

Da Vinci

Michael J. Gelb

Leonardo da Vinci Walter Isaacson, 2017-10-17 The #1 New York Times bestseller from Walter Isaacson brings Leonardo da Vinci to life in this exciting new biography that is “a study in creativity: how to define it, how to achieve it...Most important, it is a powerful story of an exhilarating mind and life” (The New Yorker). Based on thousands of pages from Leonardo da Vinci’s astonishing notebooks and new discoveries about his life and work, Walter Isaacson “deftly reveals an intimate Leonardo” (San Francisco Chronicle) in a narrative that connects his art to his science. He shows how Leonardo’s genius was based on skills we can improve in ourselves, such as passionate curiosity, careful observation, and an imagination so playful that it flirted with fantasy. He produced the two most famous paintings in history, The Last Supper and the Mona Lisa. With a passion that sometimes became obsessive, he pursued innovative studies of anatomy, fossils, birds, the heart, flying machines, botany, geology, and weaponry. He explored the math of optics, showed how light rays strike the cornea, and produced illusions of changing perspectives in The Last Supper. His ability to stand at the crossroads of the humanities and the sciences, made iconic by his drawing of Vitruvian Man, made him history’s most creative genius. In the “luminous” (Daily Beast) *Leonardo da Vinci*, Isaacson describes how Leonardo’s delight at combining diverse passions remains the ultimate recipe for creativity. So, too, does his ease at being a bit of a misfit: illegitimate, gay, vegetarian, left-handed, easily distracted, and at times heretical. His life should remind us of the importance to be imaginative and, like talented rebels in any era, to think different. Here, da Vinci “comes to life in all his remarkable brilliance and oddity in Walter Isaacson’s ambitious new biography...a vigorous, insightful portrait” (The Washington Post).

Discoveries: Leonardo Da Vinci Alessandro Vezzosi,1997-09 Scientist, painter, philosopher, anatomist, astronomer, engineer, inventor, courtier: Leonardo da Vinci is one of the greatest figures of the Renaissance. This book surveys the life and work of a unique genius, from his childhood in Italy to his death in France. More than a biography, it sets his life in the context of the great courts he visited: Medici Florence, ducal Milan, royal France. Written for both younger and adult audiences, it presents a readable discussion of Leonardo's complex art, life, and thought, explores his groundbreaking research in medicine, hydraulics, metal-casting, mechanics, painting techniques, architecture, and the new science of warfare and weaponry, and examines his place in intellectual and art history.

Leonardo da Vinci Sherwin Nuland,2005-01-04 The life and work of the great Italian Renaissance artist and scientist Leonardo da Vinci (1452–1519) have proved endlessly fascinating for generations. In Leonardo da Vinci, Sherwin Nuland completes his twenty-year quest to understand an unlettered man who was a painter, architect, engineer, philosopher, mathematician, and scientist. What was it that propelled Leonardo's insatiable curiosity?

Nuland finds clues in his subject's art, relationships, and scientific studies—as well as in a vast quantity of notes that became widely known in the twentieth century. Scholarly and passionate, Nuland's Leonardo da Vinci takes us deep into the first truly modern, empirical mind, one that was centuries ahead of its time.

His celebrated notebooks display the astonishing range of his genius. Dan Brown's The Da Vinci Code and recent in-depth biographies have stimulated renewed interest in Leonardo and his complex and enquiring intelligence. This brand-new selection of sketches, diagrams and writings from the notebooks is a beautiful and varied record of Leonardo's theories and observations, embracing not only art but also architecture, town planning, engineering, naval warfare, music, medicine, mathematics, science and philosophy. Lives of Leonardo da Vinci Giorgio Vasari,Matteo Bandello,Paolo Giovio,Leonardo da Vinci,Sabba di Castiglione,2019-10-29 A new title in the

successful Lives of the Artists series, which offers illuminating, and often intimate, accounts of iconic artists as viewed by their contemporaries. Coinciding with the five hundredth anniversary of the death of Leonardo (1452–1519), Lives of Leonardo da Vinci brings together important early biographies of the polymath by Giorgio Vasari, Paolo Giovio, and anonymous authors. This illustrated volume also features recollections by the humanist scholar Sabba di Castiglione; Matteo Bandello's eyewitness account of the artist creating one of his most famous works, The Last Supper; and letters written by a variety of contemporary authors, including Leonardo himself.

