Rebel City: Hong Kong's Year Of Water And Fire South China Morning Post Team,2020-05-21 SCMP's reporting team looks back at Hong Kong's most wrenching political crisis since its return to Chinese rule in 1997. Anti-extradition bill protests that morphed rapidly into a wider anti-government movement in 2019 left no aspect of the city untouched, from its social compact to its body politic to its open economy. The demonstrations which continued well into 2020 have tested every institution of the city, from the civil service to the police to the courts and even its rail transport operator, and from offices and businesses to universities and schools, and from churches to families and even friends. This book is for anyone seeking to understand not just what Hong Kong has gone through but also the global phenomenon of increasingly leaderless protest movements. Fueled by profound angst about the place of millennial youth in society, widening income inequality, and the speed of digital communications, Hong Kong was in retrospect ripe to be the laboratory for a new-age protest movement, nearly a decade after the Middle East's Arab spring. The essays in the book collectively compose a picture of a society in trauma, bent and broken, but showing signs of an uncanny ability to bounce back. What shape it will be in a few years from now, however, is much harder to predict. Related Link(s)

Facts and Analysis: Canvassing COVID-19 Responses Linda Chelan Li,2021-03-01 It is impossible to reflect on 2020 without discussing Covid-19. The term, literally meaning corona- (CO) virus (VI) disease (D) of 2019, has become synonymous with “the virus”, “corona” and “the pandemic”. The impact of the virus on our lives is unprecedented in modern human history, in terms of scale, depth and resilience. When compared to other epidemics that have plagued the world in recent decades, Covid-19 is often referred to as being much more “deadly” and is associated with advances in technology which scientists have described as “revolutionary”. From politics to economics, spanning families and continents, Covid-19 has unsettled norms: cultural clashes are intensified, politics are even more polarized, and regional tensions and conflicts are on the rise. Global trade patterns and supply chains are increasingly being questioned and redrawn. The world is being atomized, and individuals are forced to accept the “new normal” in their routines. In an attempt to combat the virus and minimize its detrimental effects, countries have undertaken different preventive strategies and containment policies. Some have successfully curbed the spread of Covid-19, while many others remain in limbo, doing their best to respond to outbreaks in cases. To gain a better understanding of how to fight Covid-19, it is imperative to evaluate the success and failures of these approaches. Under what conditions is an approach successful? When should it be avoided? How can this information be used to avoid future pandemics? This volume offers informative comparative case studies that shed light on these key questions. Each country case is perceptively analyzed and includes a detailed timeline, allowing readers to view each response with hindsight and extrapolate the data to better understand what the future holds. Taken as a whole, this collection offers invaluable insight at this critical juncture in the Covid-19 pandemic. “In the ‘post-truth’ era, such careful documentation of the facts is especially welcome.” Dr Tania Burchardt Associate Professor, Department of Social Policy London School of Economics and Political Science “The end is not yet in sight for the pandemic but in these pages the key factors in its development and some possible solutions for the future are laid out in ways that make it indispensable reading.” Prof David S. G. Goodman Professor of China Studies and former Vice President, Academic Xi’an Jiaotong-Liverpool University, Suzhou “This book is an important and groundbreaking effort by social scientists to understand on how states have been managing the crisis.” Kevin Hewison Weldon E. Thornton Distinguished Emeritus Professor University of North Carolina at Chapel Hill “This is exactly the kind of research that will contribute to our fight against Covid-19.” Tak-Wing Ngo University of Macau “A well-researched book on Covid-19 highlighting the value of the meticulous fact-based groundwork by an international team.” Carlson Tong, GBS, JP Former Chairman, Securities and Futures Commission, Hong Kong Chairman, University Grants Committee, Hong Kong

Creating Communities Nourit Melcer-Padon,2018-05-31 How does historical reality interrelate with fiction? And how much are readers themselves involved in the workings of fictional literature? With innovative interpretations of various well-known texts, Nourit Melcer-Padon introduces the use of literary masks and illustrates literature's engagement of its readers' ethical judgement. She promotes a new perception of literary theory and of connections between thinkers such as Iser, Castoriadis, Sartre, Jung and Neumann. The book offers a unique view on the role of the community in post-existentialist modern cultural reality by emphasizing the importance of ritual practices in literature as a cultural manifestation.

Public Performances Jack Santino, 2017-12-15 *Public Performances* offers a deep and wide-ranging exploration of relationships among genres of public performance and of the underlying political motivations they share. Illustrating the connections among three themes—the political, the carnivalesque, and the ritualesque—this volume provides rich and comprehensive insight into public performance as an assertion of political power. Contributors consider how public genres of performance express not only celebration but also dissent, grief, and remembrance; examine the permeability of the boundaries between genres; and analyze the approval or regulation of such events by municipalities and other institutions. Where the particular use of public space is not sanctioned or where that use meets with hostility from institutions or represents a critique of them, performers are effectively reclaiming public space to make public statements on their own terms—an act of popular sovereignty. Through these concepts, *Public Performances* distinguishes the sometimes overlapping dimensions of public symbolic display. Carnival, and thus the carnivalesque, is understood to possess tacit social permission for unconventional or even deviant performance, on the grounds that normal social order will resume when the performance concludes. Ritual, and the ritualesque, leverages a deeper symbolic sensibility, one believed—or at least intended—by the participants to effect transformative, longer-term change. Contributors: Roger D. Abrahams, John Borgonovo, Laurent Sébastien Fournier, Lisa Gilman, Barbara Graham, David Harnish, Samuel Kinser, Scott Magelssen, Elena Martinez, Pamela Moro, Beverly J. The Councillor E. J. Beaton, 2022-04-26 When the death of Iron Queen Sarelin Brey fractures the realm of Elira, Lysande Prior, the palace scholar and the queen's closest friend, is appointed Councillor. Publically, Lysande must choose the next monarch from amongst the city-rulers vying for the throne. Privately, she seeks to discover which ruler murdered the queen, suspecting the use of magic. Resourceful, analytical, and quiet, Lysande appears to embody the motto she was raised with: everything in its place. Yet while she hides her drug addiction from her new associates, she cannot hide her growing interest in power. She becomes locked in a game of strategy with the city-rulers - especially the erudite prince Luca Fontaine, who seems to shift between ally and rival. Further from home, an old enemy is stirring: the magic-wielding White Queen is on the move again, and her alliance with a traitor among the royal milieu poses a danger not just to the peace of the realm, but to the survival of everything that Lysande cares about

The Trade in the Living Luiz Felipe de Alencastro, 2018-10-01 Macro-level study of the South Atlantic throughout the sixteenth and seventeenth centuries demonstrating how Brazil's emergence was built on the longest and most intense slave trade of the modern era. The seventeenth-century missionary and diplomat Father Antônio Vieira once observed that Brazil was nourished, animated, sustained, served, and conserved by the "sad blood" of the "black and unfortunate souls" imported from Angola. In *The Trade in the Living*, Luiz Felipe de Alencastro demonstrates how the African slave trade was an essential element in the South Atlantic and in the ongoing cohesion of Portuguese America, while at the same time the concrete interests of Brazilian colonists, dependent on Angolan slaves, were often violently asserted in Africa, to ensure men and commodities continued to move back and forth across the Atlantic. In exposing this intricate and complementary relationship between two non-European continents, de Alencastro has fashioned a new and challenging examination of colonial Brazil, one that moves beyond its relationship with Portugal to discover a darker, hidden history.
