Death Jaggi Vasudev (Sadhguru),2020 Whether a believer or not, a devotee or an agnostic, an accomplished seeker or a simpleton, this is truly a book for all those who shall die!

Death Shelly Kagan,2012-04-24 There is one thing we can be sure of: we are all going to die. But once we accept that fact, the questions begin. In this thought-provoking book, philosophy professor Shelly Kagan examines the myriad questions that arise when we confront the meaning of mortality. Do we have reason to believe in the existence of immortal souls? Should we accept an account according to which people are just material objects, nothing more? Can we make sense of the idea of surviving the death of one's body? If I won't exist after I die, can death truly be bad for me? Would immortality be desirable? Is fear of death appropriate? Is suicide ever justified? How should I live in the face of death? Written in an informal and conversational style, this stimulating and provocative book challenges many widely held views about death, as it invites the reader to take a fresh look at one of the central features of the human condition—the fact that we will die.

Death by Living N. D. Wilson,2013-05-14 A poetic portrait of faith, futility, and the joy of this mortal life. In this astoundingly unique book, bestselling author N.D. Wilson reminds each of us that to truly live we must recognize that we are dying. Every second we create more of our past—more decisions, more breathing, more love and more loathing, all of it slides by

into the gone as we race to grab at more moments, at more memories made and already fading. We are all authors, creators of our own pasts, of the books that will be our lives. We stare at the future or obsess about the present, but only the past has been set in stone, and we are the ones setting it. When we race across the wet concrete of time without purpose, without goals, without laughter and love and sacrifice, then we fail in our mortal moment. We race toward our inevitable ends without artistry and without beauty. All of us must pause and breathe. See the past, see your life as the fruit of providence and thousands of personal narratives. What led to you? You did not choose where to set your feet in time. You choose where to set them next. Then, we must see the future, not just to stare into the fog of distant years but to see the crystal choices as they race toward us in this sharp foreground we call the present. We stand in the now. God says create. Live. Choose. Shape the past. Etch your life in stone, and what you make will be forever.

Death Todd May, 2014-12-05 The fact that we will die, and that our death can come at any time, pervades the entirety of our living. There are many ways to think about and deal with death. Among those ways, however, a good number of them are attempts to escape its grip. In this book, Todd May seeks to confront death in its power. He considers the possibility that our mortal deaths are the end of us, and asks what this might mean for our living. What lessons can we draw from our mortality? And how might we live as creatures

who die, and who know we are going to die? In answering these questions, May brings together two divergent perspectives on death. The first holds that death is not an evil, or at least that immortality would be far worse than dying. The second holds that death is indeed an evil, and that there is no escaping that fact. May shows that if we are to live with death, we need to hold these two perspectives together. Their convergence yields both a beauty and a tragedy to our living that are inextricably entwined. Drawing on the thoughts of many philosophers and writers - ancient and modern - as well as his own experience, May puts forward a particular view of how we might think about and, more importantly, live our lives in view of the inescapability of our dying. In the end, he argues, it is precisely the contingency of our lives that must be grasped and which must be folded into the hours or years that remain to each of us, so that we can live each moment as though it were at once a link to an uncertain future and yet perhaps the only link we have left.

Surviving Death Leslie Kean, 2018-03-06 THE INSPIRATION FOR THE NETFLIX ORIGINAL SERIES • An impeccably researched, page-turning investigation, revealing stunning and wide-ranging evidence suggesting that consciousness survives death, from New York Times bestselling author Leslie Kean “An engaging, personal, and transformative journey that challenges the skeptic and informs us all.”—Harold E. Puthoff, Ph.D., director of the Institute for Advanced Studies at Austin In this groundbreaking book, award-winning

journalist and New York Times bestselling author Leslie Kean investigates the unexplained continuity of the human psyche after death. Here, Kean explores the most compelling case studies of young children reporting verifiable details from past lives, contemporary mediums who seem to defy the boundaries of the brain and of the physical world, apparitions providing information about their lives on earth, and people who die and then come back to report journeys into another dimension. Based on facts and scientific studies, *Surviving Death* includes fascinating chapters by medical doctors, psychiatrists, and PhDs from four countries. As a seasoned reporter whose work transcends belief systems and ideology, Kean enriches the narrative by including her own unexpected, confounding experiences encountered while she probed the question concerning all of us: Do we survive death?

Amusing Ourselves to Death Neil Postman, 1986 Examines the effects of television culture on how we conduct our public affairs and how entertainment values corrupt the way we think.

