How to Find a Bird Jennifer Ward,2020-08-04 A joyful and informative guide to birdwatching for budding young birders from an award-winning author-illustrator duo. How do you find a bird? There are so many ways! Begin by watching. And listening. And staying quiet, so quiet you can hear your own heartbeat. Soon you'll see that there are birds everywhere—up in the sky, down on the ground, sometimes even right in front of you just waiting to be discovered! Young bird lovers will adore this lushly illustrated introduction to how to spot and observe our feathered friends. It features more than fifty different species, from the giant whooping crane to the tiny ruby-throated hummingbird, and so many in between, and a detailed author's note provides even more information about birding for curious readers. This celebration of the wondrous variety, colors, and sounds of the avian world is sure to have children grabbing their binoculars and heading outside to explore.

**Mira's Curly Hair** Maryam Al Serkal,2020-06-01 Mira doesn't like her hair. It curls at the front. It curls at the back. It curls everywhere! She wants it to be straight and smooth, just like her Mama's. But

then something unpredictable happens . . . and Mira will never look at her mama's hair the same way again! A delightful celebration of natural hair and the courage it takes to be yourself.

Decorating with Plants Baylor Chapman,2019-04-30 Houseplants are more popular than ever before—especially with millennials, who are setting up their homes for the first time and discovering that nothing can add energy, style, and that essential “lived-in-ness” to their spaces better than a little bit of green. Whether it’s a statement-making fiddle-leaf fig or a tiny tabletop succulent, a houseplant instantly elevates the look of your home. But where to begin? In *Decorating with Plants*, Baylor Chapman walks readers through everything they need to know to bring houseplants into their home. First, there’s Plant Care 101: from how to assess light conditions to tricks for keeping your plants alive while on vacation, Chapman gives readers the simple, foundational info they need to ensure their plants will thrive. Then she introduces us to 28 of her favorites—specimens that are tough as nails but oh-so-stylish, from the eye-catching Rubber Tree to the delicate Cape Primrose. Finally, she guides readers through the home room by room: Place an aromatic plant like jasmine or gardenia to your entry to establish your home’s “signature scent.” Add a proper sense of scale to your living room with

a ceiling-grazing palm. Create a living centerpiece of jewel-toned succulents for a dining table arrangement that will last long after your dinner party. From air purification to pest control, there's no limit to what houseplants can do for your home—and *Decorating with Plants* is here to show you how to add them to spaces big and small with style.

**Wood** Harvey Green, 2007-11-27 A rich, authoritative look at a material that plays an essential role

in human culture Wood has been a central part of human life throughout the world for thousands of years. In an intoxicating mix of science, history, and practical information, historian and woodworker Harvey Green considers this vital material's place on the planet. What makes one wood hard and one soft? How did we find it, tame it? Where does it fit into the histories of technology, architecture, and industrialization, of empire, exploration, and settlement? Spanning the surprising histories of the log cabin and Windsor chair, the deep truth about veneer, the role of wood in the American Revolution, the disappearance of the rain forests, the botany behind the baseball bat, and much more, Wood is a deep and satisfying look at one of our most treasured resources.

**The Land of the Crooked Tree** U. P. Hedrick, 1986 In 1874, the Hedrick family arrived in L 'Arbre croche or crooked tree, as the Jesuit missionaries had called it one hundred and fifty years earlier. The wilderness of Little Traverse Bay had just been opened for homesteading, and the Hedricks joined a dozen other white families in the trading post of Little Traverse, situated in virgin forest. From the age of four until he left the area at eighteen, U. P. Hedrick saw the shabby trading post rum into the tidy

village of Harbor Springs. In those years, mechanized logging replaced the homesteader's crosscut saw; the passenger pigeon disappeared; and the railroad arrived. Hedrick writes of his youth and shows himself to be a sharp and often witty observer of the little details of domestic life on the Michigan frontier. He expounds on cooking whitefish and blackberry rolypoly, on the farmer's arsenal of axes, on pigs and their parts-both edible and useful, on wild and cultivated fruits, on trees, on kettles, and on Indians of the area. Lovers of Michigan's woods and fields, lakes and rivers; professional historians; and storytellers will find themselves delighted by Hedrick's account. The Land of the Crooked Tree is a Great Lakes Books reprint.

*Mistletoe Redemption* Janet Tronstad, Allie Pleiter, 2022-11-29 A small-town holiday A Dry Creek Christmas by Janet Tronstad Millie Corwin had sneaked into Dry Creek's café to leave gifts for the townspeople, not to rob them. But now that she is in the custody of one infuriatingly handsome Good Samaritan, the entire town has branded her a criminal. Brad Parker isn't sure what to believe. But one thing is certain. Robber or not, this stranger seems to be stealing his love-resistant heart... Bluegrass

Christmas by Allie Pleiter As director of the church's Christmas pageant, Mary Thorpe is responsible for bringing the townspeople of Middleburg, Kentucky, together and reminding them of what the season is really about. But everyone is riled up over the handsome man daring to run against Middleburg's popular long-standing mayor. Mac MacCarthy wants change. Mary wants things to stay the same. Now Mac and Mary are in for one very big Christmas surprise. New York Times Bestselling Author Janet Tronstad 2 Uplifting Stories A Dry Creek Christmas and Bluegrass Christmas

*Lumpy Eared* Dr. Ariana Farnadpour, Lumpy-eared:Elephants do not believe in borders like birds, but they can not fly. Do you think that free and border less life is possible only in the heavens? Cuckoo:I'm not saying it's completely true. My mother took refuge in the sky like a beautiful palm tree!– A beautiful palm, which, although rooted in the soil, spreads its green leaves in the farthest point of the earth, in the blue sky! My mother also took refuge in the sky because the earth was not a safe place for her; the earth captivated her while the sky freed her; never the less,she was always thinking about her land, where she said goodbye to her father and husband! She always missed the ground because her root was in there, not the sky! ‘Lumpy-eared’An unheard of tale of the mysterious life and love between an elephant and a bird that grew up among migratory swallows;“Cuckoo” meets “Lumpy-eared” in the middle of migration and reaching her destination, and this acquaintance changes the course of their lives..“
