Jennifer Thompson-Cannino, Ronald Cotton, Erin Torneo

Cotton Christopher Wilson,2006 Born with white skin in segregated Eureka, Mississippi, in 1950, African-American albino Lee Cotton struggles with his identity as a black person capable of gaining entry into white society and experiences in the early years of his life a romance with a Klansmans daughter, a freight train attack, and the womens liberation movement. By the author of Mischief. Reprint.

Picking Cotton Jennifer Thompson-Cannino,Ronald Cotton,Erin Torneo,2010-01-05 The New York Times best selling true story of an unlikely friendship forged between a woman and the man she incorrectly identified as her rapist and sent to prison for 11 years. Jennifer Thompson was raped at knifepoint by a man who broke into her apartment while she slept. She was able to escape, and eventually positively identified Ronald Cotton as her attacker. Ronald insisted that she was mistaken-- but Jennifer's positive identification was the compelling evidence that put him behind bars. After eleven years, Ronald was allowed to take a DNA test that proved his innocence. He was released, after serving more than a decade in prison for a crime he never committed. Two years later, Jennifer and Ronald met face to face-- and forged an unlikely friendship that changed both of their lives. With *Picking Cotton*, Jennifer and Ronald tell in their own words the harrowing details of their tragedy, and challenge our ideas of memory and judgment while demonstrating the profound nature of human grace and the healing power of forgiveness.

Empire of Cotton Sven Beckert,2015-11-10 WINNER OF THE BANCROFT PRIZE • A Pulitzer Prize finalist that's as unsettling as it is enlightening: a book that brilliantly weaves together the story of cotton with how the present global world came to exist. "Masterly ... An astonishing achievement." —The New York Times The empire of cotton was, from the beginning, a fulcrum of constant global struggle between slaves and planters, merchants and statesmen, workers and factory owners. Sven Beckert makes clear how these forces ushered in the world of modern capitalism, including the vast wealth and disturbing inequalities that are with us today. In a remarkably brief period, European entrepreneurs and powerful politicians recast the world's most significant manufacturing industry, combining imperial expansion and slave labor with new machines and wage workers to make and remake global capitalism.

Billy Cotton Mayer Rus, 2022-03-22 Billy Cotton's hand is deft and light, weaving together bold color palettes, custom-designed furniture and lighting, and striking artifacts and works of art to achieve livable and easy interiors for today. Cotton presents rooms that mix historical and modern influences, resulting in luxuriously sleek interiors for casual, yet sophisticated, living. The glamorous spaces—many designed for art-world clients, including Cindy Sherman and Lisa Yuskavage—are anchored in tradition but reflect the relaxed sensibilities of our time. Cotton shares his multiscaled approach to design—successful turns with his varied collections, which are often included in his interior projects. Furniture, lighting, wallpaper, tableware, and terra-cotta planters are part of his repertoire. Cotton's industrial designs—like his interiors—embody an intelligence and understanding of design history. This book, the designer's first, documents the groundbreaking work of a rising and notable talent and should be in the libraries of designers and connoisseurs of fine living.

High Cotton Gerard Helferich, 2017-10-05 This dirt-under-the-fingernails portrait of a small-time farmer follows Zack Killebrew over a single year as he struggles to defend his cotton against such timeless adversaries as weeds, insects, and drought, as well as such twenty-first-century threats as globalization. Over the course of the season, Helferich describes how this singular crop has stamped American history and culture like no other. Then, as Killebrew prepares to harvest his cotton, two hurricanes named Katrina and Rita devastate the Gulf Coast and barrel inland. Killebrew's tale is at once a glimpse into our nation's past, a rich commentary on our present, and a plain-sighted vision of the future of farming in the Mississippi Delta. On first publication, *High Cotton* won the Authors Award from the Mississippi Library Association. This updated edition includes a new afterword, which resumes the story of Zack Killebrew and his family, discusses how cotton farming has continued to change, and shows how the Delta has retained its elemental character.

Warp Speed Paul Mango, 2022-03-15 A powerful story of how our nation's leaders overcame the odds, saving the American people from the throes of a deadly pandemic. The prior record for vaccine development and distribution was approximately 4.5 years. Operation Warp Speed got the COVID-19 vaccine to the American people in less than 10 months. Operation Warp Speed did not happen by accident. It was the result of exceptional leadership, explicit strategy, and unprecedented teamwork. Author Paul Mango, the foremost leader of Operation Warp Speed and the former deputy chief of US Health and Human Services, chronicles the challenges and real dangers of developing the vaccine. In this harrowing, behind-the-scenes account of the

most successful public-private partnership since World War II, we learn how the nation's biggest leaders accomplished the impossible. Through sheer will and exceptional commitment, a small group of leaders fulfilled its mission, making the United States the only country in the world which could offer a vaccine to any citizen by April 2021, scarcely 14 months after the genetic identification of the virus.

Cotton Giorgio Riello,2013-04-11 Today's world textile and garment trade is valued at a staggering \$425 billion. We are told that under the pressure of increasing globalisation, it is India and China that are the new world manufacturing powerhouses. However, this is not a new phenomenon: until the industrial revolution, Asia manufactured great quantities of colourful printed cottons that were sold to places as far afield as Japan, West Africa and Europe. Cotton explores this earlier globalised economy and its transformation after 1750 as cotton led the way in the industrialisation of Europe. By the early nineteenth century, India, China and the Ottoman Empire switched from world producers to buyers of European cotton textiles, a position that they retained for over two hundred years. This is a fascinating and insightful story which ranges from Asian and European technologies and African slavery to cotton plantations in the Americas and consumer desires across the globe.
