Harold Holzer,Tim Mulligan

The CSS Virginia John V Quarstein, 2021-03-08 This history of the Confederate Navy's ironclad warship "will likely be the definitive single title on the CSS Virginia" (Civil War News). When the CSS Virginia—formerly the USS Merrimack—slowly steamed down the Elizabeth River toward Hampton Roads on March 8, 1862, the tide of naval warfare turned from wooden sailing ships to armored, steam-powered vessels. Little did the ironclad's crew realize that their makeshift warship would achieve the greatest Confederate naval victory. The trip was thought by most of the crew to be a trial cruise. Instead, the Virginia's aggressive commander, Franklin Buchanan, transformed the voyage into a test by fire that forever proved the supreme power of iron over wood. The Virginia's ability to beat the odds to become the first ironclad to enter Hampton Roads stands as a testament to her designers, builders, officers, and crew. Virtually everything about the Virginia's design was an improvisation or an adaptation, characteristic of the Confederacy's efforts to wage a modern war with limited industrial resources. Noted historian John V. Quarstein recounts the compelling story of this ironclad underdog, providing detailed appendices, including crew member biographies and a complete chronology of the ship and crew. Includes illustrations

Ironclad Down Carl D. Park, 2007 The result of more than fifteen years of research, *Ironclad Down* is a treasure trove of detailed information about one of history's most famous vessels. Describing the fascinating people--Stephen Russell Mallory, John Mercer Brooke, John Luke Porter, et al.--who conceived, designed, and built one of the world's first ironclads as well as describing the ship itself, Carl Park offers both the most thoroughly detailed, in-depth analysis to date of the actual architecture of the Virginia and a fascinating, colorful chapter of Civil War history.

Duel of the Ironclads Angus Konstam, 2003-03-11 Previously published in three separate volumes as *Campaign 103: Hampton Roads 1862*, *New Vanguard 41: Confederate Ironclad 1861-65* and *New Vanguard 45: Union Monitor 1861-65*. When the ironclad USS Monitor steamed out to meet the CSS Virginia on 9 March 1862, the face of naval warfare was changed forever. A four-hour duel left neither ship victorious, but in the wake of the battle wooden warships were rendered obsolete. This book details the clash at Hampton Roads, as well as tracing the development of ironclads within the Union and Confederate fleets. Union ironclads evolved quickly from the time of the production of the Monitor, so that by the end of the war the US Navy possessed the most powerful artillery afloat. The Confederate fleet, meanwhile, was born out of the hulks of existing vessels in naval yards and backwaters within sight of the enemy - its very existence was a tribute to the ingenuity of Southern shipbuilders.

Lincoln Takes Command Steve Norder, 2019-12-20 A detailed history of one week during the Civil War in which the American president assumed control of the nation's military. One rainy evening in May, 1862, President Abraham Lincoln boarded the revenue cutter *Miami* and sailed to Fort Monroe in Hampton Roads, Virginia. There, for the first and only time in our country's history, a sitting president assumed direct control of armed forces to launch a military campaign. In *Lincoln Takes Command*, author Steve Norder details this exciting, little-known week in Civil War history. Lincoln recognized the strategic possibilities offered by Maj. Gen. George B. McClellan's ongoing Peninsula Campaign and the importance of seizing Norfolk, Portsmouth, and the Gosport Navy Yard. For five days, the president spent time on sea and land, studied maps, spoke with military leaders, suggested actions, and issued direct orders to subordinate commanders. He helped set in motion many events, including the naval bombardment of a Confederate fort, the sailing of Union ships up the James River toward the enemy capital, an amphibious landing of Union soldiers followed by an overland march that expedited the capture of Norfolk, Portsmouth, and the navy yard, and the destruction of the Rebel ironclad CSS Virginia. The president returned to Washington in triumph, with some urging him to assume direct command of the nation's field armies. The week discussed in *Lincoln Takes*

Command has never been as heavily researched or told in such fine detail. The successes that crowned Lincoln's short time in Hampton Roads offered him a better understanding of, and more confidence in, his ability to see what needed to be accomplished. This insight helped sustain him through the rest of the war.

