Secret Science: The Amazing World Beyond Your Eyes Dara O Briain, 2018-10-04 A brand-new book from the UK and Ireland's best-loved comedian, Dara O Briain! So you think everyday life is boring?! WHAT?! Hoo-ee, are you wrong! No, seriously. There's so much EXTRAORDINARY science going on right from the minute you wake up to when you go to sleep. Actually, while you're asleep, too. Science is a non-stop EVERYWHERE, everything adventure with some incredibly cool stuff going on, too. You've got your incredible brain, which has worked out how to read these words and make playing a video game feel as EXCITING as real life; you've got aeroplanes that can somehow get from the ground into the sky with all those people AND their luggage on board; you've got electricity and artificial intelligence and GPS and buses coming in threes (that's science too) and LOADS more. In *Secret Science*, Dara O Briain takes you on a journey from the comfort of your favourite chair to the incredible science behind your everyday life and on into the future!

Is There Anybody Out There? Dara O Briain, 2020-10-01 Science fiction meets science fact in this brand new hilarious book from one of the UK and Ireland's best-loved comedians. Genuinely qualified space expert, Dara O Briain, is here with all the answers to help you sort your Area 51s from your messages from Mars. Includes: • how life begins in the first place • how Earth was created • whether aliens might exist elsewhere in the Solar System • the search for other planets like our own • how we could possibly ever get there and . . . • would we really meet aliens? Alongside this runs the hilarious, but not very true story of Carl and his cat, Clive, who will join you on the journey of the book to help take you from novice alien-hunter to bona-fide space expert, with a brilliant final twist! So, is there anybody out there? NO. (Well, maybe.) And do aliens really exist? Probably. (Possibly.)

Beyond the Sky: You and the Universe Dara Ó Briain, 2017-09-07 So you want to go into space? WHY?! (No, really - it's sort of a terrible idea. We humans are perfectly designed for life on Earth. We can walk around, breathe, drink water, eat vegetables, read books, not get poisoned or crushed to death when we go outside - it's lovely right where we are.) Not convinced? GOOD! People have been dreaming about space travel for centuries - there's something amazing about the idea of leaving our planet behind and setting out to explore the Universe - there's so much we still don't know. UK and Ireland's best-loved comedian Dara " Briain takes you on a journey from the safety of your comfiest chair to the furthest reaches of space (and beyond!)

Tickling the English Dara O Briain, 2009-10-01 Nostalgia, identity, eccentricity, gin drinking and occasional violence... these are just some of the themes that stand-up comedian Dara O Briain explores in *Tickling the English*. O Briain moved to England many years ago, but when he takes his show on tour around the country - from deserted seaside towns and remote off-shore islands, to sprawling industrial cities and sleepy suburbs - it's clear to him that his adopted home is still a bit of an enigma. Why do the English pretend to be unhappy all the time? Why can't they accept they rank about 5th, in everything? And what's with all the fudge? But this Irishman loves a challenge; he's certainly got the gregarious personality and the sure-fire wit to bring down the barriers of that famous English reserve, and have a good old rummage inside. Swapping anecdotes with his audiences and spending time wandering in their hometowns, this nosy neighbour holds England up to the light while exploring some of the attitudes he brought over here with him too. As Dara goes door-to-door in search of England in this part tour diary, part travelogue, the result is an affectionate, hilarious and often eye-opening journey through the Sceptred Isle.

50 Visions of Mathematics Dara O' Briain, 2014-05-01 Relax: no one understands technical mathematics without lengthy training but we all have an intuitive grasp of the ideas behind the symbols. To celebrate the 50th anniversary of the founding of the Institute of Mathematics and its Applications (IMA), this book is designed to showcase the beauty of mathematics - including images inspired by mathematical problems - together

with its unreasonable effectiveness and applicability, without frying your brain. The book is a collection of 50 original essays contributed by a wide variety of authors. It contains articles by some of the best expositors of the subject (du Sautoy, Singh and Stewart for example) together with entertaining biographical pieces and articles of relevance to our everyday lives (such as Spiegelhalter on risk and Elwes on medical imaging). The topics covered are deliberately diverse and involve concepts from simple numerology to the very cutting edge of mathematics research. Each article is designed to be read in one sitting and to be accessible to a general audience. There is also other content. There are 50 pictorial 'visions of mathematics' which were supplied in response to an open call for contributions from IMA members, Plus readers and the worldwide mathematics community. You'll also find a series of proofs of Pythagoras's Theorem - mathematical, literary and comedy - after this, you'll never think of Pythagoras the same way again.

The Story of Music Howard Goodall, 2021-11-15 Why did prehistoric people start making music? What does every postwar pop song have in common? A “masterful” tour of music through the ages (Booklist, starred review). Music is an intrinsic part of everyday life, and yet the history of its development from single notes to multi-layered orchestration can seem bewilderingly specialized and complex. In his dynamic tour through 40,000 years of music, from prehistoric instruments to modern-day pop, Howard Goodall does away with stuffy biographies, unhelpful labels, and tired terminology. Instead, he leads us through the story of music as it happened, idea by idea, so that each musical innovation—harmony, notation, sung theater, the orchestra, dance music, recording, broadcasting—strikes us with its original force. He focuses on what changed when and why, picking out the discoveries that revolutionized man-made sound and bringing to life musical visionaries from the little-known Pérotin to the colossus of Wagner. Along the way, he also gives refreshingly clear descriptions of what music is and how it works: what scales are all about, why some chords sound discordant, and what all post-war pop songs have in common. The story of music is the story of our urge to invent, connect, rebel—and entertain. Howard Goodall's beautifully clear and compelling account is both a hymn to human endeavor and a groundbreaking map of our musical journey.

How I Escaped My Certain Fate Stewart Lee, 2010-08-19 Experience how it feels to be the subject of a blasphemy prosecution! Find out why 'wool' is a funny word! See how jokes work, their inner mechanisms revealed, before your astonished face! In 2001, after over a decade in the business, Stewart Lee quit stand-up, disillusioned and drained, and went off to direct a loss-making musical, Jerry Springer: The Opera. Nine years later, How I Escaped My Certain Fate details his return to live performance, and the journey that took him from an early retirement to his position as the most critically acclaimed stand-up in Britain, the winner of BAFTAs and British Comedy Awards, and the affirmation of being rated the 41st best stand up ever. Here is Stewart Lee's own account of his remarkable comeback, told through transcripts of the three legendary full-length shows that

sealed his reputation. Astonishingly frank and detailed in-depth notes reveal the inspiration and inner workings of his act. With unprecedented access to a leading comedian's creative process, this book tells us just what it was like to write these shows, develop the performance and take them on tour. *How I Escaped My Certain Fate* is everything we have come to expect from Stewart Lee: fiercely intelligent, unsparingly honest and very, very funny.

How Not To Be a Boy Robert Webb, 2017-08-31 RULES FOR BEING A MAN Don't Cry; Love Sport; Play Rough; Drink Beer; Don't Talk About Feelings But Robert Webb has been wondering for some time now: are those rules actually any use? To anyone? Looking back over his life, from schoolboy crushes (on girls and boys) to discovering the power of making people laugh (in the Cambridge Footlights with David Mitchell), and from losing his beloved mother to becoming a husband and father, Robert Webb considers the absurd expectations boys and men have thrust upon them at every stage of life. Hilarious and heartbreaking, *How Not To Be a Boy* explores the relationships that made Robert who he is as a man, the lessons we learn as sons and daughters, and the understanding that sometimes you aren't the Luke Skywalker of your life – you're actually Darth Vader.
