Mirage 2000 Pierre Argouse,1998-04-06

Mirage 2000 édéric Lert,Hervé Beaumont,2018-01-19 A direct successor to the famous Mirage III, the delta-shaped sail, the Mirage 2000 which has been present for over a quarter of a century in the French Air Force. Originally conceived as an interceptor car, this monoreactor has had a remarkable career in France - which is still ongoing - through its two-seat versions intended not only for training, but for nuclear strikes with the models, Mirage IV (2000N), and the conventional assault (2000D). Although France was the main user of this aircraft since it received more than half of the 600 produced, the Mirage 2000 also enjoyed a great success in eight other countries which have used or are still using it, including the United Arab Emirates, India and Greece, whose fleets include more than 50 planes. The authors are uncontested specialists of contemporary aircraft and have produced a book that has been revised and augmented by extensive research into the subject. Text in French.

Dassault Mirage Salvador Mafe Huertas,1996 This is the first book ever to chronicle in detail all of the Mirage III, 5, F1, and 2000 aircraft and specifically their use in combat operations. Includes squadron histories and Mirage pilot narratives.

Latin American Mirages Santiago Rivas,Juan Carlos Cicales,2010 For more than four decades, different versions of the classic Dassault Mirage fighter have served as some of the most potent combat aircraft in Latin America. Equipping the air forces of seven South American nations in significant quantities, the delta-winged jets have seen action in various different wars and internal conflicts, and they continue to fulfill their mission with a number of operators. This book tells the story of all the members of the Mirage family in service with Latin American air arms, with individual histories of the air arms and their constituent units that have operated the Dassault-designed fighter, as well as its Israeli and South African derivatives. The volume provides a comprehensive collection of color photographs and profile artworks that cover all the variants, plus maps, and tables that illustrate the individual stories of all the aircraft, their units and their various weapons.

Mirage III Dominique Breffort,2007-11-01 The first French operational Mach-2 fighter has served in an impressive number of air forces from the Sixties to the present day, in numerous versions of Mirage III and 5 delta combat aircraft. Every variant and every livery - 20 different cockades or so - are included in this new book on the ubiquitous French fighter which gained worldwide fame.

Avions Marcel Dassault-Breguet Aviation Mirage 2000 N Hervé Beaumont,2011 French Text The Mirage 2000N program was launched in 1978 to accomplish intercept missions and medium-range air to surface nuclear attacks in order to eventually replace the Mirage IVP which was terminated in 1990. Based on the Mirage 2000B, it is equipped with a weapons system organized around an Antelope radar system, enabling automatic navigation and field monitoring, all while maintaining its in-flight auto-defense capabilities. While the first models were only capable of carrying nuclear missiles, beginning with the 2000N-K2, the aircraft is now able to undertake conventional ground attack missions, with a large array of traditional bombs. The line of Mirage 2000N aircraft are a key element at the very heart of the French Strategic Air Command.

French Secret Projects 1: Post War Fighters Jean-Christophe Carbonel,2016 Based on pre-war research and captured German wartime technology, a number of French jet, ramjet and rocket-powered aircraft reached at least prototype form. Vertical take-off, variable geometry wings and even flying boat concepts were among some of the most radical aircraft designs, studies and projects ever produced anywhere in the world. Driven by the need to equip its air forces, compete in export markets and catch-up with its international competitors, French companies gave free reign to their designers to come up with radical and unconventional aircraft.--Jacket.

Dassault Mirage III & Mirage 5 J. P. Vieira,2019-04 40 color profiles of the famous Mirage III & Mirage 5, a French Cold-War era jet aircraft. French and foreign users are shown in variety of camouflages.

Iraqi Mirages Tom Cooper,2018-07 Originally envisaged and acquired as a 'pure' interceptor, before long the Mirage F.1 in Iraqi service proved a highly capable multi-role platform aircraft, and was widely deployed not only for ground attack but also anti-shipping purposes, as an aerial tanker, and for delivering long-range pin-point attacks.

The World's Greatest Military Aircraft Thomas Newdick,2015-07-15 Military Aircraft features 52 of the most important military aircraft, from biplane fighters to tactical bombers, transports, multirole fighters and stealth bombers.
