**George Mann**

**San Diego Siege** Don Pendleton, 2014-12-16 To save a city that's corrupt to its core, the Executioner launches a quiet assault. San Diego has one of the finest harbors in the world, easy access to Mexico, and more federal dollars than anywhere else in the country. This combination has made it irresistible to the mob, which runs the city from top to bottom. In his one-man war against organized crime, Mack Bolan has never considered targeting San Diego. The city is too sick to save. Mack's old commander from Vietnam is in trouble with the San Diego syndicate, and only the Executioner can save him. Once, Mack would have given anything for Howlin' Harlan Winters, but he's not sure he can trust him anymore. Taking down the San Diego mob will require a different kind of battle—a silent infiltration and a surgical assault. To back himself up, Bolan recruits the two surviving members of his long-disbanded Death Squad. If San Diego cannot be saved, it will have to be destroyed. *San Diego Siege* is the 14th book in the Executioner series, but you may enjoy reading the series in any order.

**Death Penalty: A Cruel and Inhuman Punishment** Luis Arroyo Zapatero, William Schabas, Kanako Takayama, Marta Muñoz de Morales, Universidad de Castilla-La Mancha, uclm, 2015-01-20 *Death penalty: A cruel and inhuman punishment* is an academic contribution by Academics for abolition aimed at fostering the debate launched by the United Nations General Assembly in its resolution 62/149 on 18 December 2007, calling for a worldwide moratorium on executions by 2015, and continued by the upcoming review process of the UN's Millennium Development Goals (MDG). It is mainly a compilation of papers written by the speakers at the Seminar "Against cruel and inhuman punishment and death penalty", which took place at the Real Academia de Bellas Artes de San Fernando, in Madrid, on 9 June 2013, on the eve of the 5th World Congress against the death penalty. The book deals with

current issues of the process towards abolition as the lack of evidence about the deterrence effect of death penalty and its consideration as a cruel and inhuman punishment. Together with the editors, the contribution includes studies, among others, of H.J. Albrecht, Gabrio Forti, Roger Hood, Salim Himnat and Sergio García Ramírez. The Academic International Network against the Death Penalty (REPECAP) dedicates this book to the International Commission against the Death Penalty (ICDP) chaired by Federico Mayor Zaragoza.

*Carnage Code* Don Pendleton, 2007-11-01 When the CIA intercepts a coded message that reveals the delivery of nuclear materials to Sudan, the U.S. decides to investigate this North African hot spot. Mack Bolan's hard probe exposes a renegade faction deep within the Sudanese government that's planning to nuke its Ethiopian neighbors into oblivion—an event that could lead to global war. Bolan is greeted in a hail of bullets as he enters Khartoum with a young journalist and an old spy as backup. Going on the offensive, he must smoke out an enemy operating undercover in the country's law enforcement, intelligence and diplomatic agencies. With a lethal shipment of plutonium to track down, the Executioner wastes no time using the kind of hard-core diplomacy that gets the job done.

Death Squad Don Pendleton, 2014-12-16 “Action adventure icon” Mack Bolan, aka the Executioner, is back—and this time he's got backup (Los Angeles Times). After Mafia pressure destroyed his family, ace sniper Mack Bolan left the jungles of Southeast Asia to declare a new war on the home front. A one-man army, he wiped out the mob in his Massachusetts hometown. That was just the beginning. Hunted by the police, tracked by the FBI, and carrying a price on his head, Bolan is on the move. After crossing paths with an old war buddy in Los Angeles, the Executioner devises a plan. He's going to round up the best sharpshooters, scouts, demo experts, and hard-core killers, and clean up the West Coast. Ten ruthless soldiers in all, forged in the

fires of Vietnam . . . The Executioner's own Death Squad. When Don Pendleton created Mack Bolan, the iconic vigilante action hero "who would make Jack Reacher think twice," he established nothing less than a publishing landmark (Empireonline.com). With more than two hundred million Executioner books sold to date, its influence on the action genre is still being felt. In cocreating his Marvel Comics avenger, The Punisher, Gerry Conway admits: "I was fascinated by the Don Pendleton Executioner character . . . I wanted to do something that was inspired by that." Now in development as a major motion picture, the Executioner series lives on. Death Squad is the 2nd book in the Executioner series, but you may enjoy reading the series in any order.

