*Project Cyclops* Thomas Hoover, 2010-08-19 Bantam 1992 The Aegean, ex-agent Michael Vance pilots the Odyssey II, a handmade replica. A Russian gunship with Arab terrorists takes a tiny island where a U.S. corporation has a laser space facility. The renegades convert the launch vehicle into a ballistic missile that can deliver their stolen nuclear warhead to any city in the U.S. Can Vance stop them? Idea points: Aerospace, Ulysses, Cinefex, 2003 The journal of cinematic illusions.

**I Feel Great and You Will Too!** Pat Croce, Bill Lyon, 2001-10-02 Passionate, spirited, and brimming with enthusiasm, Croce's can-do keys to success in business and in life speak volumes about positive achievement. Croce, a personal trainer who overcame odds to become president of the Philadelphia 76ers basketball team, shares the winning attitude that has helped him realize stunning goals.

*The Ultra Fuckers* Carlton Mellick III, Carlton Mellick, 2008 Tony dreads the idea of going to his wife's company dinner party in Eagle Hills; the new upper-middleclass gated community that just popped up outside of Scottsdale, AZ. He hates these Southwestern-style planned suburban neighborhoods. All of the streets look the same. All of the houses look the same. All of the people look the same. Because everything in Eagle Hills looks exactly the same, Tony has trouble finding the dinner party. He quickly becomes lost in the sea of red tile roofs. The streets seem to go on forever. The addresses don't seem to make any sense. After hours of navigating the suburban labyrinth, Tony discovers that there is something terribly wrong with the Eagle Hills gated community. There is something unnatural about the houses around him. There is something inhuman about the people staring at him through the windows. And no matter how far he drives, he can't seem to find his way out. *Ultra Fuckers* is a work of absurd suburban horror in the tradition of Mellick's previous short novel, *The Menstruating Mall*.

*Firedrake* Nick Kyme, 2010-10-26 The Salamanders attempt a daring rescue mission deep in Dark Eldar territory in order to reveal more secrets held within the Tome of Fire. When Chaplain Elysium of the Salamanders is taken captive by Dark Eldar, he faces a fight for survival at the hands of these cruel aliens. The Firedrakes of 1st Company attempt a daring rescue mission, but much more is at stake than the Chaplain's life. He holds the key to secrets buried beneath Mount Deathfire, secrets that could reveal the damnation – or salvation – of their home world.

**The Cultural Cold War** Frances Stonor Saunders, 2013-11-05 During the Cold War, freedom of expression was vaunted as liberal democracy's most cherished possession—but such freedom was put in service of a hidden agenda. In *The Cultural Cold War*, Frances Stonor Saunders reveals the extraordinary efforts of a secret campaign in which some of the most vocal exponents of intellectual freedom in the West were working for or subsidized by the CIA—whether they knew it or not. Called the most comprehensive account yet of the [CIA's] activities between 1947 and 1967 by the *New York Times*, the book presents shocking evidence of the CIA's undercover program of cultural interventions in Western Europe and at home, drawing together declassified documents and exclusive interviews to expose the CIA's astonishing campaign to deploy the likes of Hannah Arendt, Isaiah Berlin, Leonard Bernstein,

Robert Lowell, George Orwell, and Jackson Pollock as weapons in the Cold War. Translated into ten languages, this classic work—now with a new preface by the author—is a real contribution to popular understanding of the postwar period (The Wall Street Journal), and its story of covert cultural efforts to win hearts and minds continues to be relevant today.

**War in the Streets** Michael Dewar, 1992

Treasure Clive Cussler, 2011-04-26 Clive Cussler's bestselling Treasure will now be published in our popular premium format with an exciting new cover.

**Sons of the Gods, Children of Earth** Peter W. Rose, 2019-03-15 In this ambitious and venturesome book, Peter W. Rose applies the insights of Marxist theory to a number of central Greek literary and philosophical texts. He explores major points in the trajectory from Homer to Plato where the ideology of inherited excellence—beliefs about descent from gods or heroes—is elaborated and challenged. Rose offers subtle and penetrating new readings of Homer's Iliad and Odyssey, Pindar's Tenth Pythian Ode, Aeschylus's Oresteia, Sophokles' Philoktetes, and Plato's Republic. Rose rejects the view of art as a mere reflection of social and political reality—a view that is characteristic not only of most Marxist but of most historically oriented treatments of classical literature. He applies instead a Marxian hermeneutic derived from the work of the Frankfurt School and Fredric Jameson. His readings focus on illuminating a politics of form within the text, while responding to historically specific social, political, and economic realities. Each work, he asserts, both reflects contemporary conflicts over wealth, power, and gender roles and constitutes an attempt to transcend the status quo by projecting an ideal community. Following Marx, Rose maintains that critical engagement with the limitations of the utopian dreams of the past is the only means to the realization of freedom in the present. Classicists and their students, literary theorists, philosophers, comparatists, and Marxist critics will find *Sons of the Gods, Children of Earth* challenging reading.

