**Nominal Classification in Aboriginal Australia** Mark Harvey, Nicholas Reid, 1997-09-02 This volume aims to extend both the range of analyses and the database on nominal classification systems. Previous analyses of nominal classification systems have focussed on two areas: the semantics of the classification system and the role of the system in discourse. In many nominal classification systems, there appear to be a significant percentage of nominals with an arbitrary classification. There is a considerable body of literature aimed at elucidating the semantic bases of classification in such systems, thereby reducing the degree of apparent arbitrariness. Contributors to this volume continue this line of enquiry, but also propose that arbitrariness in itself has a role from a wider socio-cultural perspective. Previous analyses of the discourse role of classification systems posit that they play a significant role in referential tracking. For the languages surveyed in this volume, contributors propose that reference instantiation is an equally significant function, and indeed that reference instantiation and tracking cannot be properly divided from one another. This volume provides detailed information on classification in a number of northern Australian languages, whose systems are otherwise poorly known.

*The Rise of a Legend (Guardians of Ga'Hoole)* Kathryn Lasky, 2013-07-30 Bestselling author Kathryn Lasky takes flight once more with a brand-new Guardians of Ga'Hoole novel! An owl hatches out onto Stormfast Island and into a world torn by war. For one hundred years, his people have fought off enemy owls from the Ice Talons, but the tide has turned. An invasion is coming, one the Kielian League won't have the strength to resist. Soon the tyrant owl Bylyric will rule over everything, and no honorable owl will be safe. Only the small owl from Stormfast stands between Bylyric and total victory. Lyze is not very impressive to look at, but he has a wild idea for a snake and

owl strike unit that just might give the soldiers of the Kielian League the edge they need. This is his story, the story of an ordinary owl who rose to become Ezylyrb of the Great Tree. This is the story of what it takes to make a Guardian of Ga'Hoole.

**Climate Change and Globalization in the Arctic** E. Carina H. Keskitalo, 2012-05-04 Climate change vulnerability assessment is a rapidly developing field. However, despite the fact that such major trends as globalization and the changing characteristics of the political and economic governance systems are crucial in shaping a community's capacity to adapt to climate change, these trends are seldom included in assessments. This book addresses this shortcoming by developing a framework for qualitative vulnerability assessment in multiple impact studies (of climate change and globalization) and applying this framework to several cases of renewable natural resource use. The book draws upon case studies of forestry and fishing - two of the largest sectors that rely on renewable natural resources - and reindeer herding in the European North. The study represents a bottom-up view, originating with the stakeholders themselves, of the degree to which stakeholders find adaptation to climate change possible and how they evaluate it in relation to their other concerns, notably economic and political ones. Moreover, the approach and research results include features that could be broadly generalized to other geographic areas or sectors characterized by renewable natural resource use.
