Purloined Organs H.A.E. Zwart,2019-03-07 This book addresses organ transplantation from a psychoanalytical perspective. Where other authors consider topics of informed consent, scarcity and organ trade, Zwart explores the ways in which the practice fundamentally challenges our basic experience and image of the body, revolving around issues such as embodiment, ownership and bodily integrity. In organ transplantation, the body emerges as something which we simultaneously have and are—constituting a whole, as well as a set of partial objects that can be transplanted and replaced, donated and sold.

Flirtin' With the Monster Ellen Hopkins,2009-05-01 Where is the line between truth and fiction? Why do love and addiction so often go hand in hand? What does the real Kristina think about the way her story is told in *Crank* and *Glass*? *Crank* and *Glass* have always been more than just stories. Join their author Ellen Hopkins and a host of other writers as they delve deep into Kristina's story, from the straight truth on the physical effects of methamphetamine addiction to the psychological consequences of keeping secrets (and how Hopkins' books have encouraged so many teens to reveal theirs). With an essay by Ellen's real-life daughter (the basis for the character of Kristina) that tells her version of the events that inspired the books—along with

perspectives from Scott, Jake, and 10-year-old Hunter, the baby from Crank—Flirtin' with the Monster is a compelling journey through the complexities of Hopkins' beloved bestselling works.

Jason Statham Len Brown,2011-02-17 Hollywood's favourite action hero After an exhilarating ten years, Jason Statham has finally confirmed his place in the Hollywood elite. And starring alongside his childhood heroes Stallone, Schwarznegger, Willis and Jet Li, it is hard to imagine him anywhere else. Born in south London, Jason Statham has always been an action-man. As a boy, Jason chose not to follow in the footsteps of his parents and instead cultivated his thirst for adrenaline in athletics and diving - a skill that took him to the World Championships in 1992. But it was on the athletics track that he was first discovered by a modelling scout for Tommy Hilfiger and French Connection, which eventually led Jason to the then fledgling director Guy Ritchie. A string of Hollywood blockbusters - Lock Stock, Revolver, Snatch - followed. But perhaps his best known role came in 2002 when Jason was cast as Frank Martin in The Transporter. Statham's background in martial arts defies the norm of the action-hero as he performs his own scenes and stunts in some of Hollywood's most death-defying action scenes. A huge box office hit, The Transporter spawned two sequels and has earned the reputation of a cult classic. Len Brown's biography is an insightful, comprehensive and gripping account of Britain's all-action hero.

Project Animal Farm Sonia Faruqi,2015-07-15 Sonia Faruqi had an Ivy League degree and a job on Wall Street. But when the banking industry collapsed, she found herself on a small organic dairy farm that would change her life for the better, although it didn't seem that way in the beginning.First, she had to come to grips with cows

shocked into place, cannibal chickens, and free range turkeys that went nowhere. But there were bright lights as well: happy, frolicking calves on a veal farm, and farmers who cared as much about the animals as their pocketbooks. What started as a two-week volunteer vacation turned into a journey that reached into the darkest recesses of the animal agriculture industry. Surrounded by a colorful cast of characters, Faruqi's quest to discover the truth about modern agribusiness took her around the world. Lively, edgy, and balanced, Project Animal Farm sheds light on the international agribusiness, with the ultimate goal of improving the lives of farm animals here at home. Using her finance background to forecast the future of agriculture, Faruqi discusses the changes we need to make—using our forks and our votes.

Time for mapping Sybille Lammes, Chris Perkins, Alex Gekker, Sam Hind, Clancy Wilmott, Daniel Evans, 2018-06-29 This electronic version has been made available under a Creative Commons (BY-NC-ND) open access license. Maps take place in time as well as representing space. The Google map on your smartphone appears to fix the world, serving as a practical spatial tool, but in practice is deployed in ways that draw attention to memories, rhythm, synchronicity, sequence and duration. This interdisciplinary collection focuses on how these temporal aspects of mapping might be understood, at a time when mapping technologies have been profoundly changed by digital developments. It contrasts different aspects of this temporality, bringing together experts from critical cartography, media studies and science and technology studies. Together the chapters offer a unique interdisciplinary focus revealing the complex and social ways in which time is wrapped up with digital technologies and revealed in everyday mapping tasks: from

navigating across cities, to serving as scientific groundings for news stories; from managing smart cities, to visual art practice. It brings time back into the map!

Crank it up Steven Gerrard, Robert Shail, 2019-09-23 Jason Statham has risen from street seller through championship diving and modelling to become arguably the biggest British male film star of the twenty-first century. This is the first book to offer a critical analysis of his work across a variety of media, including film, television, video games and music videos. Each chapter focuses on a particular aspect of Statham's career, from his distinctive screen presence to his style, branding and celebrity. Accessibly written, and featuring a contribution from Hollywood director Paul Feig, who worked with Statham on the 2015 action-comedy *Spy*, the collection will appeal to a wide audience of scholars, students and fans.

The Distorters of History: Unexpected Changes in the Media and the Motion Picture Industry with Movies Forever Expanded-Updated Edition Robert D. Ronson, 2013-06-20 If some authorities say the political history is Ronson's interpretation, then ask them why the facts are found in the World Almanac! Controversial issues in politics and greed dominate our society with power struggles for change. My book tries to show how past mistakes lead up to how our system is working now but also discusses what I think are enjoyable films that adequately entertain the average person looking for temporary escapism. Most critics or journalists analyze, evaluate, and review films in terms of production values or political reasons. I simply buy a ticket and walk in as a member of the audience. After the movie asking myself questions how well I liked it is what I pass on to the viewer.
