**LOLA - All the Sports Racing 1978-1997** John Starkey, Ken Wells, Esa Illoinen, 2000-10 Lola is probably the world's leading manufacturer of racing cars. Here is the illustrated record of all Lolas built between 1978 and 1997, and the story of the Lola company in the same Period. A companion volume covers 1957-1977.

*Caesars Palace Grand Prix* Randall Cannon, 2021-10-15 The path of Grand Prix racing in America wound through raceways at Sebring, Riverside, Watkins Glen, Long Beach, and finally Caesars Palace in Las Vegas. At each stop, the influence of organized crime seemed no more than a handshake away. But at Caesars the vast crime syndicate appeared deeply involved in the operations of the luxury-branded resort. The Caesars Palace Grand Prix then culminated in an unholy alliance of the world capital of gambling, the mob, and the international czar of Formula One. During its four-year run of successive Formula One and CART IndyCar events, the race hosted the biggest names in motorsport--Mario Andretti, Bernie Ecclestone, Roger Penske, Chris Pook, Alan Jones, Nelson Piquet, Niki Lauda, Danny Sullivan, Bobby Rahal and Al Unser among them. The podium celebration of the inaugural Grand Prix put the convergence of alleged organized crime influences and auto racing on public display, while the years that followed provided their own curiosities. This book traces the intertwined threads through decades of accounts, extensive interviews, and the files of the FBI.

**High Performance** Robert C. Post, 2001 Providing a firsthand history of the sport, this book takes a detailed look at all aspects of drag racing: the sport, the business, and tracks the innovations that permitted racers to disprove the laws of physics. 147 halftones.

**Roland Leong "The Hawaiian"** Lou Hart, 2023-08-15 From racing the family Oldsmobile in 1960 to winning the Winternationals in 1964, read about the meteoric rise of drag racing's greatest owner and tuner in the first-ever book about The Hawaiian Roland Leong. As the son of a Harvard graduate, it could have been difficult for Roland Leong to live up to his family's expectations. However, that wasn't the case. "The Hawaiian" knew at a young age that drag racing was his career path. His supportive mother, Teddy, saw potential in Roland and bought him a new 1962 Corvette for educational purposes, such as wrenching and tuning. From there, it didn't take long for the world to discover Oahu's best-kept secret in drag racing. In 1964, less than two years after reaching the mainland, Roland was in victory lane at the Winternationals in Top Gas Eliminator. The following year, with Don Prudhomme behind the wheel, "The Hawaiian" immortalized his place in drag racing forever with wins in NHRA's Top

Fuel Eliminator at Pomona (Winternationals) and Indy (US Nationals). Leong became the first ever to capture those iconic crowns in a single season. For good measure, Roland repeated the achievement in 1966 with Mike Snively, showing the world that a Harvard education isn't required to achieve greatness. The Hawaiian Roland Leong: Drag Racing's Iconic Owner & Tuner is a tale of family, friends, and forging a path that no other Chinese-Hawaiian before him had carved. Re-live his biggest wins and lasting friendships in this first-ever publication on drag racing's first builder and tuner superstar, Roland Leong!

**Inside IMSA's Legendary GTP Race Cars** J. A. Martin, Michael J. Fuller, Professional automobile racing has always been dominated by sanctioning bodies whose main goal was to ensure competition. That has meant seeing that cars are well matched--in body shape or chassis/engine combinations or engine size. But what about an all-out competition, in which one team's idea of the fastest race car could be pitted against another's, regardless of mechanical "parity"? This was what the International Motor Sports Association's (IMSA) Grand Touring Prototypes (GTP) race series was about. The Series ran from 1981 to 1993, and it was one of the most exhilarating racing experiences of all time. This book is the first to profile the amazing machines that resulted from the GTP's flat-out competition among different--and passionate--ideas about what might be the fastest way around a track: the V-12 with its better ground-effect tunnels but higher center of gravity (CG); the flat six with its low CG but severely-restricted ground-effect tunnels; and others that employed elaborate wings and air dams. Here are the people behind this engineering free-for-all, the culmination of almost a century of automobile racing experience. And here are eighteen of the most competitive vehicles they designed. Using photography, diagrams, drawings and first-person accounts from the men who built them, Inside IMSA's Legendary GTP Race Cars offers a detailed look at the technology that drove some of the world's most exciting race cars, the likes of which may never be seen again.

