The Cult of the Obsidian Mask Cameron D Blackwell,2020-09-06 On the way home from Planet Destin, the StarTango's piloting program is hijacked, forcing the crew to crash land on a planet in the Venga Star System. While Timmy works on the repairs, Sundance is bored and decides to go exploring alone. It is then he is captured by cultists who want to make him the next vessel for their god, Obsidia. It is up to Astralyn to find him and save him from Obsidia, and himself.

The Chrono-Repairmen: A purge of false gods Rito

Chatterjee,2023-03-20 The Chrono-Repairmen are three months into their 6 month training program designed by Colonel Rajveer when Masha Kowalczyk informs them about a matter of emergency. The breach in the timeline from 1192 has suddenly increased in speed and is going to catch up to their present in less than a week. In order to look for clues regarding Krenn Klore's activities, the group tracks down his bunker containing the time machine, only to find out that it had been set on fire and its interior is burned to a crisp. However, they find a pile of miscellaneous items under a cloth, unaffected by the fire which includes a mysterious robe and a gold mask designed to look like a spiral. They travel back to the past in 1192 and discover the mask and robe belong to a mysterious cult calling themselves The Servants of the Oracle who worship a mysterious deity. The cult has networks throughout Europe. Zerf Xerex attempts to infiltrate a secret cult base alone only to be captured by the cult. With the burned remnants of a scroll being their only lead, the Chrono-Repairmen are forced to split up throughout Europe to look for Zerf Xerex and uncover a sinister plot. The Servants of the Oracle have developed a biological weapon, and plan to spread deadly disease in many parts of the world with their most prominent target being the meeting between King Richard the First and Saladin. The attack would occur when the two kings are discussing the terms of the Treaty of Jaffa which would end the third Crusade.

Masks and Masking Gary Edson, 2015-07-11 For at least 20,000 years, masking has been a mark of cultural evolution and an indication of magical-religious sophistication in society. This book provides a comprehensive understanding of the mask as a powerful cultural phenomenon—a means by which human groupings attempted to communicate their dignity and sense of purpose, as well as establish a continuum between the natural and supernatural worlds. It addresses the distinctive environments within which masks flourished, and analyzes the mask as a manifestation of art, ethnology and anthropology.

After the Cult Holger Jebens, 2010 In many parts of the world the white man is perceived to be an instigator of globalization and an embodiment of modernity. However, so far anthropologists have paid little attention to the actual heterogeneity and complexity of whiteness in specific ethnographic contexts. This study examines

cultural perceptions of other and self as expressed in cargo cults and masked dances in Papua New Guinea. Indigenous terms, images, and concepts are being contrasted with their western counterparts, the latter partly deriving from the publications and field notes of Charles Valentine. After having done his first fieldwork more than fifty years ago, this anthropological ancestor has now become part of the local tradition and has thus turned into a kind of mythical figure. Based on anthropological fieldwork as well as on archival studies, this book addresses the relation between western and indigenous perceptions of self and other, between tradition and modernity, and between anthropological ancestors and descendants. In this way the work contributes to the study of whiteness, cargo cults and masked dances in Papua New Guinea.

Funerary Arts and Tomb Cult Suzanne Glover Lindsay, 2017-07-05 Even before the upheaval of the Revolution, France sought a new formal language for a regenerated nation. Nowhere is this clearer than in its tombs, some among its most famous modern sculpture-rarely discussed as funerary projects. Unlike other art-historical studies of tombs, this one frames sculptural examples within the full spectrum of the material funerary arts of the period, along with architecture and landscape. This book further widens the standard scope to shed new and needed light on the interplay of the funerary arts, tomb cult, and the mentalities that shaped them in France, over a period famous for profound and often violent change. Suzanne Glover Lindsay also brings the abundant recent work on

the body to the funerary arts and tomb cult for the first time, confronting cultural and aesthetic issues through her examination of a celebrated sculptural type, the recumbent effigy of the deceased in death. Using many unfamiliar period sources, this study reinterprets several famous tombs and funerals and introduces significant enterprises that are little known today to suggest the prominent place held by tomb cult in nineteenth-century France. Images of the tombs complement the text to underline sculpture's unique formal power in funerary mode.

Tragic Props and Cognitive Function Colleen Chaston, 2010 By applying aspects of cognitive psychology to a study of three key tragic props, this book examines the importance of visual imagery in ancient Greek tragedy. The shield, the urn and the mask are props which serve as controls for investigating the connection between visual imagery and the spectators' intellectual experience of tragic drama. As vehicles for conceptual change the props point to a function of imagery in problem solving. Connections between the visual and the cognitive in tragedy, particularly through image shape and its potential for various meanings, add a new perspective to scholarship on the role of the visual in ancient performance. These connections also add weight to the importance of imagery in contemporary problem solving and creative thought.

The Imperial Cult in the Latin West, Volume III, Provincial Cult. Part 3. The Provincial Centre; Provincial Cult Duncan Fishwick,2004-02-01 This volume focuses on provincial centres and the worship that was offered there in the name of the province. Despite the inadequacies of fleeting, defective evidence, a rough picture emerges of both the permanent headquarters and the principal features of provincial cults.
