

Convertible Cabriolet

Anton Myrer

Volkswagen Beetle Cabriolet Malcolm Bobbitt, 2022-01-21 Written by Malcolm Bobbitt – whose companion Volkswagen titles cover the Karmann Ghia coupé and convertible, and possibly the greatest classic of all time, the VW Bus – this new edition of Volkswagen Beetle Cabriolet chronicles the history of this practical and sought after convertible Beetles from the classic era. The author traces the Beetle Cabrio's ancestry from its pre-war origins, following its development through to 1980, by which time more than 330,000 examples had been built, and up to the present day, when the New Beetle cabriolet continues to be in strong demand worldwide. As VW's engineering quality has ensured a very high survival rate, this book is also a guide to Beetle Cabrio ownership, providing buying advice, specifications, and information on customising. Includes a chapter devoted to the New Beetle.

Classic Convertibles J. G. Newbery, 1994-04

Classic American Convertibles James M. Flammang, 1996

Classic Convertibles Chris Rees, 2003 Convertibles are among the most popular and desirable of cars. Detailed information is given in specification boxes for body/chassis, engine, transmission and suspension. Special features focus on topics such as the history of the convertible, specialist cars and the exciting classic cars of the future.

Convertibles Consumer Guide Editors, The Auto Editors of Consumer Guide, 1993 The American convertible is more than a car. It's a way of life, for no other body style combines the pleasures of luxury and open air motoring.

Cadillac Convertibles 1949-1969 Don Narus, 2013-03-25 In 1948 while the rest of the industry geared up to selling their warmed over pre World War II models, Cadillac introduced an all new design with styling cues taken from a World War II fighter plane, the P-38. The plane's twin tail booms inspired the rear fender tail fins. An ERA was born. Tail fins would dominate the US auto industry for the next two decades. Welcome to the 1950's and 1960's. Tail-fins, lots of chrome and bright colors. The big American cars we all love.--Back cover.

Classic Convertibles Nicky Wright, 1997 A photographic history of the American convertible car from the first model in 1927, to the Duesenbergs, Packards, Lincolns, Auburns, Cords and Buicks of the 1930s to the Chryslers, Cadillacs, Chevrolets, Thunderbirds and de Sotos of the 1940s.

My Cool Convertible Chris Haddon, 2016-08-01 This latest title in the highly successful 'my cool' vehicle series covers the world of open top motoring. Cruising in a convertible car with the top down started out as an American summer tradition and for many drivers around the world there is nothing better than driving down a country lane with the roof down, the wind sweeping your hair and the sun beating on your neck. The book includes a broad mix of 'cool' convertibles, and their owners, from vintage to classic and modern, with eye-catching photography and locations, captured by specialist car photographer Lyndon McNeil. Convertible cars come in all shapes and sizes from compact city cabriolets such as the Talbot Samba to roadsters such as the Lotus Elan Sprint and grand tourers such as the Aston Martin DB6. Every one of them enjoys a sense of open-air freedom and greater involvement in the driving experience. Think sun, wind and speed. In many ways, the convertible car is the ultimate expression of automotive indulgence. A car with a roof is sensible but a car without a roof is sexy, scintillating and, given the chance, most of us would pay through the nose to own one. From the timeless

designs of early models (Lagonda, Rolls Royce Phantom II Continental, Frazer Nash BMW and the MG) to the mid century cars (Nash Metropolitan, Land Rover, Bristol and Renault Caravelle) and the retro/modern (Saab 900, Honda S800, Peugeot 304, VW Golf, Mercedes 380SL and Porsche 914), convertibles are among the most popular and desirable of cars. The convertible has gone through extreme highs and lows during more than a century of automotive history, from near ubiquity at the dawn of the car industry to nearly disappearing in the 1970s; and now once again being a highly popular type of car. The cars featured illustrate the highs and the lows of convertible design and show how convertible technology advanced from simple cloth tops (the 1931 Rolls Royce Phantom II Continental is an early example) to the advanced self-folding roofs of today and many other design features. Some of the most stylish marques are included: the most expensive in the book is the Frazer Nash BMW and the rarest the Fiat 1100 Barchetta.

Wide-Open Muscle Randy Leffingwell, 2016-05-17 Climb inside these stunning muscle car drop-tops, straight from the classic era of American high-performance cars! Today's rarest, priciest, and most highly sought-after muscle cars are also the least practical. These are the striking convertibles of the 1960s and 1970s that were optioned out for drag racing. Wide-Open Muscle showcases these rare cars and proves that sometimes it pays to throw practicality out the window in order to make something purely cool and fun to drive. At the peak of drag racing popularity, it was common knowledge that racers needed the lightest, most rigid-framed cars available. Convertibles represent the exact opposite of that description, so it's amazing that these drop tops ever emerged amid the circle of full-throttle dragsters. While typical convertible drivers cruised around listening to the latest Lovin' Spoonful release in the eight-track tape deck, these muscle-car convertibles were equipped for rock 'n' roll speed. These topless muscle cars are so rare because few people had the dedication (or money) to buy a vehicle this impractical. They're valuable because they represent the absolute extreme of the entire muscle-car genre. All the cars in Wide-Open Muscle are shot in similar fashion, studio-style with a black background using a process known as light painting. It is the ultimate portrayal of the ultimate muscle cars.

