*Legend of the Dark Messiah* J. Johnson Higgins,2007-12-09 The great futuristic society of I-Star has long foretold the coming of a female with a gem embedded in her forehead. Known as the Dark Messiah, this woman possesses magical powers that will bring about the destruction of life as they know it. When a young Cassidy awakens inside an enchanted cave, she has no memory of how she came to be in this strange place. She starts to build a life for herself in the modern, utopian world of I-Star. The odd red crystal in the middle of her forehead disturbs her, as no one else in the community of Jennison has such a marking. Cassidy soon catches the attention of a mysterious sorcerer, Dmitri von Calvin, who recognizes her as the Dark Messiah and wishes to harness her power for destructive ends. Cassidy learns of the sorcerer's evil agenda and the prophecy of the Dark Messiah. Rather than fulfill her role as a life destroyer, Cassidy makes a decision to stand and fight against the destruction of her beloved world. An epic fantasy full of larger-than-life characters, *Legend of the Dark Messiah* speaks to the incredible power of one individual to change the world.

*Legend of the Dark Messiah* J. Johnson Higgins,2012-05 Cassidy Ann Mage made a promise. If the masked impostor leader, Dmitri von Calvin, ever returned to complete his secret death campaign against the people of I-Star, she would stand in his way using the magic sword at her side. President

Calvin is counting on this as he knows more about the nature of the black sword than she does. As Cassidy comes out of hiding, she realizes more and more that the sword is influencing her actions and guiding her decisions. President Dmitri von Calvin is now more prepared than ever as he has teamed up with a secret society of dark sorcerers and placed them in the highest positions in the government in the guise of counterterrorism. Further, Dmitri has surrounded himself with dragons from Cassidy's past, every bit as powerful as she is. Cassidy and her friends are the only hope for a world plunging into war but Cassidy must escape the control of the sword before it is too late. A fast-paced trial by fire, *A Wicked Storm* is the fantasy novel you've been waiting for.

The Dark Messiah Michael Anderle, 2017-08-28 Michael returns to fulfill a promise to his love, but the world isn't the same place. Michael, the Archangel himself, has returned after a hundred and fifty years rejuvenating in the Etheric Dimension. Now, the most powerful male Vampire the world had ever known is back. The problem? The world went through an Apocalypse and what little honor and justice that previously existed, is gone. Further, his love has left to the stars somewhere, fighting for those on Earth. Now, Michael has to figure out where he is, where he needs to go, help those who need help and figure out how to follow in his love's path. Because if there is one thing that Honor Demands, it is that he make good on his promise to Bethany Anne. Those feeding themselves on the backs of others have very little time to realize an important fact. This Dark Messiah has little compunction about killing.

**Dark Messiah** Shane O'Neill, 2015-04-10 The story is centred on revenge; two men separated by completely different backgrounds, but forced together into fatal violence; their lives becoming entwined with the destiny of the kingdom. As the search for the thief Hemlock who brutally murdered Storm's wife intensifies, both men change. Storm is a sailor by trade, a simple man

ignorant of swordplay and killing. Hemlock knows no other life not dominated by violence and greed. Storm's personality alters as he becomes accustomed to the art of bloodletting, and loses sight of what he was originally fighting for. Hemlock, a man driven close to insanity by the endless killing, is finally pushed over the edge as his search for absolute power destroys everything in his wake. The kingdom and its people will bear witness to their struggle and their fate will be decided by the winner. Shane O'Neill lives in Waterford, Ireland. He is the author of four books. Shane has 8,428 followers on Wattpad (the foremost website for published and unpublished authors to showcase their work), over 1,000 votes of recommendation and a readership of a quarter of a million. He has been offered two major publishing contracts, but turned down the most recent offer in 2014 to self-publish. [www.wattpad.com/user/Shane1971](http://www.wattpad.com/user/Shane1971)

**Knightlight** M. D. Rossi, 2013-04 So you think you understand the world you live in? Don't bet your life on it. This world is not safe. This world is not sane. This world is a ticking time bomb, and the lives of billions hang in the balance. Knightlight, an organization founded in 1947, is a government-sanctioned agency that deals with non-military threats. They deal with madmen and monsters. They are at war, and have been for nearly seventy years. But the enemy is ancient and has an agenda of its own. The enemy has had all the time in the world to prepare. The first phase of the plan-destroy Knightlight, and any resistance, removing them all from the field of battle. There are terrible things soon coming upon the Earth ... terrible things. We live in a short slice of time referred to as the Prelude to the Dark Messiah. Knightlight knows it can't protect mankind from the future, but until the end comes, they will hold the line. Forget what you believe you know about the Bigfoot phenomenon. Ignore what you think you understand about aliens. Unlearn what you've been taught about ghosts, vampires, and werewolves. None of the above exist, but what does exist will gladly

drag you to the pit of hell and devour you on the way.

