'll surely pay with his hide. The only thing that can save him is a king's ransom. Or maybe a gangster's fortune? That's what a mysterious stranger is offering in exchange for Han's less-than-legal help with a riskier-than-usual caper. The payoff will be more than enough for Han to settle up with Jabba—and ensure he never has to haggle with the Hutts again. All he has to do is infiltrate the ultra-fortified stronghold of a Black Sun crime syndicate underboss and crack the galaxy's most notoriously impregnable safe. It sounds like a job for miracle workers . . . or madmen. So Han assembles a gallery of rogues who are a little of both—including his indispensable sidekick Chewbacca and the cunning Lando Calrissian. If anyone can dodge, deceive, and defeat heavily

armed thugs, killer droids, and Imperial agents alike—and pull off the heist of the century—it's Solo's scoundrels. But will their crime really pay, or will it cost them the ultimate price? Praise for Scoundrels "Rapid-fire adventure [that] adds yet another dimension of enjoyment to a rousing galactic romp."—Library Journal "Highly entertaining . . . excellent Star Wars . . . There are many twists and turns [and] Zahn manages to find ways to twist them one step further than you'd expect."—Examiner.com "[Scoundrels] brings freshness to the franchise."—USA Today

Betrayal: Star Wars Legends (Legacy of the Force) Aaron Allston, 2008-04-29 This is the era of Luke Skywalker's legacy: the Jedi Master has unified the order into a cohesive group of powerful Jedi Knights. But as the new era begins, planetary interests threaten to disrupt this time of relative peace, and Luke is plagued with visions of an approaching darkness. Evil is rising again—out of the best intentions—and it looks as if the legacy of the Skywalkers may come full circle. Honor and duty will collide with friendship and blood ties as the Skywalker and Solo clans find themselves on opposing sides of an explosive conflict with potentially devastating repercussions for both families, for the Jedi order, and for the entire galaxy. When a mission to uncover an illegal missile factory on the planet Adumar ends in a violent ambush—from which Jedi Knight Jacen Solo and his protégé and cousin, Ben Skywalker, narrowly escape with their lives—it's the most alarming evidence yet that sparks of political unrest are threatening to ignite into total rebellion. The governments of numerous worlds are chafing under the strict regulations of the Galactic Alliance, and diplomatic efforts to enforce compliance are failing. Fearing the worst, the Alliance readies a preemptive display of military might in a bid to bring the rogue worlds in line before an uprising erupts. The designated target of this exercise: planet Corellia—renowned for the brash independence and renegade spirit that have made its favorite son, Han Solo, a legend. Something of a rogue himself, Jacen is nevertheless duty bound as a Jedi to stand with his uncle, Jedi Master Luke Skywalker, on the side of the Galactic Alliance. But when the wary Corellians launch a counterstrike, the Alliance's show of force—and a secret mission to disable Corellia's crucial Centerpoint Station—give way to an armed skirmish. Once the smoke clears, the battle lines are drawn. Now the specter of full-scale war looms between a growing cadre of defiant planets and the Galactic Alliance that some fear is becoming a new Empire. And even as both sides struggle to find a diplomatic solution, mysterious acts of treachery and sabotage threaten peace efforts at every turn. Determined to root out those behind the mayhem, Jacen follows a trail of cryptic clues to a dark rendezvous with the most shocking of revelations . . . while Luke grapples with something even more troubling: dream visions of a shadowy figure whose Force power and ruthlessness remind him of Darth Vader—a lethal enemy who strikes like a dark spirit on a mission of doom. An agent of evil who, if Luke's visions come to pass, will bring untold pain to the Jedi Master . . . and to the entire galaxy. Features a bonus section following the novel that includes a primer on the Star Wars expanded universe, and over half a dozen excerpts from some of the most popular Star Wars books of the last thirty years!

Spacers carve out an existence upon the bones of the old worlds, but things are about to change. . . something has begun broadcasting signals to reactivate PMCs that were stored in secret.
