**The Aerodynamics of Heavy Vehicles II: Trucks, Buses, and Trains** Fred Browand, Rose McCallen, James Ross, 2008-09-30 It is our pleasure to present these proceedings for "The Aerodynamics of Heavy Vehicles II: Trucks, Buses and Trains" International Conference held in Lake Tahoe, California, August 26-31, 2007 by Engineering Conferences International (ECI). Brought together were the world's leading scientists and engineers from industry, universities, and research laboratories, including truck and high-speed train manufacturers and operators. All were gathered to discuss computer simulation and experimental techniques to be applied for the design of the more efficient trucks, buses and high-speed trains required in future years. This was the second conference in the series. The focus of the first conference in 2002 was the interplay between computations and experiment in minimizing aerodynamic drag. The present proceedings, from the 2007 conference, address the development and application of advanced aerodynamic simulation and experimental methods for state-of-the-art analysis and design, as well as the development of new ideas and trends holding promise for the coming 10-year time span. Also included, are studies of heavy vehicle aerodynamic tractor and trailer add-on devices, studies of schemes to delay undesirable flow separation, and studies of underhood thermal management.

*Working Scottish Trucks: Through the Lens* Ian Lawson, 2017-08-07 Working Scottish Trucks is a photographic book bringing together 262 images of commercial vehicles spotted across some of the most scenic parts of Scotland. The beautiful landscapes offer a fantastic backdrop to the large range of haulage companies based in this rural, rugged and often difficult area. With just one picture per page, this book reproduces Ian Lawson's perfectly captured shots to maximum effect. The images have been taken over 30 years of dedicated viewing and focus on 10 types of vehicles - bulk transport, curtainsiders, fridges and food, general haulage, hay and straw, heavy haulage, livestock transporters, renewable energy transport, round timber haulage and tankers. Each photo is captioned with the date, location, make and model of vehicle and details of owner and types of work undertaken. The distinctive and unashamedly patriotic look of Scottish liveries has always attracted a strong following and so Working Scottish Trucks is a must-have for transport enthusiasts within Scotland, the UK and beyond.

*DAF at Work* Patrick W. Dyer, 2010-07 Following the success of his previous book, Scania at Work, Patrick Dyer takes a close look at another favourite of long haul drivers, DAF. Although now owned by the American company, PACCAR, and with links to Leyland, the roots of DAF trucks are firmly in Eindhoven, Holland. The company started truck manufacture relatively late, but in the early 1970s it took an industry lead with its flagship 2800. The 'Supercontinental' version, with its wide tilt sleeper cab with two full-size bunks and its powerful 11.6-litre DAF engine was a natural for long-haul work. The successor 3300 and 3600 models took the company into the 1980s, running alongside Scania and Volvo as a long-distance driver's favourite. The 330 hp engine suited it for the heavy-duty special transport that became a feature of the period. Patrick W Dyer, author of two books for Old Pond - Scania at Work and Know Your Trucks - works in the automotive industry and is based in Essex. His new book is rich in photographs from the 1970s and '80s.

**Canne Nere** Massimo Ruber, 2019-07-29 Giovanni Boldrini, il Simbionte del primo libro di Massimo Ruber (vincitore concorso Avvocati&Autori 2017 ANANKE.lab), doveva scontare l'ergastolo per gli omicidi commessi negli anni 70, prima del padre adottivo e poi di due amici, nell'intento di carpirne i patrimoni. Col primo dei patrimoni gli era andata male ma sogna di rifarsi il giorno che uscirà di galera vendicandosi del fratello traditore. Per il secondo, custodito in poco sicuri forzieri esteri, ci sono pretendenti ingannati e traditi che l'aspettano al varco per rifarsi. Per ragioni incomprensibili alla gente comune, nonostante i tre cadaveri lasciati a sperare almeno nella giustizia divina, esce dopo 26 anni e 7 mesi per buona condotta. In questo contesto appare sulla scena il figlio di cui ignora l'esistenza, avuto da una ragazza sedotta e abbandonata in Honduras nei primi anni 70: si trova ora in Svizzera per portare a termine una delicata operazione nell'interesse nazionale e cerca il padre (per odio o per amore?) nella vicina Milano. Deve trovarlo prima di completare l'operazione affidatagli. L'autore riprende il filo del terrore interrotto con la scoperta del segreto che avvolgeva la prima storia.

**Writing's on the Truck, The: The Tales and Photographs of a Traditional Signwriter** John Corah,2017-08-18 The Writing's on the Truck is a pictorial look at the traditional art of signwriting on commercial vehicles, by renowned signwriter John Corah. John began signwriting in 1982 working for Brian Harris Transport Ltd. Brian's well-turned out trucks were regularly seen on the roads between the Southwest and the North of Scotland and with this excellent showcase for his skills, John quickly built up a large customer base. Since then, he has written on ERFs, Leylands, Guys, Fodens, Atkinsons, Albions and AECs to name but a few and he is responsible for the distinctive livery of a number of traditional family run haulage companies. In some cases he worked on the vehicles when brand new and then again when restored some 20-30 years later! Sadly many of the once familiar and iconic companies have disappeared over the years and today computer generated vinyl lettering has almost completely taken over the art and few modern fleets are signwritten.The Writing's on the Truck includes 210 fully captioned and previously unpublished photos of the vehicles he worked on, many of which will be remembered by transport fans UK-wide. The book tells the story of the development of John's business, the methods he uses to create particular effects and numerous anecdotes from his working life. It will be of interest to anyone involved with road haulage and the preservation of classic trucks.