**The History of the Stealth Game** Kirk McKeand,2022-09-08 For many, video games are like magic. They hide in the dark and then appear from nowhere, fully formed. Based on over a dozen firsthand interviews that cover genre-defining games and the titles that inspired them — Metal Gear Solid, Thief, Deus Ex, Dishonored, Assassin's Creed, Hitman, Splinter Cell, Prey, The Last of Us Part II, and more — this book shines a flashlight into the shadowy corners of game development history, uncovering the untold stories behind these formative titles. These insider interviews cover development struggles, internal conflicts, changes in direction, and insight into the reasoning and challenges behind specific mechanics and development decisions. There's the story of how Thief was developed, in part, by an indie band. It covers Metal Gear Solid's localization issues and the Americanization of Hideo Kojima's seminal stealth series, along with a page from the original Metal Gear Solid design document. Elsewhere, one of IO Interactive's founders explains why Hitman's Agent 47 is inspired by Coca-Cola, the creator of Assassin's Creed tells us his vision for the future of the series, and there are plenty of surprises besides. Rather than looking back at the genre as a

whole, it traces a line through and connects the dots via personal stories and anecdotes from the people who were there. Foreword written by Arkane's Harvey Smith.

*Might and Magic: The Sea of Mist* Mel Odom, 2001-09-04 Rising up from the unstoppable Sea of Mist -- a magical void carrying armies of bloodthirsty undead to every land it touches -- a champion fights his way toward destiny. Trained since infancy in the arts of war, magic, and the secret sects of the rouge, Praz is unwilling to accept a single skill in the magical towers of The Order. Long denied the truth about his unknown past, he seethes with anger, rejecting convention as he leans toward darkness. But the foul slaying of his life-long mentor and the abduction of his only love have drawn Praz out beyond the citadel's walls for the first time in his life to undertake an epic rescue. Traveling through a world distorted by the Sea of Mist and hounded by a mysterious clark lord, Praz slowly begins to unravel his past. Along the way he's joined by warriors from multiple dimensions, battles demonic brothers, and confronts the most terrible foes of all: two lowly servants who've somehow stumbled upon the power of gods.

**Interactive Storytelling for Video Games** Josiah Lebowitz,Chris Klug,2012-09-10 What really makes a video game story interactive? What's the best way to create an interactive story? How much control should players be given? Do they really want that control in the first place? Do they even know what they want-or are their stated desires at odds with the unconscious preferences? All of these questions and more are examined in this definitive book on interactive storytelling for video games. You'll get detailed descriptions of all major types of interactive stories, case studies of popular games (including Bioshock, Fallout 3, Final Fantasy XIII, Heavy Rain, and Metal Gear Solid), and how players interact with them, and an in-depth analysis of the results of a national survey on player storytelling preferences in games. You'll get the expert advice you need to generate compelling and original game concepts and narratives.With *Interactive Storytelling for Video Games*, you'll:

*Invocational Media* Chris Chesher,2023-10-19 *Invocational Media* critiques the sociotechnical power of digital technologies by introducing the concept of invocational media. What is an invocation? Ask your voice assistant and it will define it for you. It is a media artefact that responds to many invocations such as seeking the weather forecast, requesting any song you can name, or turning on the lights, almost magically. This contemporary manifestation of the ancient practice of invocation gives an immediate response to your call in a way that Chris Chesher argues is the characteristic power of all computers, which he redefines as invocational media. This book challenges the foundations of computer science by offering invocation as a powerful new way of conceptualising digital technologies. Drawing on media philosophy, Deleuze, Guattari, Heidegger, Latour, Austin, Innis and McLuhan, it critiques the representationalism of data processing, artificial

intelligence and virtual reality. Invocational media seem to empower individuals, but necessarily subject users to corporate and government monopolies of invocation. They offer many 'solutions', but only by reducing everything to the same kind of act. They complicate agency in their indifference as to whether invokers are human or non-human. With robotics they invoke material form to act physically and autonomously. People willingly make themselves invocable to surveillance and control by creating their own profiles and marking themselves with biometrics. This ground-breaking book will change how you think about digital media by showing they are, in fact, invocational media.
