

Curtiss Wright

Murray Rubenstein, Richard Martin Goldman

Curtiss-Wright Kirk W. House, 2005 The oldest names in aviation joined forces in 1929, when Wright Aeronautical and Curtiss Aeroplane formed the giant Curtiss-Wright Corporation. Curtiss airplanes were already "the best things with wings," while Charles Lawrance had made Wright powerplants the leader in American radial engines. Aviation founding father Glenn Curtiss, along with superstars Charles A. Lindbergh, Jimmy Doolittle, Admiral Byrd, and "Wrong-Way" Corrigan, all blazed skytrails with Wright engines and Curtiss wings. Tiny Sparrowhawk biplane fighters flew from airborne dirigibles. Huge factories poured out war birds in tens of thousands for World War II. Pilots flew them everywhere, from the African desert to Alaskan ice, South Sea islands, and even the Taj Mahal. Relive those days when women, old men, and teenagers kept the factories roaring, and follow Curtiss-Wright clear into the 21st century.

A History of Curtiss Wright Eltscher, 1998-11-01

Curtiss-Wright Louis R. Eltscher, Edward M. Young, 1998 Tells the story of the rise and fall of an airplane parts manufacturer, highlighting aspects including the impact of war on industry, the difficulties managers face in periods of rapidly changing technological design and fluctuating markets, and the trade-off between the value of a company's stock and its long-term investment strategy. Appendices offer a corporate genealogy and organizational charts, plus information on total sales and net income.

Curtiss-Wright Review, 1930-04

The Curtiss-wright At-9 Dan Hagedorn, 2019-05-19 This book examines the genesis of the AT-9 design, its competitors and, eventually, comrades-in-arms, with whom AT-9s were always literally the best and the brightest, and looks at the fielding of the aircraft to the 24 initial stations as well as an astonishing number of unusual and special assignments - including assignment to line, tactical units. After producing 791 aircraft between September 1941 and January 31, 1943, and assigning every single one of them, and having served actively and continuously through to VJ-Day, exactly one complete AT-9 survives, and this solitary example is actually a composite of several aircraft.

The Curtiss X-Planes Francis H. Dean, 2001 This book is a lavishly illustrated story of Curtiss Wright Corporation's 1950s and 1960s efforts in developing a vertical takeoff (VTOL) aircraft. The author, an insider who headed preliminary design work, gives a brief history of Curtiss Wright, and of the Curtiss Propeller Division that spawned the program, then follows with the development details of the X-100 concept demonstrator and the follow-on X-19 military aircraft. Photos and detailed design descriptions are provided, as well as test flights and test pilot's reports, and finally, never before seen advanced military and civil VTOL aircraft concepts studies.

Birdmen Lawrence Goldstone, 2014-05-06 From acclaimed historian Lawrence Goldstone comes a thrilling narrative of courage, determination, and competition: the story of the intense rivalry that fueled the rise of American

aviation. The feud between this nation's great air pioneers, the Wright brothers and Glenn Curtiss, was a collision of unyielding and profoundly American personalities. On one side, a pair of tenacious siblings who together had solved the centuries-old riddle of powered, heavier-than-air flight. On the other, an audacious motorcycle racer whose innovative aircraft became synonymous in the public mind with death-defying stunts. For more than a decade, they battled each other in court, at air shows, and in the newspapers. The outcome of this contest of wills would shape the course of aviation history—and take a fearsome toll on the men involved. *Birdmen* sets the engrossing story of the Wrights' war with Curtiss against the thrilling backdrop of the early years of manned flight, and is rich with period detail and larger-than-life personalities: Thomas Scott Baldwin, or "Cap't Tom" as he styled himself, who invented the parachute and almost convinced the world that balloons were the future of aviation; John Moisant, the dapper daredevil who took to the skies after three failed attempts to overthrow the government of El Salvador, then quickly emerged as a celebrity flyer; and Harriet Quimby, the statuesque silent-film beauty who became the first woman to fly across the English Channel. And then there is Lincoln Beachey, perhaps the greatest aviator who ever lived, who dazzled crowds with an array of trademark twists and dives—and best embodied the romance with death that fueled so many of aviation's earliest heroes. A dramatic story of unimaginable bravery in the air and brutal competition on the ground, *Birdmen* is at once a thrill ride through flight's wild early years and a surprising look at the personal clash that fueled America's race to the skies. Praise for *Birdmen* "A meticulously researched account of the first few hectic, tangled years of aviation and the curious characters who pursued it . . . a worthy companion to Richard Holmes's marvelous history of ballooning, *Falling Upwards*."—*Time* "The daredevil scientists and engineers who forged the field of aeronautics spring vividly to life in Lawrence Goldstone's history."—*Nature* "The history of the development of an integral part of the modern world and a fascinating portrayal of how a group of men and women achieved a dream that had captivated humanity for centuries."—*The Christian Science Monitor* "Captivating and wonderfully presented . . . a fine book about these rival pioneers."—*The Wall Street Journal* "[A] vivid story of invention, vendettas, derring-do, media hype and patent fights [with] modern resonance."—*Financial Times* "A powerful story that contrasts soaring hopes with the anchors of ego and courtroom."—*Kirkus Reviews* "A riveting narrative about the pioneering era of aeronautics in America and beyond . . . Goldstone raises questions of enduring importance regarding innovation and the indefinite exertion of control over ideas that go public."—*Publishers Weekly* (starred review)