*Hitler's Executioner* Helmut Ortner, 2018-11-30 The biography of the infamous judge who oversaw Nazi justice for the Third

Reich as president of the "People's Court." Though little known, the name of the judge Roland Freisler is inextricably linked to the judiciary in Nazi Germany. As well as serving as the State Secretary of the Reich Ministry of Justice, he was the notorious president of the "People's Court," a man directly responsible for more than 2,200 death sentences; with almost no exceptions, cases in the "People's Court" had predetermined guilty verdicts. It was Freisler, for example, who tried three activists of the White Rose resistance movement in February 1943. He found them guilty of treason and sentenced the trio to death by beheading; a sentence carried out the same day by guillotine. In August 1944, Freisler played a central role in the show trials that followed the failed attempt to assassinate Adolf Hitler on 20 July that year—a plot known more commonly as Operation Valkyrie. Many of the ringleaders were tried by Freisler in the "People's Court." Nearly all of those found guilty were sentenced to death by hanging, the sentences being carried out within two hours of the verdicts being passed. Roland Freisler's mastery of legal texts and dramatic courtroom verbal dexterity made him the most feared judge in the Third Reich. In this in-depth examination, Helmut Ortner not only investigates the development and judgments of the Nazi tribunal, but the career of Freisler, a man who was killed in February 1945 during an Allied air raid.

*The Executioner's Men* George W. Grayson, 2017-09-08 Los Zetas represent a new generation of ruthless, sadistic pragmatists in Mexico and Central America who are impelling a tectonic shift among drug trafficking organizations in the Americas. Mexico's marines have taken down the cartel's top leaders; nevertheless, these capos and their desperados have forever altered how criminal business is conducted in the Western Hemisphere. This narrative brings an unprecedented level of detail in describing how Los Zetas became Mexico's most diabolical criminal organization before suffering severe losses. In their heyday, Los Zetas controlled networks of American police, politicians, judges,

and businessmen. The Mexican government is losing its war on drugs, despite the military, technical, and intelligence resources provided by its northern neighbor. Subcontracted street gangs operate in hundreds of US cities, purchasing weapons, delivering product, executing targeted foes, and bribing the US Border Patrol. Despite crippling losses Los Zetas still dominate Nuevo Laredo, the major portal for legal and illegal bilateral commerce. They also work hand-in-glove with the underworld in Guatemala, El Salvador, and Honduras, as well as with gangs like the Maras Salvatruchas.

### **Defiled Trades and Social Outcasts** Kathy

Stuart, 2000-05-04 This book presents a social and cultural history of 'dishonourable people' (unehrliche Leute), an outcast group in early modern Germany. Executioners, skinners, grave-diggers, shepherds, barber-surgeons, millers, linen-weavers, sow-gelders, latrine-cleaners, and bailiffs were among the 'dishonourable' by virtue of their trades. This dishonour was either hereditary, often through several generations, or it arose from ritual pollution whereby honourable citizens could become dishonourable by coming into casual contact with members of the outcast group. The dishonourable milieu of the city of Augsburg from the sixteenth to the eighteenth centuries is reconstructed to show the extent to which dishonour determined the life-chances and self-identity of dishonourable people. The book then investigates how honourable estates interacted with dishonourable people, and how the pollution anxieties of early modern Germans structured social and political relations within honourable society.

