

Cz 75

Roger Eckstine

The CZ-75 Family J. M. Ramos, 1990 Touted by arms producers and designers world-wide as the finest combat handgun ever made, the Czech Model 754 pistol is in a class of its own. It is the most widely copied autoloading pistol in existence -- rivalled only by the legendary US war-horse, the Colt .45. The book opens with a brief but complete historical perspective, beginning with Czechoslovakian rifles introduced in the early 1900s and progressing through submachine guns, machine guns, and automatic pistols and revolvers, from the CZ Model 1927 to the CZ Model 1950. This is followed by an in-depth discussion of the early- and late-model CZ-75s, as well as the newest addition to the Czech pistol family -- the Czech army's newly adopted CZ-82 service pistol and the current-model CZ-85. Also included are a sneak preview of the upcoming CZ-90 line and a look at the exciting line-up of CZ-75 clones.

The Fine Art of Executive Protection A. Hunsicker, 2007-12 The number of incidents and crimes carried out by terrorists and criminals, such as physical threats, violent attacks, assassinations, kidnapping and hostage situations are increasing by the minute worldwide. Each incident is a constant and ever demanding challenge to the law enforcement and the personal security professionals in particular. A detailed, but understandable manual for the Executive Protection Officer is a priority and the answer to those challenging situations. The Fine Art of Executive Protection is a detailed, but understandable manual for the Executive Protection Officer providing answers to those challenging situations. Information about every aspect of executive protection is not only an important part of the professional's training curriculum, but plays also a vital role for the client, who seeks protection. This manual will provide a clear view of all aspects

not only for the professional, but also for prospect clients. To make sure of this all available training and study material, individual case studies and real scenarios combined with professional experience served as a foundation for this specialist's manual. The Fine Art of Executive Protection in its comprehensive and straight- forward form will guide the reader through the diversity of disciplines and skills, which are essential for any professional of the executive protection and private security sector. This book provides detailed information and knowledge, necessary and indispensable not only for the novice, but also for the experienced executive protection professional. It provides the clear knowledge and a thorough understanding of the characteristics, diversity and demands of this profession. It contains all the essential ingredients, necessary for an effective protection planning and successful service, demanded by any executive protection specialist. Providing all the tools, techniques and applications needed for this specific job, it also shall motivate some talents, which may need to be developed further and to face not only today's protection needs, but also those of the future. The book not only contains detailed professional information for the person seeking a post in the glamorous world of the executive protection- business but also provides all the information necessary for those under threat and in need of close protection and a secure environment. A protection- seeking client will find detailed information about Executive Protection and Physical Security. Executive or Personal Protection, was once considered a service only and exclusive for the rich, famous and a few selected government officials. But recent events and an increase in violence, quickly transformed Executive Protection into a sought after service- commodity worldwide. Keeping this in mind, any part of this guide is therefore easily

adaptable and adjusted to any region or country in the world.

However, one must carefully consider and act within the local laws to assure a successful protection service.

Gun Digest Book of CZ Firearms Robb Manning, 2017 With the author's unprecedented access to historical images and information, and as the first book of its kind written in English, *Gun Digest Book of CZ* will be the go-to resource for everything there is to know about CZ firearms. Triggered by the fall of communism and reorganization of the previously state-owned company, CZ (Ceska zbrojovka) firearms are becoming increasingly popular with American shooters as more people learn about them. With the author's unprecedented access to historical images and information, and as the first book of its kind written in English, *Gun Digest Book of CZ* is the go-to resource for everything there is to know about CZ firearms. The Czech Republic is one of the oldest makers of firearms. Some of the earliest guns (Middle ages) come from this region. CZ as a gun maker has been around for nearly a century as a communist state owned entity, but is new in the sense that it re-organized into its current form after the fall of communism. While new to American shooters, CZ has a reputation around the rest of the world as a high quality, dependable firearm. The audience for this book includes the exploding market of CZ enthusiasts and collectors and anyone interested in these iconic firearms. The book offers insights for the modern shooter, as well as anyone interested in historic firearms and manufacturers.

The Browning High-Power Pistol Leroy Thompson, 2020-04-30 Making its debut in 1935, the Browning High-Power was the world's most widely used military pistol for much of the 20th century.

Military and law-enforcement agencies in more than 90 countries have issued the High-Power and it has seen combat in conflicts from World War II through to the 'War on Terror'. After conquering Belgium, Nazi Germany produced more than 300,000 High-Powers for use by the Waffen-SS, Fallschirmjäger and others, and after 1945 the High-Power became standard for most NATO-armed forces as well as scores of others. Chambered for the 9×19mm Luger cartridge, John Browning's High-Power improved on the classic Colt M1911 design, especially in its use of a far simpler takedown system. The pistol's innovative 13-round magazine, designed by Dieudonné Saive, staggered the cartridges for higher capacity without unduly increasing the grip size. During its 82-year production run at Fabrique Nationale (FN) in Belgium, the design evolved slightly, but a 2017 High-Power was still easily recognizable as a descendant of the original model. Packed with gripping material including detailed technical specifications, contemporary photographs and highly accurate artist's renditions, this title is a comprehensive and informative guide to the world's most iconic semi-automatic pistol.