Leonardo Da Vinci Painter Giovanni Carlo Federico Villa, 2011 More iconic images accrue to the name of Leonardo da Vinci than to any other artist. The Mona Lisa stands as a sort of primary visual signifier for Art itself, just as his drawing of Vitruvian Man stands as a primary visual signifier for Man. This new da Vinci monograph presents this ultimate Renaissance man's complete corpus, from the most renowned oil paintings such as Lady with an Ermine, Virgin of the Rocks and Mona Lisa to frescoes such as The Last Supper in Santa Maria delle Grazie Church and the ceiling frescoes of the Sala delle Asse in Castello Sforzesco in Milan. All works are reproduced in full-color plates, many of them augmented with detail plates that reveal the extraordinary care lavished by the artist upon his canvases. Also included are da Vinci's preparatory drawings and cartoons; works no longer extant, such as The Battle of Anghiari, are enumerated as part of the da Vinci corpus. Affordably priced and superbly produced, this volume offers a basic da Vinci monograph for all. Leonardo da Vinci (1452-1519) was born in Florence and studied with the renowned painter Verrocchio, qualifying as a master at the age of 20 in 1472. After his apprenticeship he worked for Ludovico il Moro, later moving to Rome, Bologna and Venice before settling in France, where his final three years were spent in the service of François I.

The Notebooks of Leonardo Da Vinci Leonardo (da Vinci), Jean Paul Richter, 1970-01-01 More than fifteen hundred extracts containing the

Renaissance genius' maxims, prophecies, fables, letters, and brilliant observations in architecture, painting, physiology, geography, and other fields

The Notebooks of Leonardo Da Vinci (Complete) Leonardo da Vinci, 2020-09-28 A singular fatality has ruled the destiny of nearly all the most famous of Leonardo da Vinci's works. Two of the three most important were never completed, obstacles having arisen during his life-time, which obliged him to leave them unfinished; namely the Sforza Monument and the Wall-painting of the Battle of Anghiari, while the third—the picture of the Last Supper at Milan—has suffered irremediable injury from decay and the repeated restorations to which it was recklessly subjected during the XVIIth and XVIIIth centuries. Nevertheless, no other picture of the Renaissance has become so wellknown and popular through copies of every description. Vasari says, and rightly, in his Life of Leonardo, that he laboured much more by his word than in fact or by deed, and the biographer evidently had in his mind the numerous works in Manuscript which have been preserved to this day. To us, now, it seems almost inexplicable that these valuable and interesting original texts should have remained so long unpublished, and indeed forgotten. It is certain that during the XVIth and XVIIth centuries their exceptional value was highly appreciated. This is proved not merely by the prices which they commanded, but also by the exceptional interest which has been attached to the change of ownership of merely a few pages of Manuscript. That, notwithstanding this eagerness to possess the Manuscripts, their contents remained a mystery, can only be accounted for by the many and great difficulties attending the task of deciphering them. The handwriting is so peculiar that it requires considerable practice to read even a few detached phrases, much more to solve with any certainty the numerous difficulties of alternative readings, and to master the sense as a connected whole. Vasari observes with reference to Leonardos writing: he wrote backwards, in rude characters, and with the left hand, so that any one who is not practised in reading them, cannot understand them. The aid of a mirror in reading reversed handwriting appears to me available only for a first experimental reading. Speaking from my own experience, the persistent use of it is too fatiguing and inconvenient to be practically advisable, considering the enormous mass of Manuscripts to be deciphered. And as, after all, Leonardo's handwriting runs backwards just as all Oriental character runs backwards—that is to say from right to left—the difficulty of reading direct from the writing is not insuperable. This obvious peculiarity in the writing is not, however, by any means the only obstacle in the way of mastering the text. Leonardo made use of an orthography peculiar to himself; he had a fashion of amalgamating several short words into one long one, or, again, he would quite arbitrarily divide a long word into two separate halves; added to this there is no punctuation whatever to regulate the division and construction of the

