**Post Corona** Scott Galloway, 2020-11-24 New York Times bestseller! Few are better positioned to illuminate the vagaries of this transformation than Galloway, a tech entrepreneur, author and professor at New York University's Stern School. In brisk prose and catchy illustrations, he vividly demonstrates how the largest technology companies turned the crisis of the pandemic into the market-share-grabbing opportunity of a lifetime. --The New York Times As good an analysis as you could wish to read. --The Financial Times From bestselling author and NYU Business School professor Scott Galloway comes a keenly insightful, urgent analysis of who stands to win and who's at risk to lose in a post-pandemic world The COVID-19 outbreak has turned bedrooms into offices, pitted young against old, and widened the gaps between rich and poor, red and blue, the mask wearers and the mask haters. Some businesses--like home exercise company Peloton, video conference software maker Zoom, and Amazon--woke up to find themselves crushed under an avalanche of consumer demand. Others--like the restaurant, travel, hospitality, and live entertainment industries--scrambled to escape obliteration. But as New York Times bestselling author Scott Galloway argues, the pandemic has not been a change agent so much as an accelerant of trends already well underway. In *Post Corona*, he outlines the contours of the crisis and the opportunities that lie ahead. Some businesses, like the powerful tech monopolies, will thrive as a result of the disruption. Other industries, like higher education, will struggle to maintain a value proposition that no longer makes sense when we can't stand shoulder to shoulder. And the pandemic has accelerated deeper trends in government and society, exposing a widening gap between our vision of America as a land of opportunity, and the troubling realities of our declining wellbeing. Combining his signature humor and brash style with sharp business insights and the occasional dose of righteous anger, Galloway offers both warning and hope in equal measure. As he writes, Our commonwealth didn't just happen, it was shaped. We chose this path--no trend is permanent and can't be made worse or corrected.

**The Corona Transmissions** Sherri Mitchell, Richard Grossinger, Kathy Glass, 2020-11-17 • Includes contributions from 35 well-known authors, doctors, herbalists, First Nations teachers, economists, astrologers, and others, such as Richard Strozzi-Heckler, Annabel Lee, Matthew Wood, Gabriel Cousens, M.D., Rob Brezsky, and Robert Simmons • All royalties for this book go to the Land Peace foundation, serving First Nations tribes in Maine The pandemic of Coronavirus Disease 2019 (COVID-19) is the biggest event of our lifetimes. This global experience has affected human history, ecology, epidemiology, and supply chains with the suddenness of 9/11, yet with a far greater extent, duration, and toll--the end of which is not yet in sight. Exploring a broad spectrum of new perspectives on COVID-19, from the physical to the metaphysical, from ecological to political, from apocalyptic to proto-utopian, and from scientific facts and health tips to imaginings, visionings, poems, and awakenings, this anthology offers an antidote to the barrage of data and speculation from the mainstream. The 35 contributors, including Laura Aversano, Charles Eisenstein, Zoe Brezsky, Meryl Nass, M.D., Bobby Byrd, and Joel and Michelle Levey, address the virus as a fellow being, allowing it to speak to us and through us. They attempt to describe, understand, interpret, and decipher the virus at biological, serological, epidemiological, social, political, astrological, and ontological levels. The virus is explored in terms of cultural critique, divination, prophecy, warning, elucidation, and opportunity. Medical doctors, herbalists, naturopaths, indigenous healers, and homeopathic physicians tell us about coronavirus history, treatments, and prevention protocols; yoga teachers about cultivating inner

balance and harmony; and economists, poets, psychotherapists, and First Nations teachers about the vast effects of the virus and the way forward. They explore how the disease speaks directly and how it meticulously addresses our relationship to Gaia, to its animal, plant, and mineral kingdoms, to each other, and to the economies and dystopia we have created. As a visionary whole, *The Corona Transmissions* asks you to respond, to engage your wisdom and creative imagination, to resist easy categorization and resolutions, and to participate in a collective dance and chant for healing, peace, equality, and a habitable future. Viruses do not live except by virtue of us carrying them. We are the living ones and our bodies, minds, hearts, and spirits will prevail.

Corona, False Alarm? Karina Reiss, Sucharit Bhakdi, 2020-09-16 Does the race for vaccine development make sense? What are the chances of success? Will the vaccine be safe? Will people accept it?? In June 2020, *Corona, False Alarm?* exploded into the German market, selling 200,000 copies and 75,000 e-books in the first six weeks. No other topic dominates our attention as much as coronavirus and COVID-19, the infectious disease it triggers. There's been a global deluge of contradictory opinions, fake news, and politically controlled information. Differing views on the dangers posed by the pandemic have led to deep division and confusion, within governments, society, and even among friends and family. In *Corona, False Alarm?*, award-winning researchers Dr. Sucharit Bhakdi and Dr. Karina Reiss give clarity to these confusing and stressful times. They offer analysis of whether radical protective measures—including lockdown, social distancing, and mandatory masking—have been justified, and what the ramifications have been for society, the economy, and public health. Dr. Bhakdi and Dr. Reiss provide dates, facts, and background information, including: How Covid-19 compares with previous coronaviruses and the flu virus What infection numbers and the death rate really tell us The challenges around lockdown: Were the protective measures justified? Mandatory mask-wearing: Does the science support it? Vaccines: What are the chances of success? What are the risks? *Corona, False Alarm?* provides you with sound information and substantiated facts—and encourages you to form your own opinion on the corona crisis.