Convertibles Giuseppe Guzzardi, Luigi Enzo Rizzo, 1999 The convertible has always symbolized fun and a free-spirit. Stunning photographs characterize this look at the 'plein air' from 1888 through today's sleek models.

Classic Convertibles Graham Robensen, 1996-03

Convertibles Giuseppe Guzzardi, Enzo Rizzo, 2000-03-01 The convertible has always symbolized fun and a free-spirit. Stunning photographs characterize this look at the 'plein air' from 1888 through today's sleek models.

The Great American Convertible Richard M. Langworth, 1988

The Great American Convertibles, 1999

Convertibles Thomas Streissguth, Gil Chandler, 2000-02 Cruisin' covers the equipment, technology, engineering, design, execution, competition, maintenance, modification, everyday use, and the people behind marvelous mechanized machines. Vehicles of all kinds are fascinating for young readers, and this series offers a wide variety of more-than-just-transportation books. In response to the many requests for vehicle books aimed at the young reader, these high-interest titles will inform and delight. Each book contains an index, bibliography, glossary.

Convertibles Dennis Adler, 2011-06-24 Convertibles (in the First Gear

series) is a celebration of the classic drop-top, from the earliest of coach cars where convertible style was the norm, to the high-end sports cars of today. Today's convertible is a metaphor for freedom on the open road. To drop the top and feel the wind and sun and to be able to cover up again in rain and cold represents the ultimate automotive luxury. From Ford's Model T to sporty Jaguar roadsters, from classic Chevys to modern Miatas, the convertible is a body style that never goes out of style. Convertibles profiles more than 60 cars in wonderful photographic detail. Each car profile includes its history, performance specs, trivia, and a color photo gallery. For the dedicated auto enthusiast or the casual or budding fan, this book is an entertaining survey of the greatest convertibles ever made.

VW Beetle Cabriolet Malcolm Bobbitt, 2002 Karmann Ghia built the majority of VW Beetle Cabriolets between 1948 and 1980. Today, these convertible Beetles are much sought as practical, durable classics. This book tells the full story of the Beetle Cabriolet.

The Last Convertible Anton Myrer, 2008-03-04 Book description to come.

Lincoln Convertibles 1939-1959 Don Narus, 2013 Covers Lincoln, Continental, Zephyr, Edsel and Mercury 1939-1959, a pictorial history, with the emphasis on close-up details. Lots of useful information. Over 200+ B&W photos, 125 pages. Soft cover. Great reference and restorers guide. Smart addition to your auto library.

Legendary Convertibles Saverio Villa, Mark Coletto, Andrea Rapelli, 2012 For over a century, the convertible car has been considered the epitome of sporting luxury. No other form of motoring is able to offer such an unparalleled connection to the driving experience - the thundering tones of the engine amplified tenfold, the rush of hot air through your hair, the warmth of the Mediterranean sun on the back of your neck. The convertible is also the car of choice for the glitterati and celebrities of the world, from movie stars to sporting heroes and even royalty - in fact, anybody who wants to see and be seen on the streets of Beverly Hills or the boulevards of Monte Carlo. From the ostentatious and leviathan prewar Hispano Suizas, Delahayes and Auburns, through the beautiful curves and sweeping lines of the iconic Jaguars, BMWs and Ferraris of the '50s and '60s and on to the computer-designed, technology-laden, open-top hyper-cars of the new millennia, the convertible is forever the ultimate representation of automotive excitement. AUTHOR: Saverio Villa is a journalist who specializes in the field of cars and motors in general, with a particular interest in the historical and technological aspects, and in vintage cars. He began his professional career with the magazine Auto. He has occupied the post of Deputy Editor of Evo, and has been in charge of the motoring section of Panorama. He has also been Editor of Auto oggi and Panoramauto. He is currently Editorial Director of the monthly magazine Autorama, of the TV program Yellow TV and the Asapress agency, and he also works with Auto, AM, and Corriere della Sera. Mark Coletto is a journalist expert on cars and sport. He started his professional career at Auto oggi and currently works with the magazines Panoramauto and Evo. He also writes for the Panorama.it and Panoramauto.it Websites, in addition to Autorama and the TV program Yellow TV. Andrea Rapelli is a journalist. He has always loved motors and specializes in production cars and road tests. He is also interested in vintage cars and motorcycles. Today he writes for Evo and Panoramauto, and edits the motoring page of PC Professionale. ILLUSTRATIONS: Colour