The American Way of Death JESSICA MITFORD,

The Case against Death Ingemar Patrick Linden, 2022-02-01 A philosopher refutes our culturally embedded acceptance of death, arguing instead for the desirability of anti-aging science and radical life extension. Ingemar Patrick Linden's central claim is that death is evil. In this first comprehensive refutation of the most common arguments in favor of human mortality, he writes passionately in favor of antiaging science and radical

life extension. We may be on the cusp of a new human condition where scientists seek to break through the arbitrarily set age limit of human existence to address aging as an illness that can be cured. The book, however, is not about the science and technology of life extension but whether we should want more life. For Linden, the answer is a loud and clear "yes." The acceptance of death is deeply embedded in our culture. Linden examines the views of major philosophical voices of the past, whom he calls "death's ardent advocates." These include the Buddha, Socrates, Plato, Lucretius, and Montaigne. All have taught what he calls "the Wise View," namely, that we should not fear death. After setting out his case against death, Linden systematically examines each of the accepted arguments for death—that aging and death are natural, that death is harmless, that life is overrated, that living longer would be boring, and that death saves us from overpopulation. He concludes with a "dialogue concerning the badness of human mortality." Though Linden acknowledges that *The Case Against Death* is a negative polemic, he also defends it as optimistic, in that the badness of death is a function of the goodness of life.

Death and Eternal Life John Hick, 1994-01-01 In this cross-cultural, interdisciplinary study, John Hick draws upon major world religions, as well as biology, psychology, parapsychology, anthropology, and philosophy, to explore the mystery of death. He argues that scientific and philosophical objections to the idea of survival after death can be challenged, and he

claims that human inadequacy in facing suffering supports the basic religious argument for immortality.

Death Herbert Fingarette, 1996 Fingarette faces up to the reality of death and demolishes some popular errors in our thinking about death. He examines the metaphors which mislead us: death as parting, death as sleep, immortality as the denial of death, and selflessness as a kind of consolation. He thinks through some of the more illuminating metaphors: death as the end of the world for me, death as the conclusion of a story, life as ceremony, and life as a tourist visit to earth. Fingarette goes on to discuss living a future without end and living a present without bounds. The author offers no facile consolation, but he identifies the true root of fear of death, and explains how the meaning of death can be reconceived.

Devoted to Death R. Andrew Chesnut, 2018 R. Andrew Chesnut offers a fascinating portrayal of Santa Muerte, a skeleton saint whose cult has attracted millions of devotees over the past decade. Although condemned by mainstream churches, this folk saint's supernatural powers appeal to millions of Latin Americans and immigrants in the U.S. Devotees believe the Bony Lady (as she is affectionately called) to be the fastest and most effective miracle worker, and as such, her statuettes and paraphernalia now outsell those of the Virgin of Guadalupe and Saint Jude, two other giants of Mexican religiosity. In particular, Chesnut shows Santa Muerte has become the patron saint of drug traffickers, playing an important role as protector of peddlers

of crystal meth and marijuana; DEA agents and Mexican police often find her altars in the safe houses of drug smugglers. Yet Saint Death plays other important roles: she is a supernatural healer, love doctor, money-maker, lawyer, and angel of death. She has become without doubt one of the most popular and powerful saints on both the Mexican and American religious landscapes.

Death Casey Jarman, 2019-08-01 In this illuminating collection of oral-history style interviews, Casey Jarman talks to a funeral industry watchdog about the (often shady) history of the death trade; he hears how songwriter David Bazan lost his faith while trying to hold on to his family; he learns about cartoonist Art Spiegelman using his college LSD trips to explain death to his children; and he gets to know his own grandparents, posthumously. These are stories of loss, rebuilding, wonder, and wild speculation featuring everyone from philosophers to former death row wardens and hospice volunteers. In these moving, enlightening, and often funny conversations, the end is only the beginning.

The Enterprise of Death Jesse Bullington, 2011-03-24 As the witch-pyres of the Spanish Inquisition blanket Renaissance Europe in a moral haze, a young African slave finds herself the unwilling apprentice of an ancient necromancer. Unfortunately, quitting his company proves even more hazardous than remaining his pupil when she is afflicted with a terrible curse. Yet salvation may lie in a mysterious tome her tutor has hidden somewhere on the

war-torn continent. She sets out on a seemingly impossible journey to find the book, never suspecting her fate is tied to three strangers: the artist Niklaus Manuel Deutsch, the alchemist Dr. Paracelsus, and a gun-slinging Dutch mercenary. As Manuel paints her macabre story on canvas, plank, and church wall, the young apprentice becomes increasingly aware that death might be the least of her concerns.

