Authentic Leadership Effectiveness for Individuals and Teams Tineke Wulffers,2017-10-31 True leadership has always been more difficult to maintain in challenging times, but the unique stressors facing organisations throughout the world today call for renewed attention to what constitutes truly positive leadership. In **AUTHENTIC LEADERSHIP EFFECTIVENESS for Individuals and Teams** Tineke Wulffers combines the best of academic research, with years of personal experience working with leaders and teams, to offer a practical guide on how to develop this type of leadership effectiveness in real life. This book is divided up as follows: Part I - Definition and impact of authentic leadership - considers the need for authentic leadership, gives an overview of what is generally understood by Authentic Leadership. It also focuses on the impact of leadership authenticity on inter-relational trust, on individual and team authentic leadership effectiveness. Part II - Development of authentic

leadership - forms the crux of this book. As the development of authentic leadership requires different considerations to what is mostly espoused in the field of leadership development, considerations and criteria for AL development and AL programmes are discussed. This is followed by a high-level and detailed overview of this specific individual and team ALE programme, which might well be a first. Finally, part II concludes with a detailed, followed by two high-level case studies of the effects of the ALE programme under discussion. Part III - Well-known examples of leaders through the lens of AL - even though AL programmes have not really been available before, such leadership can be developed by means of introspection and commitment to further development during a lifetime of life experiences and work episodes.

Indian Ocean Islands Christian Bouchard, Shafick Osman, 2018-12-07 Islands are intrinsic parts of the Indian Ocean Region's physical geography and human landscape. Historically, many have played substantial roles in the regional cultural and economic networks, as well as in the regional political developments. Today, at least three issues bring these islands back to the forefront of the regional and

global affairs, namely geopolitics and strategic matters, environmental conditions and challenges, as well as ocean affairs. However, there has not been yet a lot of research and publications on this phenomenon of islands' growing significance in the specific context of the Indian Ocean Region. This book provides a rare attempt to cover various issues related to geopolitics, international relations, history, security, anthropology and ocean/environment of Indian Ocean islands and their societies. More specifically, it provides case studies on Sri Lanka (foreign policy), Cocos and Christmas Islands (geo-strategy), Chagos Archipelago (history), Mauritius ('Indo-Mauritians'), Mauritius and Seychelles (maritime security), European Union and the Indian Ocean Islands (international relations), and Sundarban islands (environment and society). The chapters were originally published in a special issue of the Journal of the Indian Ocean Region.

All Heathens Marianne Chan, 2022-04-01 All Heathens is a declaration of ownership—of bodies, of histories, of time. Revisiting Magellan's voyage around the world, these poems explore the speaker's Filipino American identity by grappling with her relationship to her family and notions of diaspora,

circumnavigation, and discovery. Whether rewriting the origin story of Eve (“I always imagined that the serpent had the legs of a seductive woman in black nylons”), or ruminating on what-should-have-been-said “when the man at the party said he wanted to own a Filipino,” Chan paints wry, witty renderings of anecdotal and folkloric histories, while both preserving and unveiling a self-identity that dares any other to try and claim it.
