Violent Belongings Kavita Daiya, 2011-02-04 Violent Belongings examines transnational South Asian culture from 1947 onwards in order to offer a new, historical account of how gender and ethnicity came to determine who belonged, and how, in the postcolonial Indian nation.

An Anthropology of the Machine Michael Fisch, 2018-06-19 “An astute account of [Tokyo’s] commuter train network . . . and an intellectually stimulating invitation to rethink the interaction between humans and machines.” –Japan Forum With its infamously packed cars and disciplined commuters, Tokyo’s commuter train network is one of the most complex technical infrastructures on Earth. In An Anthropology of the Machine, Michael Fisch provides a nuanced perspective on how Tokyo’s commuter train network embodies the lived realities of technology in our modern world. Drawing on his fine-grained knowledge of transportation, work, and everyday life in Tokyo, Fisch shows how fitting into a system that operates on the extreme edge of sustainability can take a physical and emotional toll on a community while also creating a collective way of life—one with unique limitations and possibilities. An Anthropology of the Machine is a creative ethnographic study of the culture, history, and experience of commuting in Tokyo. At the same time, it is a theoretically ambitious attempt to think through our very relationship with technology and our possible ecological futures. Fisch provides an unblinking glimpse into what it might be like to inhabit a future in which more and more of our infrastructure—and the planet itself—will have to operate beyond capacity to accommodate our ever-growing population. “Not a ‘rage against the machine’ but an urge to find new ways of coexisting with technology.” –Contemporary Japan “An extraordinary study.” –Ethnos “A fascinating in-depth

account of the innovations, inventions, sacrifices, and creativity required to ensure Tokyo's millions of commuters keep rolling. It also provides much food for thought as our transportation systems become increasingly reliant on automated technology." -Pacific Affairs

Will he and Maria be reunited? Or will they both be trapped forever?

Watchstar Pamela Sargent, 2014-04-01 Alone in the desert, Daiya is faced with a dilemma that will determine her fate. If she can successfully resolve it, she will join the Net of her village, but if she fails, her life will be spent with the feared Merged Ones. Confused and torn between worlds near and far, Daiya harbors a secret of her people and must find a way to move beyond her discoveries to a safe place where she can survive.

The Watchstar Trilogy Pamela Sargent, 2018-06-05 The adventures of three brave young heroines in a telepathic dystopia, from the Nebula Award-winning author and "one of the genre's best writers" (The Washington Post). In Pamela Sargent's fascinating vision of a far-future, post-technological agrarian society, Earthfolk communicate with each other telepathically, can heal themselves, and fly at will, all by using their mindpowers. But those born without psychic ability—solitaries—must be euthanized to preserve the harmony of the society. This is the way of the world—until the appearance of a

mysterious comet in the sky. Watchstar: The time has come. Daiya has turned fourteen and must now survive a rite of passage in the desert in order to join the Net—the telepathic web of the villagers' minds. During this ordeal, she encounters a young man who has come down in a shuttle from a comet with startling news: His people are descended from those who fled Earth thousands of years ago. He is also a solitary. Now everything Daiya has accepted at face value is about to be challenged . . . Eye of the Comet: Young Lydee has always known this strange but wonderful comet-world to be Home. Like all skydwellers, she is linked through an implant to an omnipresent cybernetic intelligence known as the Homesmind, which guides the fate of her world and the people in it. Now she has a special task to perform, for she may be the only one who can be a bridge between her comet Home and her species' native Earth. Homesmind: Anra, niece of Daiya, is a solitary, born without the power to mindspeak. Once, she would have been killed at birth. But now the skydwellers of the Wanderer, the comet controlled by Homesmind, supply solitaries with implants that allow artificial mindspeaking. The people of Earth still consider solitaries an abomination and skydwellers soulless—making Anra and her brethren outcasts in two worlds. But when another comet enters the system, speaking directly to the Earthfolk, seducing them to oblivion, only Anra and her fellow solitaries have the power to resist the call and attempt to save their people.

explosion of recent interest. A diverse group of scholars from Asia, Europe, and North America examine aesthetics, politics, and ideology in sequential art about South Asia and South Asian America. The arrival of a transfer student, the mysterious Aya Otonashi, shouldn't have shattered the world he knows. Homesmind Pamela Sargent, 2014-04-01 Anra is a solitary. She was born without the power to mindspeak, and unlike her fellows, she cannot communicate in unspoken thoughts. In the past, she would have been killed at birth, but the arrival of the Wanderer, the comet controlled by the cybernetic intelligence known as the Homesmind, has changed everything. The people of the comet, the skydwellers, now supply solitaires with implants

that allow artificial mindspeaking. The solitaries are sequestered in a single village that is willing to care for such children. Anra and her new brethren were thought to be the possible bridge between the people of Earth and the skydwellers, but the gap may be too great, since the people of Earth consider solitaries an abomination and the skydwellers as soulless. The solitaries are, instead, outcasts in two worlds, part of each but fully accepted in neither. Another comet enters the system, refusing to communicate with Homesmind and speaking to the people of Earth with the voices of their own dead, seducing them into a submission of their individual wills and trying to lure them to oblivion. Anra and her fellow solitaries have the power to resist their call, but can they unite in time to save everyone else?