**Memories of Chicano History** Mario T. García, 2023-11-10 Who is Bert Corona? Though not readily identified by most Americans, nor indeed by many Mexican Americans, Corona is a man of enormous political commitment whose activism has spanned much of this century. Now his voice can be heard by the wide audience it deserves. In this landmark publication—the first autobiography by a major figure in Chicano history—Bert Corona relates his life story. Corona was born in El Paso in 1918. Inspired by his parents' participation in the Mexican Revolution, he dedicated his life to fighting economic and social injustice. An early labor organizer among ethnic communities in southern California, Corona has agitated for labor and civil rights

since the 1940s. His efforts continue today in campaigns to organize undocumented immigrants. This book evolved from a three-year oral history project between Bert Corona and historian Mario T. García. The result is a testimonio, a collaborative autobiography in which historical memories are preserved more through oral traditions than through written documents. Corona's story represents a collective memory of the Mexican-American community's struggle against discrimination and racism. His narration and García's analysis together provide a journey into the Mexican-American world. Bert Corona's reflections offer us an invaluable glimpse at the lifework of a major grass-roots American leader. His story is further enriched by biographical sketches of others whose names have been little recorded during six decades of American labor history.

*The Corona Crash* Grace Blakeley,2020-10-27 Free market, competitive capitalism is dead. The separation between politics and economics can no longer be sustained. In *The Corona Crash*, leading economics commentator Grace Blakeley theorises about the epoch-making changes that the coronavirus brings in its wake. We are living through a unique moment in history. The pandemic has caused the deepest global recession since the Second World War. Meanwhile the human cost is reflected in a still-rising death toll, as many states find themselves unable—and some unwilling—to grapple with the effects of the virus. Whatever happens, we can never go back to business as usual. This crisis will tip us into a new era of monopoly capitalism, argues Blakeley, as the corporate economy collapses into the arms of the state, and the tech giants grow to unprecedented proportions. We need a radical response. The recovery could see the transformation of our political, economic, and social systems based on the principles of the Green New Deal. If not, the alternatives, as Blakeley warns, may be even worse than we feared.

*Corona and Work around the Globe* Andreas Eckert,Felicitas Hentschke,2020-12-16 This book provides a global perspective on the transformations in the world of work caused by the COVID-19 pandemic. The collection of essays will break down the general statistics and trends into glimpses of concrete experiences of workers during pandemic, of workplaces transformed or destroyed, of workers protesting against political measures, of professions particularly exposed to the coronavirus, and also of the changing nature of some professions.

*Autobiography of Corona Virus and Lord of Death* K M Nandhini,2020-10-29 THIS BOOK SAYS ABOUT CORONA VIRUS AND LORD OF DEATH

**Corona, Climate, Chronic Emergency** Andreas Malm,2020-09-22 What does the COVID 19 tell us about the climate breakdown, and what should we do about it? The economic and social impact of the coronavirus pandemic has been unprecedented. Governments have spoken of being at war and find themselves forced to seek new powers in order to maintain social order and prevent the spread of the virus. This is often exercised with the notion that we will return to normal as soon as we can. What if that is not possible? Secondly, if the state can mobilize itself in the face of an invisible foe like this pandemic, it should also be able to confront visible dangers such as climate destruction with equal force. In *Corona, Climate, Chronic Emergency*, leading environmental thinker, Andreas Malm demands that this war-footing state should be applied on a permanent basis to the ongoing climate front line. He offers proposals on how the climate movement should use this present emergency to make that case. There can be no excuse for inaction any longer.

**Corona** Jason D. Antos,Constantine E. Theodosiou,2015-12-07 Nestled between old Newtown (today's Elmhurst) and the village of Flushing in the borough of Queens lies Corona. Blessed with an enchanting landscape, the area attracted development as early as 1854, when the West Flushing Land Company sought to create a suburban residential neighborhood in its midst. For Corona's cherished way of life, represented by Colonial-era farms, dirt roads, and gaslight streetlamps, this marked a distinct break from the past. Developer Benjamin Hitchcock's novel installment-plan system had helped

place Corona on the map for good by 1870, laying down a historical precedent for later communities like Forest Hills and Jackson Heights to take shape. Before Mets baseball and the US Open were fixtures on the local scene, New Yorkers flocked to the National Race Course, one of the first such complexes in the entire country, for an exciting day at the races. Meanwhile, in its Corona-based factory, the Tiffany Glass Company forged distinctive lamps and glassware that in time would become world famous.

**The Girls from Corona del Mar** Rufi Thorpe, 2015-06-09 Best friends Mia and Lorrie Ann couldn't be more different; where Mia is reckless and proudly hard-hearted, Lorrie Ann is kind, serenely beautiful, and seemingly immune to the kind of teenage mistakes that Mia can't help but make. But within a few years, fortunes change. Suddenly, Mia is free to grow up and adventure, falling in and out of love while Lorrie Ann is weighed down by responsibilities at home. And when good, nice, brave Lorrie Ann stops being so good, Mia must question how well she ever really knew her best friend in the first place.

Corona Mary Bryner Winn, 2012 Corona's circular boulevard gave rise to its nickname, The Circle City. The community hosted three world-class road races on its roadway-racetrack, Grand Boulevard, and became known as the Lemon Capital of the World with more than 11,000 acres of citrus crops. Then & Now: Corona shows the city's amazing transformation from a rural, agricultural enclave to a cosmopolitan, suburban community.