**Seeing Like a State** James C. Scott, 2020-03-17 “One of the most profound and illuminating studies of this century to have been published in recent decades.”—John Gray, New York Times Book Review Hailed as “a magisterial critique of top-down social planning” by the New York Times, this essential work analyzes disasters from Russia to Tanzania to uncover why states so often fail—sometimes catastrophically—in grand efforts to engineer their society or their environment, and uncovers the conditions common to all such planning disasters. “Beautifully written, this book calls into sharp relief the nature of the world we now inhabit.”—New Yorker “A tour de force.”—Charles Tilly, Columbia University

Steelabor , 1984

**Percy Jackson and the Olympians, Book Five: The Last Olympian** Rick Riordan, 2009-05-02 All year the half-bloods have been preparing for battle against the Titans, knowing the odds of victory are grim. Kronos's army is stronger than ever, and with every god and half-blood he recruits, the evil Titan's power only grows. While the Olympians struggle to contain the rampaging monster Typhon, Kronos begins his advance on New York City, where Mount Olympus stands virtually unguarded. Now it's up to Percy Jackson and an army of young demigods to stop the Lord of Time.

*Aircraft and Submarines: The Story of the Invention, Development, and Present-Day Uses of War's Newest Weapons* Willis John Abbot, 1918

**Naming Your Little Geek** Scott Rubin, 2020-08-04 The ultimate book of baby names for comic book nerds, sci-fi fans and more—with the meanings and stories behind more than 1,000 names! Having trouble finding a baby name that celebrates your favorite fandom? Whether you want your child's name to stand out in a crowd or fit in on the playground, Naming Your Little Geek is here to save the day! This ultimate guidebook is complete with every name a geek could want to give their baby—from Anakin and Frodo to Indiana and Clark; and from Gwen and Wanda to Buffy and Xena—plus their meanings, and a list of all the legends who have borne them. Naming Your Little Geek covers everything from comic book superheroes to role-playing game icons, Starfleet officers to sword and sorcery legends with characters who have appeared on film and TV, in novels and comic books, on the tabletop, and beyond. With nearly 1,100 names referencing more than 4,400 characters from over 1,800 unique sources, it's the perfect resource for parents naming a child or anyone looking for a super cool and meaningful new name.

**Callings** Gregg Michael Levoy, 1998-09-08 How do we know if we're following our true callings? How do we sharpen our senses to cut through the distractions of everyday reality and hear the calls that are beckoning us? is the first book to examine the many kinds of calls we receive and the great variety of channels through which they come to us. A calling may be to do something (change careers, go back to school, have a child) or to be something (more creative, less judgmental, more loving). While honoring a calling's essential mystery, this book also guides readers to ask and answer the fundamental questions that arise from any calling: How do we recognize it? How do we distinguish the true call from the siren song? How do we handle our resistance to a call? What happens when we say yes? What happens when we say no? Drawing on the hard-won wisdom and powerful stories of people who have followed their own calls, Gregg Levoy shows us the many ways to translate a calling into action. In a style that is poetic, exuberant, and keenly insightful, he presents an illuminating and ultimately practical inquiry into how we listen and respond to our calls, whether at work or at home, in our relationships or in service. Callings is a compassionate guide to discovering your own callings and negotiating the tight passages to personal power and authenticity.

**New York Magazine** , 1986-02-24 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

**The Toilers of the Sea** Victor Hugo, 1888 The eternal conflict between the will of man and the power of nature, as expressed by the sea. Contains a realistic and rhapsodical description of the Needles, the pointed rocks in the English Channel, and a man's terrifying fight with an octopus.

**Ancient Greece and Rome in Videogames** Ross Clare, 2021-06-03 This volume presents an original framework for the study of video games that use visual materials and narrative conventions from ancient Greece and Rome. It focuses on the culturally rich continuum of ancient Greek and Roman games, treating them not just as representations, but as functional interactive products that require the player to interpret, communicate with and alter them. Tracking

the movement of such concepts across different media, the study builds an interconnected picture of antiquity in video games within a wider transmedial environment. *Ancient Greece and Rome in Videogames* presents a wide array of games from several different genres, ranging from the blood-spilling violence of god-killing and gladiatorial combat to meticulous strategizing over virtual Roman Empires and often bizarre adventures in pseudo-ancient places. Readers encounter instances in which players become intimately engaged with the “epic mode” of spectacle in *God of War*, moments of negotiation with colonised lands in *Rome: Total War* and *Imperium Romanum*, and multi-layered narratives rich with ancient traditions in games such as *Eleusis* and *Salamambo*. The case study approach draws on close analysis of outstanding examples of the genre to uncover how both representation and gameplay function in such “ancient games”.

Unconquerable Nation Brian Michael Jenkins, 2006 The author presents a clear-sighted and sobering analysis of where we are today in the struggle against terrorism. Jenkins, an internationally renowned authority on terrorism, distills the jihadists' operational code and outlines a pragmatic but principled approach to defeating the terrorist enterprise. We need to build upon our traditions of determination and self-reliance, he argues, and above all, preserve our commitment to American values.