sentences, nor are there any accents—and the reader may imagine that such difficulties were almost sufficient to make the task seem a desperate one to a beginner. It is therefore not surprising that the good intentions of some of Leonardo's most reverent admirers should have failed.

Leonardo da Vinci Anna Abraham, 2016-03-25 Leonardo da Vinci personified the Renaissance, the extraordinary age in which he lived. Best known as one of the world's greatest painters, he sketched the foundations for inventions that would not come to fruition for centuries. Born a bastard in a hillside village in northern Italy, Leonardo became the protégé of princes, popes, and kings. He mastered so many branches of science that scholars still debate whether he was greater as an anatomist, botanist, cartographer, engineer, geographer, or naturalist. Nevertheless, he died unhappy, believing he had failed to work the miracles of which he had dreamed. Here is his extraordinary story.

Leonardo on Painting Leonardo, 2001-01-01 This is a selection of Leonardo da Vinci's writings on painting. Martin Kemp and Margaret Walker have edited material not only from his so-called Treatise on Painting but also from his surviving manuscripts and from other primary sources.

The Everything Da Vinci Book Shana Priwer, Cynthia Phillips, 2006-03-13 Whatever you've heard about Leonardo Da Vinci, the truth is even more fascinating! From his provocative relationship with the church and secret societies such as the Freemasons to the secrets behind his art and inventions, Da Vinci was a man ahead of his time who willingly paid the price to live life his way. This multitalented man, arguably the greatest genius of all time, was not only a magnificent artist, scientist, and inventor, but also a politically-minded radical who defied convention at every turn in his rich, amazing life. With *The Everything Da Vinci Book*, you'll immerse yourself in the extraordinary mind, heart, and soul of this quintessential Renaissance man, and be inspired to live your own life to the fullest!

Becoming Leonardo Mike Lankford, 2017-03-28 I found Mr. Lankford's writing thought-provoking and Mr. Isaacson's thought-stifling. Mr. Lankford proposes a great many insights...With immediacy and grace, *Becoming Leonardo* starts on a high note and gets better to the very end.—WALL STREET JOURNAL A Wall Street Journal 2017 Book of the Year A Spectator 2017 Book of the Year Why did Leonardo Da Vinci leave so many of his major works uncompleted? Why did this resolute pacifist build war machines for the notorious Borgias? Why did he carry the Mona Lisa with him everywhere he went for decades, yet never quite finish it? Why did he write backwards, and was he really at war with Michelangelo? And was he gay? In a book unlike anything ever written about the Renaissance genius, Mike Lankford explodes every cliché about Da Vinci and then reconstructs him based on a

rich trove of available evidence—bringing to life for the modern reader the man who has been studied by scholars for centuries, yet has remained as mysterious as ever. Seeking to envision Da Vinci without the obscuring residue of historical varnish, the sights, sounds, smells, and feel of Renaissance Italy—usually missing in other biographies—are all here, transporting readers back to a world of war and plague and court intrigue, of viciously competitive famous artists, of murderous tyrants with exquisite tastes in art Lankford brilliantly captures Da Vinci's life as the compelling and dangerous adventure it seems to have actually been—fleeing from one sanctuary to the next, somehow surviving in war zones beside his friend Machiavelli, struggling to make art his way or no way at all ... and often paying dearly for those decisions. It is a thrilling and absorbing journey into the life of a ferociously dedicated loner, whose artwork in one way or another represents his noble rebellion, providing inspiration that is timeless.
