Out of the Crisis, reissue W. Edwards Deming, 2018-10-16 Essential reading for managers and leaders based on Deming's famous 14 Points for Management This is the classic and deeply influential work on business management, leadership, problem solving, and quality control, reissued for readers today Translated into 12 languages and continuously in print since its original publication in 1982, this highly influential framework presents the foundations for a completely transformational way to lead and manage people, processes, and resources. According to Deming, American company management's failure to plan for the future brings about loss of market, which brings about loss of jobs.

Management must be judged not only by the quarterly dividend, but by innovative plans to: • stay in business • protect investment • ensure future dividends • provide more jobs through improved product and service In simple, direct language, Deming explains the principles of management transformation and how to apply them. This edition includes a foreword by Deming's grandson, Kevin Edwards Cahill, and Kelly Allan, business consultant and Deming expert. "Long-term commitment to new learning and new philosophy is required of any management that seeks transformation. The timid and the fainthearted, and the people that expect quick results, are doomed to disappointment." —W. Edwards Deming, *Out of the Crisis*

The Comfort Crisis Michael Easter, 2021-05-11 “If you’ve been looking for something different to level up your health, fitness, and personal growth, this is it.”—Melissa Urban, Whole30 CEO and New York Times bestselling author of *The Book of Boundaries* “Michael Easter’s genius is that he puts data around the edges of what we intuitively believe. His work has inspired many to change their lives for the better.”—Dr. Peter Attia, #1 New York Times bestselling author of *Outlive* Discover the evolutionary mind and body benefits of living at the edges of your comfort zone and reconnecting with the wild—from the author of *Scarcity Brain*, coming in September! In many ways, we’re more comfortable than ever before. But could our sheltered, temperature-controlled, overfed, underchallenged lives actually be the leading cause of many of our most urgent physical and mental health issues? In this gripping investigation, award-winning journalist Michael Easter seeks out off-the-grid visionaries, disruptive genius researchers, and mind-body conditioning trailblazers who are unlocking the life-enhancing secrets of a counterintuitive solution: discomfort. Easter’s journey to understand our evolutionary need to be challenged takes him to meet the NBA’s top exercise scientist, who uses an ancient Japanese practice to build championship athletes; to the mystical country of Bhutan, where

an Oxford economist and Buddhist leader are showing the world what death can teach us about happiness; to the outdoor lab of a young neuroscientist who's found that nature tests our physical and mental endurance in ways that expand creativity while taming burnout and anxiety; to the remote Alaskan backcountry on a demanding thirty-three-day hunting expedition to experience the rewilding secrets of one of the last rugged places on Earth; and more. Along the way, Easter uncovers a blueprint for leveraging the power of discomfort that will dramatically improve our health and happiness, and perhaps even help us understand what it means to be human. The Comfort Crisis is a bold call to break out of your comfort zone and explore the wild within yourself.
