**Creepypasta: a Definitive Guide** MR Michael Riddell,2015-05-03 Creepypasta are short horror stories, fanfiction or other media that are collected and shared across the Internet with the intent of frightening or unnerving the reader. The name is derived from the internet slang term cospypasta, which refers to text that has been copied and pasted by users onto discussion boards multiple times. Creepypastas are similar to urban legends, although creepypastas do not always take the form of written text or spoken word; some consist of allegedly haunted images, videos, or games. Creepypastas come in a variety of styles, but some are particularly common. Haunted image creepypastas are fictional stories that include a picture that is said to haunt and torment the reader. Lost episode creepypastas are fictional stories about discarded or unused episodes of real shows, usually cartoons. Lost episodes are intended to unnerve the reader by deviating from the normative behavior of characters, centering on death, and including hyper-realistic images of the characters in the show. Ritual creepypastas are fictional procedures to invoke entities or supernatural experiences. Now from the Author of 'Disturbed' and 'Into the Darkness' comes a collection of these terrifying tales from the darkest recesses of the world wide web. So sit back, relax and remember they are only stories, aren't they?

**Slender Man Is Coming** Trevor J. Blank,Lynne S. McNeill,2018-09-21 The essays in this volume explore the menacing figure of Slender Man—the blank-faced, long-limbed bogeyman born of a 2009 Photoshop contest who has appeared in countless horror stories circulated on- and offline among children and young people. Slender Man is arguably the best-known example in circulation of “creepypasta,” a genre derived from “cospypasta,” which in turn derived from the phrase “copy/paste.” As narrative texts are copied across online forums, they undergo modification, annotation, and reinterpretation by new posters in a folkloric process of repetition and variation. Though by definition legends deal largely with belief and possibility, the crowdsourced mythos behind creepypasta and Slender Man suggests a distinct awareness of fabrication. Slender Man is therefore a new kind of creation: one intentionally created as a fiction but with the look and feel of legend. Slender Man Is Coming offers an unprecedented folkloristic take on Slender Man, analyzing him within the framework of contemporary legend studies, “creepypastas,” folk belief, and children’s culture. This first folkloric examination of the phenomenon of Slender Man is a must-read for anyone interested in folklore, horror, urban legends, new media, or digital cultures. Contributors: Timothy H. Evans, Andrea Kitta, Mikel J. Koven, Paul Manning, Andrew Peck, Jeffrey A. Tolbert, Elizabeth Tucker