*The British at Indianapolis* Ian Wagstaff, 2010-12-15 The British at Indianapolis recounts the history of the Indianapolis 500 race through the eyes and actions of those British born or British citizens who have driven in it, or been involved in any other way – be it as a designer, mechanic, or official. It also examines the British built cars that have won the Indy 500 and the significance of the rear engined revolution brought to the Indianapolis Motor Speedway by Cooper in 1961, and elevated to success by Lotus and Lola. It includes such names as Jim Clark, Graham Hill, Nigel Mansell and 2010 Indy 500 champion, and two times winner, Dario Franchitti.

**Drag Racing's Rebels** Doug Boyce, 2023-11-15 Learn the entire fascinating story of the American Hot Rod Association (AHRA) in this wonderfully illustrated color history. When the National Hot Rod Association (NHRA) was formed in 1951 by Wally Parks, the reasoning for the formation was to create order from chaos by instituting safety rules and performance standards that helped legitimize the sport of drag racing. Some organization was certainly necessary. A postwar boom in automotive enthusiasm was reaching new heights, and Hot Rod magazine and the NHRA were right in the thick of it. The NHRA hosted its first drag racing event in 1953, and in 1955, the

organization staged its first national event, which was simply called The Nationals. The AHRA formed in 1956 as an alternative to the NHRA, where the drivers voted on the rules (rather than sanctioning bodies and tracks), and their influence on the sport was felt almost immediately. When the NHRA denied the use of nitromethane in 1957, the AHRA approved it. When the NHRA banned aircraft-powered dragsters in 1961, the AHRA welcomed them. When the NHRA said no to the emerging Funny Car in 1965, the AHRA said yes. When fans and racers screamed for a heads-up Super Stock category in 1968, the AHRA delivered. The AHRA was called a rebel association. Some say that it was more of an association that got things done—to the delight of fans and racers. The AHRA was on equal ground with the NHRA by the 1970s, drawing enormous crowds and racer entries.

In this fascinating history, veteran author Doug Boyce tells the story of the AHRA, the rise, the competition, the events, and the eventual downfall of the organization. After AHRA President Jim Tice passed away in 1982, internal fighting for control of the association resulted in its doom. Get the whole story here, and add this wonderful volume to your drag racing library.

I'll Play These Bob Markus, 2011-07-19 Writing in a golden age of sports, Bob Markus, like a Zelig or a Forrest Gump, was present at many of the most famous-or infamous--sports events of that time. He was there for the Franco Harris Immaculate Reception, for the tragic 1972 Munich Olympics and the stunning upset of the United States basketball team by the Russians, with an assist by the game officials, for the over-hyped Bobby Riggs-Billie Jean King tennis match, for the first Muhammad Ali-Joe Frazier heavyweight Championship Fight and several college football so-called games of the century. The athletes he interviewed and wrote about included Ali, Joe Frazier, Michael Jordan, Jack Nicklaus, Arnold Palmer, Roberto Clemente, Mario Andretti and Joe DiMaggio. Here are many of his best columns and stories, interspersed with the story of his own sports writing life. You'll read of the day Ali admitted to him he was afraid each time he stepped in a ring and of the tragic 1973 Indianapolis 500 in which driver Swede Savage, a good friend was killed. And, you'll read about office politics and behind the scenes maneuvering that resulted in one man's journey from ecstasy to angst.