The Battle of Hampton Roads Harold Holzer, Tim Mulligan, 2022 On March 8 and 9, 1862, a sea battle off the Virginia coast changed naval warfare forever. It began when the Confederate States Navy's CSS Virginia led a task force to break the Union blockade of Hampton Roads. The Virginia sank the USS Cumberland and forced the frigate Congress to surrender. Damaged by shore batteries, the Virginia retreated, returning the next day to find her way blocked by the newly arrived USS Monitor. The clash of ironclads was underway. After fighting for nine hours, both ships withdrew, neither seriously damaged, with both sides claiming victory. Although the battle may have been a draw and the Monitor sank in a storm later that year, this first encounter between powered, ironclad warships spelled the end of wooden warships--and the dawn of a new navy. This book takes a new look at this historic battle. The ten original essays, written by leading historians, explore every aspect of the battle--from the building of the warships and life aboard these iron coffins to tactics, strategy, and the debates about who really won the battle of Hampton Roads. Co-published with The Mariners' Museum, home to the USS Monitor Center, this authoritative guide to the military, political, technological, and cultural dimensions of this historic battle also features a portfolio of classic lithographs, drawings, and paintings.

Copublished with The Mariners' Museum, this guide to the military, political, technological, and cultural dimensions of this historic battle also features a portfolio of classic lithographs, drawings, and paintings interpreting the battle, including for the first time an array of pictures of the exhumed Monitor relics.--Jacket.

A History of Ironclads John V. Quarstein, 2007-02-28 One of history's greatest naval engagements, the Battle of Hampton Roads, occurred on March 8 and 9, 1862. On the first morning, the Confederate ironclad the CSS Virginia, formerly known as the Merrimack, sank two Union wooden warships, proving the power of the armored vessels over the traditional sailing ships. The next morning, the Virginia engaged the Union ironclad USS Monitor to a draw in a battle that significantly altered naval warfare. It was the first engagement between ironclads and ushered in a new era of warship construction and ordnance. The 25, 000 sailors, soldiers and civilians who witnessed the battle knew then what history would soon confirm: wars waged on the waters would never be the same. The seemingly invincible Monitor and Virginia were experimental ships, revolutionary combinations of new and old technology, and their clash on March 9, 1862, was the culmination of over 2, 000 years of naval experience. The construction and combat service of ironclads during the Civil War were the first in a cascade of events that influenced the outcome of the war and prompted the development of improved ironclads as well as the creation of new weapons systems, such as torpedoes and submarines, needed to counter modern armored warships.

The Confederate States Navy Arthur Wyllie, 2007-02 An alphabetical listing and description of known Confederate ships and a listing with short biography of men in the Confederate States Navy and Marines.

Remembering Virginia's Confederates Sean M. Heuvel, 2010-01-01 The commonwealth of Virginia holds a prominent and distinguished place in American Civil War history. Home to the Confederacy's capital city of Richmond, more major battles were fought in Virginia than in any other state. The commonwealth also produced some of the war's most legendary and iconic figures, including Robert E. Lee, Thomas J. Stonewall Jackson, and J. E. B. Stuart. Images of America: Remembering Virginia's Confederates explores the Confederate military and government service of a

wide array of Virginia residents, ranging from the most prominent generals, politicians, and spies to little-known enlisted men. It also acknowledges their dedication and sacrifice to a cause in which they strongly believed.

Confederate Ironclad vs Union Ironclad Ron Field, 2011-03-15 The Ironclad was a revolutionary weapon of war, the first modern, armoured, self-propelled warships. During the American Civil War the South used ironclads to protect their ports from the Northern blockade. Impressed with their superior resistance to fire and, the North developed its own rival fleet of ironclads. Eventually the two products of this modern arms race duelled at the battle of Hampton Roads in a clash that would change the face of naval warfare. Fully illustrated with cutting-edge digital artwork, rare photographs and first-person perspective gunsight views, this book allows the reader to discover the revolutionary and radically different designs of the two rival Ironclads – the Merrimack and USS Monitor – through an analysis of each ship's weaponry, ammunition and steering.

