Dassault Super Etendard Frédéric Lert,2022-06-20 The Dassault Super Étendard, which became the Super Étendard Modernisé in due course, had a remarkable career. It was a humble aircraft that was often faced with thankless and difficult tasks. There was no excessive power in this aircraft, but simply a remarkable versatility that made it the backbone of French carrier aviation for 40 years. Solid, reliable, well-designed, and adaptable, the Super Étendard was an aircraft that France regularly upgraded, enabling it to maintain its rank with increasingly sophisticated equipment and armaments. It gained notoriety for its role in anti-ship missions flown by Argentinian pilots, but paradoxically, France never used it in combat in this role. On the other hand, the aircraft was extensively used as a bomber in numerous wars, in a variety of places, including Lebanon, Syria, Yugoslavia, and Afghanistan. With over 160 images, this book looks at the history of the Super Étendard and the impact it had on aviation.

Sound Barrier Peter Caygill,2006-10-30 As the speed of early aircraft gradually increased there eventually became an awareness during the 1940's, that strange things were occurring at around 500mph. Many later WW2 fighter aircraft were reported to become dangerously uncontrollable in high-speed power dives. Pilot's and aircraft designers were beginning to encounter the sound barrier. We now realize it to be a phenomenon that occurs when the speed of sound is reached and air compressibility demands additional power to break through it. Breaking the sound barrier became one of the biggest challenges to the world's aircraft designers and it took great courage and daring for the test-pilots of that era to find the way through this difficult obstacle. This is the story of how innovative design and pilots learned how to deal with supersonic flight. It records the many different experimental aircraft and tells of the experiences of those that flew them. Many pilots lost their lives during those dangerous flights but those who survived became legendary.

Douglas A-4 Skyhawk Jim Winchester,2004-09-30 The Skyhawk first entered service with the US Navy almost 50 years ago. It is still in service with various US units and remains the backbone of many of the air forces of those countries to which it has been exported. It was originally conceived as a carrier-borne fighter bomber, but as the aircraft has evolved it has taken on other roles.This is an in-depth look at the design, production, evolution, operation and performance of the aircraft. It will also include first-hand accounts of flying the Skyhawk in action.

The Two O'Clock War Walter J. Boyne,2002-09-14 It's usually called the Yom Kippur War. Or sometimes the October War. The players that surround it are familiar: Sadat and Mubarak, Meir and Sharon, Nixon and Kissinger, Brezhnev and Dobrynin. It was a war that brought Arab and Jew into vicious conflict. A war in which Israel almost unleashed her nuclear arsenal and set two superpowers on a treacherous course of nuclear escalation. And a war that eventually brought peace. But a peace fraught with delicate tensions, disputed borders, and a legacy of further bloodshed. The Two O'Clock War is a spellbinding chronicle of the international chess game that was played out in October 1973. It is a story of diplomacy and military might that accounts for many of the dilemmas faced in the present-day Middle East. This is a war that Israel never thought was possible. Surprised by the fury and excellent execution of the Arab onslaught, and perhaps more than a little complacent, Israel suddenly found itself on the point of losing a war because of a lack of ammunition, planes and tanks. The United States, after much vacillation, finally elected to help Israel, beginning a tremendous airlift (code name: Operation Nickel Grass) which incurred the wrath of the Arab states, and their sponsor, the Soviet Union. Fortunately the airlift came just in time for Israeli ground forces to stabilize their positions and eventually turn the tide in the Sinai and Golan Heights. And it was all made possible by an operation that dwarfed the Berlin Airlift and the Soviets' simultaneous efforts in Egypt and Syria. The Two O'Clock War is bound to become the definitive history of a war that quite literally approached Armageddon.

Arms Transfers, Neutrality and Britain's Role in the Cold War Marco Wyss,2012-10-12 Marco Wyss examines the extensive Anglo-Swiss armaments relationship between 1945 and 1958 in light of their bilateral relations, and thereby assesses the role of arms transfers, neutrality and Britain, as well as the two countries' relationship during the Cold War.

The Royal Air Force at Home Ian Watson,2010-06-19 Military public relations endeavors ultimately seek to build a sense of common interests and aims, and so generally foster good relations with the people they defend, and there in ensure a stable society. The armed forces when engaging on any public relations exercise, have traditionally sought to provide an entertaining spectacle. For years this has been typified by parades, bands, mock battles, drill displays and other relevant feats of military prowess which have captured the imagination of the public and inspired potential recruits. The 20th Century brought a new dimension to the field of warfare and subsequently added a new strand to the fabric of public ceremony and displays by the armed forces. That new dimension was the arrival of powered flight.Display flying began within five years of the Wright Brothers making their milestone first flight. The first events staged in Britain which centered on demonstrations by flying machines, were organized by the town councils of Blackpool and Doncaster and were held within days of each other in October 1909. 1920 was the year that the first of the famed and legendary Hendon Air Pageants was staged, and this is where military air shows traditionally began. The Hendon Displays were organized and staged by the still fledgling Royal Air Force and it was probably due in no small part to the prestige and spectacle of this fresh new dimension of military pageantry, together with other like events held at RAF airfields through the next two decades, that the very existence of the RAF was saved from the threat of abolition. The history of the RAF's commitment (one that compares almost uniquely with other air forces) toward display flying through the years after World War II has now come of age. This account of their record in this often overlooked but then again traditional field of military customs, describes and illustrates the major public RAF events since 1920.

Gloster Javelin Michael Napier,2016-02-29 The RAFs only delta-winged fighter the Gloster Javelin was also Britains first true All-Weather Fighter. Based in the UK and in Germany, the RAFs Javelin squadrons formed the front line of Britains air defences in the late 1950s and early 1960s. During this time Javelin crews pioneered the operational use of guided missiles and air-to-air refuelling by fighter aircraft. In the Far East, Javelins were involved in operations during the Indonesian Confrontation and the aircraft was also deployed to Zambia during the Rhodesian UDI Crisis. In this history, which is richly illustrated with many previously unpublished photographs, Michael Napier blends official records with personal accounts to describe the operational history of this iconic jet fighter.

Air War on the Edge Bill Norton,2004 Never before has there been a book published on the aircraft, units and exploits of the Israel Air Force in such depth. Interest in the IAF has always been high and seldom are its aircrew and aircraft out of the world's headlines. Previous books have failed to satisfy, either being sensationalist and low on factual content, or lacking in fundamental research. Bill Norton has trawled through thousands of documents, reports, and illustrations to produce a work that is staggering in its depth and knowledge. Those that think they know the IAF will find a wealth of new material and countless previously published 'facts' re-evaluated and righted. Detailed type-by-type coverage supported by a barrage of photographs of the IAF from the mixed bag of aircraft of its formative days, through the Suez Campaign, the Six Day War, Yom Kippur and

on to be a sophisticated, well-equipped force, arguably the most experienced in the world. Included for the first time are all of the badges and heraldry of the units of the IAF, in full color.
