The American Surfer Kristin Lawler,2010-10-18 The image of surfing is everywhere in American popular culture – films, novels, television shows, magazines, newspaper articles, music, and especially advertisements. In this book, Kristin Lawler examines the surfer, one of the most significant and enduring archetypes in American popular culture, from its roots in ancient Hawaii, to Waikiki beach at the dawn of the twentieth century, continuing through Depression-era California, cresting during the early sixties, persistently present over the next three decades, and now, more globally popular than ever. Throughout, Lawler sets the image of the surfer against the backdrop of the negative reactions to it by those groups responsible for enforcing the Puritan discipline – pro-work, anti-spontaneity – on which capital depends and thereby offers a fresh take on contemporary discussions of the relationship between commercial culture and counterculture, and between counterculture and capitalism.

Dark Green Religion Bron Raymond Taylor,2010 A love of green may be a human universal. Deepening the palette of green scholarship, Bron Taylor proves remarkably to be both an encyclopedist and a visionary.--Jonathan Benthall, author of Returning to Religion: Why a Secular Age is Haunted by Faith This important book provides insight into how a profound sense of relation to nature offers many in the modern world a vehicle for attaining a spiritual wholeness akin to what has been historically associated with established religion. In this sense, Dark Green Religion offers both understanding and hope for a world struggling for meaning and purpose beyond the isolation of the material here and now.--Stephen Kellert, Yale University School of Forestry and Environmental Studies In this thought-provoking volume, Bron Taylor explores the seemingly boundless efforts by human beings to understand the nature of life and our place in the universe. Examining in depth the ways in which influential philosophers and naturalists have viewed this relationship, Taylor contributes to the further development of thought in this critically important area, where our depth of understanding will play a critical role in our survival.--Peter H. Raven, President, Missouri Botanical Garden Carefully researched, strongly argued, originally conceived, and very well executed, this book is a vital contribution on a subject of immense religious, political, and environmental importance. It's also a great read.--Roger S. Gottlieb, author of A Greener Faith: Religious Environmentalism and our Planet's Future A fascinating analysis of our emotional and spiritual relationship to nature. Whether you call it dark green religion or something else, Bron Taylor takes us through our spiritual

relationship with our planet, its ecosystems and evolution, in an enlightened and completely undogmatic manner.--Dr. Claude Martin, Former Director General, World Wildlife Fund An excellent collection of guideposts for perplexed students and scholars about the relationships of nature religions, spirituality, animism, pantheism, deep ecology, Gaia, and land ethics--and for the environmentalist seeking to make the world a better place through green religion as a social force.--Fikret Berkes, author of Sacred Ecology: Traditional Ecological Knowledge and Resource Management Dark Green Religion shows conclusively how nature has inspired a growing religious movement on the planet, contesting the long reign of many older faiths. Taylor expertly guides us through an astonishing array of thinkers, past and present, who have embraced, in part or whole, the new religion. I was thoroughly convinced that this movement has indeed become a major force on Earth, with great potential consequences for our environmental ethics.--Donald Worster, University of Kansas In this exceptionally interesting and informative book, Bron Taylor has harvested the fruits of years of pioneering research in what amounts to a new field in religious studies: the study of how religious/spiritual themes show up in the work of people concerned about nature in many diverse ways. Taylor persuasively argues that appreciation of nature's sacred or spiritual dimension both informs and motivates the work of individuals ranging from radical environmentalists and surfers, to eco-tourism leaders and museum curators. I highly recommend this book for everyone interested learning more about the surprising extent to which religious/spiritual influences many of those who work to protect, to exhibit, or to represent the natural world.--Michael E. Zimmerman, Director, Center for Humanities and the Arts, University of Colorado at Boulder

Soul Surfer Bethany Hamilton,2012-12-25 They say Bethany Hamilton has saltwater in her veins. How else could one explain the tremendous passion that drives her to surf? How else could one explain that nothing - not even the loss of her arm in a horrific shark attack - could come between her and the waves? That Halloween morning in Kauai, Hawaii Bethany responded to the shark's stealth with a calmness beyond belief. Pushing pain and panic aside, she immediately thought: 'Get to the beach...' Rushed to the hospital, where her father, Ted Hamilton, was about to undergo knee surgery, Bethany found herself taking his spot in the operating theatre. When the first thing Bethany wanted to know after surgery was 'When can I surf again?' it became clear that her unfaltering spirit and determination were part of a greater story - a tale of courage and faith that this modest and soft-spoken girl would come to share with the world.

The Desert Surfer Thomas Champion,2016-05-13 When David Stone goes to college he has certain goals set out; mostly getting drunk, getting stoned, and getting laid. Getting chased all through the desert with a carload of drugs and illegal aliens by a horde of Mexican bandits was not in the program.

Surf, Sweat and Tears Andy Martin, 2020-03 "I don't normally read books about surfers, but this is like Truman Capote, with shorts." –Lee Child "Andy Martin, to his immense credit, knows that surfers are misfits and accidental comics, as well as great athletes." –Matt Warshaw "A sublime mixing of stoke and sorrow, hedonism and the macabre—skillfully and deftly penned by someone who had, and still has, intimate access to many of the key players. –Tom Anderson, author of *Riding the Magic Carpet: A Surfer's Odyssey to Find the Perfect Wave* This is the true story of Ted, Viscount Deerhurst, the son of the Earl of Coventry and an American ballerina who dedicated his life to becoming a professional surfer. Surfing was a means of escape, from England, from the fraught charges of nobility, from family, and, often, from his own demons. Ted was good on the board, but never made it to the very highest ranks of a sport that, like most, treats second-best as nowhere at all. He kept on surfing, ending up where all surfers go to live or die, the paradise of Hawaii. There, in search of the "perfect woman," he fell in love with a dancer called Lola, who worked in a Honolulu nightclub. The problem with paradise, as he was soon to discover, is that gangsters always get there first. Lola already had a serious boyfriend, a man who went by the name of Pit Bull. Ted was given fair warning to stay away. But he had a besetting sin, for which he paid the heaviest price: He never knew when to give up. *Surf, Sweat and Tears* takes us into the world of global surfing, revealing a dark side beneath the dazzling sun and cream-crested waves. Here is surf noir at its most compelling, a dystopian tale of one man's obsessions, wiped out in a grisly true crime.

Surf Hoars Willow Fae von Wicken, 2020-03-25 When a rogue wave washes the houseboat you're dancing on, out to sea, you and your beach party guests expect the worst. Harmony Stelfox was recovering from a bewildering near death experience. She was nearly killed by a rogue shark, and thought days like these were behind her. How many unforeseen disasters can a girl expect during the run of one week? They were adrift. The sun was blazing hot on their skin, they ran low on food. But they did have plenty of beer. There was one thing more. They were not alone at sea. There was a lonesome creature who watched from a distance. He never slept. He didn't falter in his watch. And he didn't offer them help. His stare was filled with fury and hesitation. He called to Harmony, and she swam to him, and he hadn't felt warmth, or love. Harmony thought he was a dream, for a merman couldn't be real. He briefly paused and his eyes met Harmony's. She was the native-lander he rescued from a shark attack. He had no regrets, but if she realized he is the one who rescued her during her robotic mermaid launch, it would mean death to them all. Saving a native-lander would be seen as an act of aggression against his own kind, of the Merworld. His sense of honor cringed. His loyalty would be questioned. Saving her pleased him, and yet he felt torn. His presence only prolonged the inevitable. The creatures were coming. And they would drag them down into the depths, of the Abyss. Ghastly sea creatures boarded the ship, and the war was on.