Unlike Anything That Ever Floated Dwight Sturtevant Hughes, 2021-04-06 A history of the American Civil War naval battle, the first confrontation between two Ironclads, featuring accounts from men who lived through it. "Ironclad against ironclad, we maneuvered about the bay here and went at each other with mutual fierceness," reported Chief Engineer Alban Stimers following that momentous engagement between the USS Monitor and the CSS Virginia (ex USS Merrimack) in Hampton Roads, Sunday, March 9, 1862. The day before, the Rebel ram had obliterated two powerful Union warships and was poised to destroy more. That night, the revolutionary—not to say bizarre—Monitor slipped into harbor after hurrying down from New York through fierce gales that almost sank her. These metal monstrosities dueled in the morning, pounding away for hours with little damage to either. Who won is still debated. One Vermont reporter could hardly find words for Monitor: "It is in fact unlike anything that ever floated on Neptune's bosom." The little vessel became an icon of American industrial ingenuity and strength. She redefined the relationship between men and machines in war. But beforehand, many feared she would not float. Captain John L. Worden: "Here was an unknown, untried vessel . . . an iron coffin-like ship of which the gloomiest predictions were made." The CSS Virginia was a paradigm of Confederate strategy and execution—the brainchild of innovative, dedicated, and courageous men, but the victim of hurried design, untested technology, poor planning and coordination, and a dearth of critical resources. Nevertheless, she obsolesced the entire U.S. Navy, threatened the strategically vital blockade, and disrupted General McClellan's plans to take Richmond. From flaming, bloody decks of sinking ships, to the dim confines of the first rotating armored turret, to the smoky depths of a Rebel gundeck—with shells screaming, clanging, booming, and splashing all around—to the office of a worried president with his cabinet peering down the Potomac for a Rebel monster, this dramatic story unfolds through the accounts of men who lived it in Unlike Anything That Ever Floated. Praise for Unlike Anything That Ever Floated "Hughes's blow-by-blow account of the March 8-9 fighting at Hampton Roads can be considered among the finest short-form narrative treatments of those events. . . . [It] resides in the top rank of ECW series volumes." —Civil War Books and Authors "What makes Hughes's account so engrossing is that it is written in much the way as a novel." —Civil War News

The Monitor versus the Merrimack Dan Abnett, 2006-08-15 In graphic format, tells of the Civil War battle known as the Battle of Hampton Roads, the first-ever between ironclad warships.

Duel Between the First Ironclads William C. Davis, 2012-05-09 One was called a tin can on a shingle; the other, a half-submerged crocodile. Yet, on a March day in 1862 in Hampton Roads, Virginia, after a five-hour duel, the U.S.S. Monitor and the C.S.S. Virginia (formerly the U.S.S. Merrimack) were to change the course of not only the Civil War but also naval warfare forever. Using letters, diaries, and memoirs of men who lived through the epic battle of the Monitor and the Merrimack and of those who witnessed it from afar, William C. Davis documents and analyzes this famous confrontation of the first two modern warships. The result is a full-scale history that is as exciting as a novel. Besides a thorough discussion of the designs of each ship, Davis portrays some of the men involved in the building and operation of America's first ironclads—John Ericsson, supreme egoist and engineering genius who designed the Monitor; John Brooke, designer of the Virginia; John

Worden, the well-loved captain of the Monitor; Captain Franklin Buchanan of the Virginia; and a host of other men on both Union and Confederate sides whose contributions make this history as much a story of men as of ships and war.

