Working Scottish Trucks: Through the Lens Ian Lawson, 2017-08-07 Working Scottish Trucks is a photographic book bringing together 262 images of commercial vehicles spotted across some of the most scenic parts of Scotland. The beautiful landscapes offer a fantastic backdrop to the large range of haulage companies based in this rural, rugged and often difficult area. With just one picture per page, this book reproduces Ian Lawson's perfectly captured shots to maximum effect. The images have been taken over 30 years of dedicated viewing and focus on 10 types of vehicles - bulk transport, curtainsiders, fridges and food, general haulage, hay and straw, heavy haulage, livestock transporters, renewable energy transport, round timber haulage and tankers. Each photo is captioned with the date, location, make and model of vehicle and details of owner and types of work undertaken. The distinctive and unashamedly patriotic look of Scottish liveries has always attracted a strong following and so Working Scottish Trucks is a must-have for transport enthusiasts within Scotland, the UK and beyond.

The World of Custom Trucks Ferdy De Martin, Xavier Stefaniak, 2013-03-26 Although truck efficiency and performance are priorities for operators and drivers, their pride in their vehicles shows itself in the way that so many are customised and decorated. Ferdy De Martin & Xavier Stefaniak have selected 29 examples of currently working trucks whose decoration is an art form, ranging from the delicate and subtle to transport rococo - a phantasmagoria of images in bright colours. The imaginative designs, high standard of craftsmanship and superb finish create unique vehicles that are immediately recognisable and attract devoted followers. Over 250 fantastic photographs are accompanied by concise captions that are both enthusiastic and illuminating; the authors do full justice to the trucks. The text is in English with synopses in French, and each truck is presented with a number of photographs to show off both the overall designs as well as the details of exteriors and interiors. This is a truly international selection of machines, with eighteen of the twenty-nine trucks featured from Europe, eight from North America and three from the UK. Original manufacturers include Volvo, Scania, Mercedes and Peterbilt.

DAF at Work Patrick W. Dyer, 2010-07 Following the success of his previous book, Scania at Work, Patrick Dyer takes a close look at another favourite of long haul drivers, DAF. Although now owned by the American company, PACCAR, and with links to Leyland, the roots of DAF trucks are firmly in Eindhoven, Holland. The company started truck manufacture relatively late, but in the early 1970s it took an industry lead with its flagship 2800. The 'Supercontinental' version, with its wide tilt sleeper cab with two full-size bunks and its powerful 11.6-litre DAF engine was a natural for long-haul work. The successor 3300 and 3600 models took the company into the 1980s, running alongside Scania and Volvo as a long-distance driver's favourite. The 330 hp engine suited it for the heavy-duty special transport that became a feature of the period. Patrick W Dyer, author of two books for Old Pond - Scania at Work and Know Your Trucks - works in the automotive industry and is based in Essex. His new book is rich in photographs from the 1970s and '80s.
