Journey Through Hosea David Gibb, As God's spokesman, Hosea is told by Him to marry Gomer, a prostitute, and to go again and again to woo her back despite her many infidelities. Hosea's commitment to love Gomer gives us a glimpse of God's love for us. God loves His people as passionately and as jealously as a devoted husband loves his wife. Even when we wander from Him and our hearts cool towards Him, He continues to come after us and to draw us back to Him. God's love will never let us go. Rekindle your love and commitment to the One who loves you! The Journey Through series provides assistance to those who desire to spend time with God in His Word, book by book. The daily insights will help Christians discover the precious, life-transforming wisdom of the Bible, inspiring them towards a closer walk with God.

Too Many Bubbles David Gibb,2020-08-20 A hilarious, rhyming adventure that all starts with washing the dog . . . perfect for getting even the most reluctant bathers excited about bathtime! It's time to bathe the dog, but be careful with the bubble bath . . . Uh oh! Before you know it, the dog's escaped and there are bubbles everywhere – in the hallway, down the street and even in the zoo! But who's going to clean up all this mess, and what will Mum say? Find out in this riotous, rhyming story, which is great fun to read aloud, from the fabulous new pairing, YouTube superstar David Gibb, and Dan Taylor, who has written and illustrated several titles in Campbell's First Stories series, including Cinderella and Hansel and Gretel.

Two Wheels David Gibb,2024-04-09 When you're the youngest child in a bike-loving family, two wheels are the prize in this jaunty story with special appeal for kids just learning to ride a bike. Tricycles have three wheels and training bikes have four, but what this little boy wants most of all is a bike with two wheels! Dad has one for any occasion, and he knows just how to get his son ready. With practice, patience, and more than a little courage, the dream of a family who rides together--everyone on two wheels!--might just come true. David Gibb's warmhearted text and Brizida Magro's fresh, whimsical illustrations capture the magic moment when kids first tame two wobbly wheels and pedal off on their own.

One Common Enemy Jim McLoughlin,David Gibb,2012-09-27 I'll see the world, ' Jim McLoughlin told his parents as he set off to join the Royal Navy in 1939. 'It'll be fun.' Months later, this Liverpool lad was sailing to war aboard the massive battleship HMS 'Valiant'. He saw some of the world, but it wasn't fun. In 'One Common Enemy', he recounts how the chaos and carnage of war at sea in the Norwegian and Mediterranean campaigns led him to a fateful rendezvous with a much-loved ship from his boyhood, the passenger liner 'Laconia'. Nostalgia turned to disaster when 'Laconia' was torpedoed by a German U-boat in the South Atlantic. Despite a remarkabl

He had personally piloted prime ministers, dignitaries, and members of the British royal family, and was one of the most respected and trusted soldiers in the military. The Political Economy of Third World Intervention David N. Gibbs,1991-11 Interventionism—the manipulation of the internal politics of one country by another—has long been a feature of international relations. The practice shows no signs of abating, despite the recent collapse of Communism and the decline of the Cold War. In *The Political Economy of Third World Intervention*, David Gibbs explores the factors that motivate intervention, especially the influence of business interests. He challenges conventional views of international relations, eschewing both the popular realist view that the state is influenced by diverse national interests and the dependency approach that stresses conflicts between industrialized countries and the Third World. Instead, Gibbs proposes a new theoretical model of business conflict which stresses divisions between different business interests and shows how such divisions can influence foreign policy and interventionism. Moreover, he focuses on the conflicts among the core countries, highlighting friction among private interests within these countries. Drawing on U.S. government documents—including a wealth of newly declassified materials—he applies his new model to a detailed case study of the Congo Crisis of the 1960s. Gibbs demonstrates that the Crisis is more accurately characterized by competition among Western interests for access to the Congo's mineral wealth, than by Cold War competition, as has been previously argued. Offering a fresh perspective for understanding the roots of any international conflict, this remarkably accessible volume will be of special interest to students of international political economy, comparative politics, and business-government relations. This book is an extremely important contribution to the study of international relations theory; Gibbs' treatment of the Congo case is superb. He effectively takes the statistics to task and presents a compelling new way of analyzing external interventions in the Third World.—Michael G. Schatzberg, University of Wisconsin David Gibbs makes an original and important contribution to our understanding of the influence of business interests in the making of U.S. foreign policy. His business conflict model provides a synthetic theoretical framework for the analysis of business-government relations, one which yields fresh insights, overcomes inconsistencies in other approaches, and opens new ground for important research. . . . [Gibbs] provides a sophisticated analysis of the conflicts within the U.S. business community and identifies the complex ways in which they interacted with agencies within the government to form U.S. foreign policy toward the Congo. . . . This is a well-crafted analysis of a critical case of U.S. postwar intervention which should be of general interest to scholars and others concerned with the domestic bases of foreign policy.—Thomas J. Biersteker, Director, School of International Relations, University of Southern California