Executioner's Current Richard Moran, 2007-12-18 A fascinating and provocative story (The Washington Post) of high stakes competition between two titans that shows how the electric chair developed through an effort by one nineteenth-century electric company to discredit the other. In 1882, Thomas Edison ushered in the “age of electricity” when he illuminated Manhattan’s Pearl Street with his direct current (DC) system. Six years later, George Westinghouse lit up Buffalo with his less expensive alternating current (AC). The two men quickly became locked in a fierce rivalry, made all the more complicated by a novel new application for their product: the electric chair. When Edison set out to persuade the state of New York to use Westinghouse’s current to execute condemned criminals, Westinghouse fought back in court, attempting to stop the first electrocution and keep AC from becoming the “executioner’s current.” In this meticulously researched account of the ensuing legal battle and the horribly botched first execution, Moran raises disturbing questions not only about electrocution, but about about our society’s tendency to rely on new technologies to answer moral questions.

**An Execution in the Family** Robert Meeropol, 2007-04-01 Robert Meeropol was six years old in 1953 when his parents, Ethel and Julius Rosenberg, were executed after being convicted of Conspiracy to Commit Espionage on behalf of the Soviet Union

at the height of the McCarthy era. Just before they were put to death, the Rosenbergs wrote a letter to their two sons saying they were secure in the knowledge that others would carry on after them. The Rosenbergs left their young sons a legacy that was both a burden and a gift, as well as an aching emotional void. Robert Meeropol grew up torn between the need to pursue his political values and his intense fear that personal exposure might subject him and his family to violence or even death. An Execution in the Family details Robert Meeropol's political odyssey from being the Rosenbergs' son to becoming a prominent political activist in his own right, and it chronicles a very personal journey of self-discovery. This is the story of how he tried to balance a strong desire to live a normal life and raise a family with a growing need to create something useful out of his childhood nightmare. It is also a poignant account of how, at age forty-three, he finally found a way to honor his parents and be true to himself.

**The Executioner's Journal** Joel F. Harrington, 2016-09-02

During a career lasting nearly half a century, Meister Frantz Schmidt (1554-1634) personally put to death 392 individuals and tortured, flogged, or disfigured hundreds more. The remarkable number of victims, as well as the officially sanctioned context in which they suffered at Schmidt's hands, was the story of Joel Harrington's much-discussed book *The Faithful Executioner*. The foundation of that celebrated work was Schmidt's own journal--notable not only for the shocking story it told but, in an age when people rarely kept diaries, for its mere existence. Available now in Harrington's new translation, this fascinating document provides the modern reader with a rare firsthand perspective on the thoughts and experiences of an executioner who routinely carried out acts of state brutality yet remained a revered member of the local community, widely respected for his piety, steadfastness, and popular healing. Based on a long-lost manuscript thought to be the most faithful to the original journal, this modern English

translation is fully annotated and includes an introduction providing historical context as well as a biographical portrait of Schmidt himself. The executioner appears to us not as the frightening brute we might expect but as a surprisingly thoughtful, complex person with a unique voice, and in these pages his world emerges as vivid and unforgettable. **The Executioner's Song** Norman Mailer, 2012-05-08 Norman Mailer's Pulitzer Prize-winning and unforgettable classic about convicted killer Gary Gilmore now in a brand-new edition. Arguably the greatest book from America's most heroically ambitious writer, *THE EXECUTIONER'S SONG* follows the short, blighted life of Gary Gilmore who became famous after he robbed two men in 1976 and killed them in cold blood. After being tried and convicted, he immediately insisted on being executed for his crime. To do so, he fought a system that seemed intent on keeping him alive long after it had sentenced him to death. And that fight for the right to die is what made him famous. Mailer tells not only Gilmore's story, but those of the men and women caught in the web of his life and drawn into his procession toward the firing squad. All with implacable authority, steely compassion, and a restraint that evokes the parched landscape and stern

theology of Gilmore's Utah. THE EXECUTIONER'S SONG is a trip down the wrong side of the tracks to the deepest source of American loneliness and violence. It is a towering achievement-impossible to put down, impossible to forget. (280,000 words)