*Quarter-Mile Mustangs* Doug Boyce, 2022-05-15 Blast down the quarter mile in the first two generations of Ford's legendary pony car across all drag racing classes in Quarter-Mile Mustangs! Since first becoming a mass-market success in mid-1964, the Ford Mustang has made millions of passes down the quarter mile on sanctioned drag strips. With styling flared toward the youth, aftermarket parts manufacturers saw an enormous opportunity to produce go-fast components to aid in propelling Ford's pony car down the 1320. The success of these cars was immediate. In the hands of successful and seasoned pros, such as Gas Ronda, Bill Lawton, and Dick Brannan, Ford unleashed the devastatingly potent 1965 A/FX Mustang fastback, which was built by Blue Oval stalwarts Holman & Moody with the 427 SOHC (Cammer) engine that unleashed havoc on mother Mopar. From those very first factory drag cars through the fabled 1968-1/2 Cobra Jets, drag racing historian Doug Boyce highlights the many successes of pioneers, such as "Dyno" Don Nicholson, Les Ritchey, Phil Bonner, Hubert Platt, and Al Joniec. However, it's not just all

doorslammers. As A/FX transitioned into Funny Car, a whole new chapter in Mustang drag racing was written with Mickey Thompson taking the reins and steering Mustangs to success throughout the late 1960s and early 1970s. The muscle car-era Mustangs joined the Mustang II and soldiered on the best they could as ever-changing rules hampered Ford's new pony body, with drivers Bob Glidden and Nicholson trying to squeeze every bit of performance out of the diminutive pony. Quarter-Mile Mustangs: The History of Ford's Pony Car at the Drag Strip 1964-1/2-1978 brings forth the most in-depth coverage of these cars at the drag strip. Don't get caught sleeping at the light!

**Iconic Cars 5-Book Bundle** Road & Track, 2015-10-27 These 5 volumes collect decades of expert coverage from Car and Driver and Road & Track to explore some of the world's finest automobiles. Corvette Car and Driver has tested nearly every version of the Chevrolet Corvette. Here, they compile and curate more than 50 years of articles, reviews, and news about this classic sports car from the first 'Vettes of the 1950s to the new Corvette Stingray. Porsche Car and Driver has chronicled this high-end German brand from its first commercial automobile, the 356 Roadster, to its modern lineup of supercars, super sedans, and even super SUVs. This volume presents its most informative and entertaining articles from 1975 to today. Camaro With more than 30 years of Camaro articles and reviews from the experts at Road & Track, this volume covers the launch, the racers, the duds, and, of course, the Camaro's triumphant return. You'll find road tests, reviews, and comparisons, along with interviews with the folks behind the scenes and columns from Matt DeLorenzo and Peter Egan. Mustang The original pony car, the Ford Mustang is a beloved American icon. Culled from 50 years of Road & Track coverage, this volume presents road tests, reviews and articles on everything from Ford's game-changing win at Le Mans in 1966 to the dark years of the Mustang II. BMW M Series This eBook collects Road & Track's coverage of the acclaimed BMW M Series from 1985 to 2014, including features, reviews, comparison tests, and interviews on everything from the M3 and M5 to the short-lived M1 supercar, and even today's M-badged SUVs.

**Stardust International Raceway** Randall Cannon, Michael Gerry, 2018-10-02 Professional motorsports came to Las Vegas in the mid-1950s at a bankrupt horse track swarmed by gamblers--and soon became enmeshed with the government and organized crime. By 1965, the Vegas racing game moved from makeshift facilities to Stardust International Raceway, constructed with real grandstands, sanitary facilities and air-conditioned timing towers. Stardust would host the biggest racing names of the era--Mario Andretti, Parnelli Jones, John Surtees, Mark Donohue, Bobby Unser, Dan Gurney and Don Garlits among them. Established by a notorious racketeer, the track stood at the confluence of shadowy elements--wiretaps, casino skimming, Howard Hughes, and the beginnings of Watergate. The author traces the Stardust's colorful history through the auto racing monthlies, national newspapers, extensive interviews and the files of the FBI.

