**Survive the Dome** Kosoko Jackson, 2022-03-29 The Hate U Give meets Internment in this pulse-pounding thriller about an impenetrable dome around Baltimore that is keeping the residents in and information from going out during a city-wide protest. Jamal Lawson just wanted to be a part of something. As an aspiring journalist, he packs up his camera and heads to Baltimore to document a rally protesting police brutality after another Black man is murdered. But before it even really begins, the city implements a new safety protocol...the Dome. The Dome surrounds the city, forcing those within to subscribe to a total militarized shutdown. No one can get in, and no one can get out. Alone in a strange place, Jamal doesn't know where to turn...until he meets hacker Marco, who knows more than he lets on, and Catherine, an AWOL basic-training-graduate, whose parents helped build the initial plans for the Dome. As unrest inside of Baltimore grows throughout the days-long lockdown, Marco, Catherine, and Jamal take the fight directly to the chief of police. But the city is corrupt from the inside out, and it's going to take everything they have to survive.

Firmament: Vaulted Dome of the Earth Zen Garcia, 2016-09-16 While researching information for the publication of my 9th book *The Flat Earth As Key To Decrypt The Book Of Enoch*, I was led to understanding that not only does the Bible support premise that the earth is a flat circular plane but that it is covered by the firmament as a solid transparent dome like canopy. This led me to revisit the canonical and extra Biblical texts such as *The Book Of Enoch*, *The Book Of Jasher*, *The Book Of Jubilees*, and myriad others, to see if not only did they affirm such idea but if they contained other little known insight which might expound upon this matter in some detailed manner. This book is the end result of that search and compilation of all of those source references. And because I include in this study much extra Biblical material which few are familiar with, I doubt one will be able to find a more complete investigation of the firmament as topic than that which is presented here. The seeker of lost paradise may seem a fool to those whom have never sought the other worlds

From the Basement to the Dome Jean-Jacques Degroof, 2021-09-07 How a bottom-up problem-solving ethos, multidisciplinary approach, and experimental mindset has nurtured entrepreneurship at MIT. MIT is world-famous as a launching pad for entrepreneurs. MIT alumni have founded at least 30,000 active companies, employing an estimated 4.6 million people, with revenues of approximately \$1.9 trillion. In the 2010s, twenty to thirty ventures were spun off each year to commercialize technologies developed in MIT labs (with intellectual property licensed by MIT to these companies); in the same decade, MIT graduates started an estimated 100 firms per year. How has MIT become such a hotbed of entrepreneurship? In *From the Basement to the Dome*, Jean-Jacques Degroof describes how MIT's problem-solving ethos, multidisciplinary approach, and experimental mindset nurture entrepreneurship. Degroof explains that, at first, the culture of entrepreneurship sprang from such extracurricular activities as forums, clubs, and competitions. Eventually, the Institute formally supported these activities, offering courses in entrepreneurship. Degroof describes why entrepreneurship is so uniquely aligned with MIT's culture: a history of bottom-up decision-making, a tradition of academic excellence, a keen interest in problem-solving, a belief in experimentation, and a tolerance for

failure on the way to success. Entrepreneurship is the logical outcome of MIT's motto, *Mens et Manus* (mind and hand) ), translating theories and scientific discoveries into products and businesses--many of which have the goal of solving some of the world's most pressing problems. Degroof maps MIT's current entrepreneurial ecosystem of students, faculty, and researchers; considers the effectiveness of teaching entrepreneurship; and outlines ways that the MIT story could inspire conversations in other institutions about promoting entrepreneurship.

**The Great Dome on Mercury** Arthur Leo Zagat, 2012-06-01 Attorney-turned-author Arthur Leo Zagat strikes science-fiction gold again in the tautly thrilling tale, *The Great Dome on Mercury*. Charas, the Improbable Dome Builders Syeus Mottel, 1973 Pioneer Works Press, in partnership with The Song Cave, is pleased to present the release of *CHARAS: The Improbable Dome Builders*, by Syeus Mottel (2017), a fascinating account of six ex-gang members who broke ground to construct a geodesic dome on a vacant lot in the shadow of the Manhattan Bridge after a 1970 meeting with the celebrated and revolutionary architect R. Buckminster Fuller, also known as Bucky. Originally published in 1973, this republication speaks to the issues at the heart of the CHARAS project as gentrification seems to multiply faster than communities can work to preserve themselves against it. The book acts as a record to highlight ways people have united to activate empty spaces before gentrification. As a group, CHARAS was interested in physically altering the housing conditions in their immediate neighborhood, the Lower East Side. Influenced by Bucky's teachings, the young men of CHARAS began a period of devoted study to solid geometry, spherical trigonometry, and the principles of dome building. Following this period, CHARAS developed a program that encouraged community autonomy and the reclaiming public space. More than simply a documentation of the project, the book offers stories, profiles, interviews, and images, and the group's process from their intensive study to the obstacles they faced while physically constructing domes.--pioneerworks.org

**View of the Dome** Theresa Rebeck, 1998 This humor-filled tale of political corruption, ingratitude, and revenge concerns an idealistic young Washington attorney who persuades her former law professor, a man of lofty rhetoric, to run for Congress. Ideals shrivel in the Washington air as the professor is swept into an insider's circle that includes a leering, power-drunk senator and a slinky, Southern power broker. When the heroine is snubbed by the politically powerful at a fancy restaurant, her hurt feelings precipitate an all-out war. She promotes a sex scandal that unexpectedly makes her the darling of the religious right.

He saw planes arriving and taking off and while he was watching he noticed that a black plane came out of the sky entering the Dome planet through what looked like a square hologram or portal between the clouds. He observed another plane taking off and flying into the square opening in the sky, this seemed to happen at regular intervals. Ron supposed that the holographic opening in between the clouds was a portal connecting this world of artificial intelligence and evil with the world made by Satan. As he entered the airport, he saw people sitting in waiting rooms looking trance like

**Bucky's Dome** Cary O'Dell, Thad Heckman, 2020 Recognized as one of the great design and architectural thinkers of the twentieth century, R. Buckminster Fuller's name is synonymous with the geodesic dome. But throughout his long life and career, Fuller would only ever call one geodesic dome home, and that was the house he built in 1960 on a corner lot in the small Midwestern town of Carbondale, Illinois. Erected in just one day, Carbondale's famous Bucky Dome was an architectural innovation that is now recognized as a local, state and national historic site. The Dome was the residence of Fuller and his wife, Anne, for over a decade and it endures until this day. This book recounts the building of the Fuller's remarkable home, the Midwestern lives of its two famous owners, and the home's history of subsequent owners and renters. And it covers the nearly twenty-year process involving architects, carpenters, preservationists and volunteers in their efforts to restore the Dome to its original individualistic and revolutionary state.