Death by Meeting Patrick M. Lencioni, 2010-06-03 A straightforward framework for creating engaging and exciting business meetings Casey McDaniel had never been so nervous in his life. In just ten minutes, The Meeting, as it would forever be known, would begin. Casey had every reason to believe that his performance over the next two hours would determine the fate of his career, his financial future, and the company he had built from scratch. "How could my life have unraveled so quickly?" he wondered. In his latest page-turning work of business fiction, best-selling author Patrick Lencioni provides readers with another powerful and thought-provoking book, this one centered around a cure for the most painful yet underestimated problem of modern business: bad meetings. And what he suggests is both simple and revolutionary. Casey McDaniel, the founder and CEO of Yip Software, is in the midst of a problem he created, but one he doesn't know how to solve. And he doesn't know where or who to turn to for advice. His staff can't help him; they're as dumbfounded as he is by their tortuous meetings. Then an unlikely advisor, Will Peterson, enters Casey's world. When he proposes an

unconventional, even radical, approach to solving the meeting problem, Casey is just desperate enough to listen. As in his other books, Lencioni provides a framework for his groundbreaking model, and makes it applicable to the real world. *Death by Meeting* is nothing short of a blueprint for leaders who want to eliminate waste and frustration among their teams and create environments of engagement and passion.

Pert, Ph.D., author of *Molecules of Emotion* “A penetrating and insightful investigation into the greatest mystery of existence. Death in Her Hands Ottessa Moshfegh, 2021-06-22 Named a Most Anticipated Book of 2020 by: The Washington Post, Vogue, Marie Claire, Entertainment Weekly, The Millions, New York Magazine, Paste Magazine, LitHub, E! News Online, and many more From one of our most ceaselessly provocative literary talents, a novel of haunting metaphysical suspense about an elderly widow whose life is upturned when she finds an ominous note on a walk in the woods.

While on her daily walk with her dog in a secluded woods, a woman comes across a note, handwritten and carefully pinned to the ground by stones. Her name was Magda. Nobody will ever know who killed her. It wasn't me. Here is her dead body. But there is no dead body. Our narrator is deeply shaken; she has no idea what to make of this. She is new to this area, alone after the death of her husband, and she knows no one. Becoming obsessed with solving this mystery, our narrator imagines who Magda was and how she met her fate. With very little to go on, she invents a list of murder suspects and possible motives for the crime. Oddly, her suppositions begin to find correspondences in the real world, and with mounting excitement and dread, the fog of mystery starts to fade into menacing certainty. As her investigation widens, strange dissonances accrue, perhaps associated with the darkness in her own past; we must face the prospect that there is either an innocent explanation for all this or a much more sinister one. A triumphant blend of horror, suspense, and pitch-black comedy, *Death in Her Hands* asks us to consider how the stories we tell ourselves both reflect the truth and keep us blind to it. Once again, we are in the hands of a narrator whose unreliability is well earned, and the stakes have never been higher.

This Republic of Suffering Drew Gilpin Faust, 2009-01-06 NATIONAL BESTSELLER
• NATIONAL BOOK AWARD FINALIST • An extraordinary ... profoundly moving history (The New York Times Book Review) of the American Civil War that reveals the ways that death on such a scale changed not only individual lives

but the life of the nation. An estimated 750,000 soldiers lost their lives in the American Civil War. An equivalent proportion of today's population would be seven and a half million. In *This Republic of Suffering*, Drew Gilpin Faust describes how the survivors managed on a practical level and how a deeply religious culture struggled to reconcile the unprecedented carnage with its belief in a benevolent God. Throughout, the voices of soldiers and their families, of statesmen, generals, preachers, poets, surgeons, nurses, northerners and southerners come together to give us a vivid understanding of the Civil War's most fundamental and widely shared reality. With a new introduction by the author, and a new foreword by Mike Mullen, 17th Chairman of the Joint Chiefs of Staff.

The Oxford Book of Death D. J. Enright, 2008-10-01 The inescapable reality of death has given rise to much of literature's most profound and moving work. D. J. Enright's wonderfully eclectic selection presents the words of poet and novelist, scientist and philosopher, mystic and sceptic. And alongside these 'professional' writers, he allows the voices of ordinary people to be heard; for this is a subject on which there are no real experts and wisdom lies in many unexpected places.