Encyclopedia of Civil War Shipwrecks W. Craig Gaines, 2008-04 On the evening of February 2, 1864, Confederate Commander John Taylor Wood led 250 sailors in two launches and twelve boats to capture the USS Underwriter, a side-wheel steam gunboat anchored on the Neuse River near New Bern, North Carolina. During the ensuing fifteen-minute battle, nine Union crewmen lost their lives, twenty were wounded, and twenty-six fell into enemy hands. Six Confederates were captured and several wounded as they stripped the vessel, set it ablaze, and blew it up while under fire from Union-held Fort Anderson. The thrilling story of USS Underwriter is one of many involving the numerous shipwrecks that occupy the waters of Civil War history. Many years in the making, W. Craig Gaines's Encyclopedia of Civil War Shipwrecks is the definitive account of more than 2,000 of these American Civil War--period sunken ships. From Alabama's USS Althea, a Union steam tug lost while removing a Confederate torpedo in the Blakely River, to Wisconsin's Berlin City, a Union side-wheel steamer stranded in Oshkosh, Gaines provides detailed information about each vessel, including its final location, type, dimensions, tonnage, crew size, armament, origin, registry (Union, Confederate, United States, or other country), casualties, circumstances of loss, salvage operations, and the sources of his findings. Organized alphabetically by geographical location (state, country, or body of water), the book also includes a number of maps providing the approximate locations of many of the wrecks -- ranging from the Americas to Europe, the Arctic Ocean, and the Indian Ocean. Also noted are more than forty shipwrecks whose locations are in question. Since the 1960s, the underwater access afforded by SCUBA gear has allowed divers, historians, treasure hunters, and archaeologists to discover and explore many of the American Civil War-related shipwrecks. In a remarkable feat of historical detective work, Gaines scoured countless sources -- from government and official records to sports diver and treasure-hunting magazines -- and cross-indexes his compilation by each vessel's various names and nicknames throughout its career. An essential reference work for Civil War scholars and buffs, archaeologists, divers, and aficionados of naval history, Encyclopedia of Civil War Shipwrecks revives and preserves for posterity the little-known stories of these intriguing historical artifacts.

Duel of the Ironclads Patrick O'Brien, 2003-03-01 On March 9, 1862, two unusual-looking iron-clad warships faced each other in battle and changed naval warfare forever. When the American Civil War began, warships were still made of wood. Early in the war the Southern Confederates salvaged the sunken Union ship Merrimack, built an iron structure on the deck, and renamed her the CSS Virginia. When they were finished she was a brand new kind of warship--an ironclad. The Northern Union had also been secretly racing to build their own ironclad, the USS Monitor. The two ships were born almost simultaneously and met just one day after the unstoppable Virginia single-handedly destroyed two of the Union's mightiest wooden warships. By the time their historic showdown was through, the age of wooden warships was shattered forever.

Civil War Sites in Virginia James I. Robertson, Jr., Brian Steel Wills, 2011-03-09 Since 1982, the renowned Civil War historian James I. Bud Robertson's Civil War Sites in Virginia: A Tour Guide has enlightened and informed Civil War enthusiasts and scholars alike. The book expertly explores the commonwealth's Civil War sites for those hoping to gain greater insight and understanding of the conflict. But in the years since the book's original publication, accessibility to many sites and the interpretive material available have improved dramatically. In addition, new historical markers have been erected, and new historically significant sites have been developed, while other sites have been lost to modern development or other encroachments. The historian Brian Steel Wills offers here a revised and updated edition that retains the core of the original guide, with its rich and insightful prose, but that takes these major changes into account, introducing especially the benefits of expanded interpretation and of improved accessibility. The guide incorporates new information on the lives of a broad spectrum of soldiers and citizens while revisiting scenes associated with the era's most famous personalities. New maps and a list of specialized tour suggestions assist in planning

visits to sites, while three dozen illustrations, from nineteenth-century drawings to modern photographs, bring the war and its impact on the Old Dominion vividly to life. With the sesquicentennial remembrances of the American Civil War heightening interest and spurring improvements, there may be no better time to learn about and visit these important and moving sites than now.
