*Climate Change, World Consequences, and the Sustainable Development Goals for 2030* Pego, Ana,2022-10-14 Climate change and its impact on society is considered one of the most important factors in understanding social and economic variables. The book also conducts an analysis of climate change to understand how society is coping and its effect on economic sectors. *Silverdome* Abba Shaib,2012-07-31 The planet of C53 Solar is on the brink of self-destruction, another planetary victim to insatiable thirst for power, greed, and total disregard for fellow life-forms. Billions of lives are at stake, and the answer may just lie within the great Silverdome of Rool. Two young scientists set off from the galactic ruling planets of Vactron. Their quest, to acquire the crystal domes that carry the key to changing the fate of the doomed planet, and their journey takes them to the deepest and most inhospitable of all the villain quadrants, to the Devils Stone, where they find out that the keys come with a price . . . a very heavy price.

*Citizen Science* Susanne Hecker,Muki Haklay,Anne Bowser,Zen Makuch,Johannes Vogel,Aletta Bonn,2018-10-15 Citizen science, the active participation of the public in scientific research projects, is a rapidly expanding field in open science and open innovation. It provides an integrated model of public knowledge production and engagement with science. As a growing worldwide phenomenon, it is invigorated by evolving new technologies that connect people easily and effectively with the scientific community. Catalysed by citizens' wishes to be actively involved in scientific processes, as a result of recent societal trends, it also offers contributions to the rise in tertiary education. In addition, citizen science provides a valuable tool for citizens to play a more active role in sustainable development. This book identifies and explains the role of citizen science within innovation in science and society, and as a vibrant and productive science-policy interface. The scope of this volume is global, geared towards identifying solutions and lessons to be applied across science, practice and policy. The chapters consider the role of citizen science in the context of the wider agenda of open science and open innovation, and discuss progress towards responsible research and innovation, two of the most critical aspects of science today.

**Helpful Hackers** Chris van 't Hof,2016-02-16 'Hospital leaks patient records', 'Public transport smartcard has more holes than a sieve', 'Mobile banking app unsafe' - it seems that everything can be hacked these days. Fortunately, the person who discovers a flaw is not necessarily a cybercriminal but is often someone who wants to help improve cyber security. He or she immediately contacts the system owner so that the problem can be solved. A well-coordinated approach allows everyone to learn from the exercise we call 'responsible disclosure'. The Netherlands is a world leader in responsible disclosure. The Dutch like to resolve conflicts through a process of general consultation: the famous 'polder model'. This seems a particularly appropriate approach in the realm of IT and cyber security, since there is no central authority with overall responsibility but many diverse players, each responsible for their own tiny part of a vast and complex system. In this book, we hear from the hackers, system owners, IT specialists, managers, journalists, politicians and lawyers who have been key players in a number of prominent disclosures. Their stories offer a glimpse into the mysterious world of cyber security, revealing how hackers can help us all. [www.helpfulhackers.nl](http://www.helpfulhackers.nl) Chris van 't Hof is an internet researcher and presenter with a background in sociology and electrical engineering. This is his eighth book. While a researcher at the Rathenau Institute, he authored a number of titles including Check in / Check out: the Public Space as an Internet of Things and RFID and Identity Management in Everyday Life. With his company Tek Tok, he now organizes various information technology events. Chris van 't Hof also has his own talkshow, Tek Tok Late Night. [www.tektok.nl](http://www.tektok.nl)

Onderwijskunde als ontwerpwetenschap Martin Valcke,2007 Een inleiding voor ontwikkelaars van instructie en voor toekomstige leerkrachten. De inhoudelijke en structurele uitwerking van dit handboek illustreert een visie op leren en instructie. Het gaat immers niet alleen om het snel verwerken van onderwijskundige basiskennis. De toepassing staat centraal. Dit boek overstijgt de traditionele formele instructiecontexten (kleuterschool, lagere school, secundaire school) en besteedt aandacht aan bedrijfsopleidingen, professionele opleidingen en informele leercontexten zoals musea en tentoonstellingen.