**Indy 500 Recaps** Pat Kennedy, 2020-03-23 This book started as a self-serving exercise to personally organize the major details and interesting facts of each Indianapolis 500 over the hundred-plus-year history of the greatest race in the world. For many of us passionate racing fans who have attended a multitude of 500s, there is a tendency for the details of the races to (somewhat) blend together. I hope this book will help to provide clarity

in this regard as well as educate. During high school, many of us chose to use CliffsNotes to assist in the education process. This book is somewhat patterned after that concept. It falls somewhere between Donald Davidson and Rick Schaffer—the best and by far the most detailed book on the history of the Indianapolis 500—and a multitude of pictorial books with limited information. I hope it will prove to be an easy read with entertaining and educational information.

**British Drag Racing** Nicholas Pettitt, 2011-05 A detailed look at the first ten years of drag racing in Britain from 1960-1969, complemented by 100 color pictures. It includes the visits by American dragsters, and the running of drag races on RAF airstrips by a growing band of enthusiasts with home-built machines. 1966 saw the opening of Santa Pod Raceway, Britain's first permanent drag strip; this book takes a look at the first four seasons racing there, and the development of the facility as entries and performances increased.

**Drag Racing in the 1960s** Doug Boyce, 2021-03-15 The 1960s were a fascinating decade on the race scene. Relive the memories today through this wonderful new book. Drag racing has a long and storied history. Many have said that the first drag race happened shortly after the second car was made. While that may or may not be true, racing prior to World War II was mostly centered around dry-lake activities and top-speed runs. After the war, drag racing became organized with the formation of the NHRA, and during the 1950s, many tracks were built across America to accommodate the racers. Technology in the 1950s centered on the manufacturers updating old flathead designs into newer overhead-valve designs, and the horsepower race really started to heat up. In many forms of racing, the 1960s brought technological evolution. The decade began with big engines in even bigger stock chassis and ended with purpose-built race-only chassis, fiberglass bodies, fuel injection, nitro methane, and blowers. Quarter-mile times that were in the 13-second range in the beginning of the decade were in the 7-second range by the end. New classes were formed, dedicated cars were built for them, and many racers themselves became recognized names in the sports landscape. In *Drag Racing in the 60s: The Evolution in Race Car Technology*, veteran author Doug Boyce takes you on a ride through the entire decade from a technological point of view rather than a results-based one. Covered are all the classes, including Super Stocks, Altered Wheelbase cars (which led to Funny Cars), Top Fuelers, Gassers, and more.

**Bristol Dragway** David M. McGee, 2007 Bristol Dragway was carved into an East Tennessee mountainside in 1965. In the more than four decades since, the track known as Thunder Valley has carved its niche as a world-class facility in professional drag racing. Located adjacent to Bristol Motor Speedway, the dragway's well-earned nickname stems from the unique acoustic experience fans get when the power of unlimited racing engines echoes off the nearby hillsides. Bristol Dragway retraces the track's early history, its role in shaping the sport, and its return to prominence after an \$18 million renovation in the late 1990s. The book features images of drag racing's greatest stars and chronicles decades of the sport's most memorable moments.

*Iconic Cars: Porsche* Car and Driver, 2015-10-26 This fully illustrated volume of road tests, reviews and more

from the experts at Car and Driver covers nearly half a century of Porsche excellence. For decades, the company started by Ferdinand Porsche has produced some of the best sportscars money can buy. The Porsche name has come to stand for automotive power, beauty, and prestige. Car and Driver has chronicled the German brand from its first commercial automobile, the 356 Roadster, to its modern lineup of supercars, super sedans, and even super SUVs. Now the magazine has collected its most important, informative, and entertaining Porsche articles in one volume. These reviews, features, road tests and comparisons cover the car maker's evolution from 1975 to today. The articles are accompanied by 79 original photos in bright color or crisp black and white.
