A Concise Pahlavi Dictionary D. N. Mackenzie,2014-09-25 First published in 2004. Routledge is an imprint of Taylor & Francis, an informa company.

An Etymological Dictionary of Persian, English and Other Indo-european Languages Ali Nourai,2013 Tracing words to their origins opens a new window to human civilization and culture and helps us understand the roots of some of our present social trends and attitudes. For example, the etymology of words for family members clearly shows the division of responsibilities in the most basic unit of society - the family. Father was the protector of the family (Pa: protect), mother was the feeder(Ma: breast), brother was the load carrier (Bher: carry) and daughter was the milker (Dhugh: to milk). If one makes the effort to read beyond the shallow shell of sounds and symbols, one can recognize our human oneness portrayed in our words and their historical roots. The primary motivation for writing this dictionary is the hope that it would foster a greater appreciation for the commonality in the apparent variance among different languages and cultures, and ultimately nurture a greater understanding among those who speak apparently different languages. In tracing any Persian word to its origins, its cognates in other Indo-European languages must be considered. In this dictionary, English cognates are regularly referred to along with some other Indo-European equivalents. Altogether, over 1,600 roots and 17,400 derived words are presented in this dictionary. One of the most unique features of this dictionary is its graphical presentation of etymological data, similar to a family tree. The derivations of words are indicated with arrows rather than lengthy text. The arrows greatly simplify the process of tracing words to their roots.

Zeina Nawal El Saadawi,2011-08-20 Distinguished literary critic Bodour is trapped in a loveless marriage and carries with her a dark secret. She fell in love in her youth and gave birth to an illegitimate daughter, Zeina, whom she abandoned on the streets of Cairo. Bodour doesn't know that Zeina has blossomed into one of Egypt's most beloved entertainers. Pining for her estranged daughter, she writes a fictional account of her life in an attempt to find solace. But as the revolution in Cairo begins to gain fire, the novel goes missing and Bodour must find who has stolen it. Will her hunt for the thief bring mother and daughter together? Or is Bodour destined to lose her daughter to Cairo forever?

Extreme Hydrological Events: New Concepts for Security O.F. Vasiliev,P.H.A.J.M.van Gelder,E.J. Plate,M.V. Bolgov,2007-03-23 This book addresses the development of advanced methods for the prediction, the estimation of occurrence probabilities and the risk related to extreme hydrological events. It also discusses the reduction of the vulnerability of social, economic, and engineering systems to extreme hydrologic events and the decrease of their effects on such systems.

Civil Society and the Security Sector Marina Caparini,Philipp Fluri,Ferenc Molnár,2006 This volume analyses the role of civil society in the reform and oversight of the security sector in post-communist countries as a key aspect of the transition towards democracy. It is widely accepted that civil society actors have an important contribution to make in the governance of the security sector. However, that specific role has not been subject to much close or comparative examination. This book constitutes an attempt to examine and compare experiences of civil society participation in security oversight across Central and Eastern Europe. The first part of the volume presents the reader with the theoretical and conceptual background against which the potential role of civil society in security sector governance can be understood and assessed. The remainder of the book is comprised of nine country studies of civil society engagement with the security sector. Reviewing developments over the past 15 years of regime transformation in the region, the book draws upon a rich variety of cases that cast light on the different experiences, challenges, and successes of civil society actors and the media in democratisation, security sector reform, and the exercise of democratic oversight of the security sector.

Cleopatra Michel Chauveau,2002 Cleopatra: kohl and vipers, barges and thrones, Elizabeth Taylor and Richard Burton. We have long been schooled in the myth of the Egyptian ruler. In his new book Michel Chauveau brings us a picture of her firmly based in reality. Cleopatra VII reigned in Egypt between 51 and 30 B.C.E. Her primary goal as a ruler was to restore over the eastern Mediterranean the supremacy of the Lagides, the dynasty of Macedonian origin of which she herself was a descendant. We know the queen best from Greek and Latin sources, though these must be used with caution because of their bias. Understandably enough, they reflect not only matters of interest to Romans, but also the propaganda that Octavian used against the queen during his struggles with Mark Antony. Chauveau combines his knowledge of Egyptian sources with judicious use of classical materials to produce an authoritative biography of Cleopatra, the woman and queen, seen in the light of the turbulent era in which she lived.
