Death Race - Countdown to Extinction M C Ogbuabo,2020-10-15 What would happen if humanity's fate rested in a game? The rules are simple: if Player A wins the game, the human race will go extinct. If Player B wins, the human race will also go extinct. How can humanity survive in this death game where both players must not lose, win, or equalise. In *Death Race: Countdown to Extinction*, all bets are off. The fate of a country relies heavily upon the outcome of a death game being played between two players inside the premises of a laboratory. It is a game with a dead end. A game without rules. And a whole country is at stake. On the opposite sides of the scales, there is money or the nation. A deadly virus has been released in the air that has the ability to kill the entire country within a span of five months, and the only hope for the entire nation is their all time savior, the Dregs Laboratory. Will the players be able to find another way other than winning to end the game? Will death win? Will money win? Will the nation manage to survive? And do the players even know the rules of the game? Let's find the answers to these questions together. Read through the thrilling story of *Death Race-*

Countdown to Extinction as it takes you on a wild ride filled with suspense, fear and excitement. Happy reading!

Death Race (Love on the Line book 5) Kari Lemor, 2021-05-08 The road to happiness is paved with danger... Recovering from a gunshot wound is the easy part. Boston cop, Keith Cho, discovers coming to grips with his partner's death requires a different sort of medicine. He'll start a cross country road trip with seeing his partner's sister, Samantha Bates. Sam can't hide the injuries or the backpack she's hauling as she hikes away from town. Fleeing from her abusive ex-boyfriend is key. When she and Keith reconnect on a back country road, he insists she come with him. Keith is good company but needs to stay firmly in the friend category. Being with a cop can only lead to heartache, something Sam can't handle again. As they travel, frequent

accidents seem far too convenient. Are these incidents connected to them or a mystery someone wants silenced? It's a race against death and someone's going to lose. ***Death Race is the fifth in the Love on the Line series. It's a road trip turned death race suspense that offers 'Romance with a splash of danger' featuring a wounded cop and his dead partner's sister. Their cross country trip begins to turn sour when accidents happen. They need to figure out who's behind them before they wind up dead. Reviews: "This book was such a blast. It was an exciting and engrossing read that had my eyes glued to every word." "Ms. Lemor managed to capture my undivided attention with a well-developed plot, which was filled with a good dose of suspense and strong, delightful characters that I couldn't wait to learn more about the moment they were introduced." "Between the roller coaster of some very scary encounters and the mystery of who is behind it all, you have a warm, funny, delightful story as Keith and Sammi's relationship gradually changes. In a refreshingly authentic and human way, they go from something that was friendly yet stunted by the past to a real and lasting connection that no outside force can break apart." ** More Love on the Line books coming SOON! Ex-military men who served together, bonding close as brothers. Even though their lives go in different directions, the bond they forged can never be broken. Danger is in their blood. Missions may change, but with the women they love at their sides these men are strong enough for any new challenge.

The Death of Race Brian Bantum, 2016-01-01 Brian Bantum says that race is not merely an intellectual category or a biological fact. Much like the

incarnation, it is a word made flesh, the confluence of various powers that allow some to organize and dominate the lives of others. In this way racism is a deeply theological problem, one that is central to the Christian story and one that plays out daily in the United States and throughout the world. In *The Death of Race*, Bantum argues that our attempts to heal racism will not succeed until we address what gives rise to racism in the first place: a fallen understanding of our bodies that sees difference as something to resist, defeat, or subdue. Therefore, he examines the question of race, but through the lens of our bodies and what our bodies mean in the midst of a complicated, racialized world, one that perpetually dehumanizes dark bodies, thereby rendering all of us less than God's intention.

Policing Life and Death Marisol LeBrón, 2019-04-16 In her exciting new book, Marisol LeBrón traces the rise of punitive governance in Puerto Rico over the course of the twentieth century and up to the present. Punitive governance emerged as a way for the Puerto Rican state to manage the deep and ongoing crises stemming from the archipelago's incorporation into the United States

as a colonial territory. A structuring component of everyday life for many Puerto Ricans, police power has reinforced social inequality and worsened conditions of vulnerability in marginalized communities. This book provides powerful examples of how Puerto Ricans negotiate and resist their subjection to increased levels of segregation, criminalization, discrimination, and harm. *Policing Life and Death* shows how Puerto Ricans are actively rejecting punitive solutions and working toward alternative understandings of safety and a more just future.

Death Rights Deanna P. Koretsky, 2021-03-01 *Death Rights* presents an antiracist critique of British romanticism by deconstructing one of its organizing tropes—the suicidal creative genius. Putting texts by Olaudah Equiano, Mary Shelley, John Keats, and others into critical conversation with African American literature, black studies, and feminist theory, Deanna P. Koretsky argues that romanticism is part and parcel of the legal and philosophical discourses underwriting liberal modernity's antiblack foundations. Read in this context, the trope of romantic suicide serves a distinct political function, indexing the limits of liberal subjectivity and (re)inscribing the rights and freedoms promised by liberalism as the exclusive province of white men. The first book-length study of suicide in British romanticism, *Death Rights* also points to the enduring legacy of romantic ideals in the academy and contemporary culture more broadly. Koretsky challenges scholars working in historically Eurocentric fields to

rethink their identification with epistemes rooted in antiblackness. And, through discussions of recent cultural touchstones such as Kurt Cobain's resurgence in hip-hop and Victor LaValle's comic book sequel to *Frankenstein*, Koretsky provides all readers with a trenchant analysis of how eighteenth-century ideas about suicide continue to routinize antiblackness in the modern world. Death in a Promised Land Scott Ellsworth, 1992 Widely believed to be the most extreme incident of white racial violence against African Americans in modern United States history, the 1921 Tulsa Race Massacre resulted in the destruction of over one thousand black-owned businesses and homes as well as the murder of between fifty and three hundred black residents. Exhaustively researched and critically acclaimed, Scott Ellsworth's *Death in a Promised Land* is the definitive account of the Tulsa race riot and its aftermath, in which much of the history of the destruction and violence was covered up. It is the compelling story of racial ideologies, southwestern politics, and incendiary journalism, and of an embattled black community's struggle to hold onto its land and freedom. More than just the chronicle of one of the

nation's most devastating racial pogroms, this critically acclaimed study of American race relations is, above all, a gripping story of terror and lawlessness, and of courage, heroism, and human perseverance.

Race Against Death Seymour Reit, 1976 In the winter of 1925 a dog sled relay makes a life and death race against time through an Alaskan blizzard with a supply of serum needed to stop a diphtheria epidemic in Nome.

A Race with Love and Death Richard Williams, 2020-03-19 'A tragic age and a tragic character, both seemingly compelled to destroy themselves...a chilling reminder of how little control we have over our fates' Damon Hill 'One of the greatest motor racing stories' Nick Mason 'Timely, vivid and enthralling ... it's unputdownable' Miranda Seymour, author of *The Bugatti Queen* Dick Seaman was the archetypal dashing motorsport hero of the 1930s, the first Englishman to win a race for Mercedes-Benz and the last Grand Prix driver to die at the wheel before the outbreak of the Second World War. Award-winning author Richard Williams reveals the remarkable but now forgotten story of a driver whose battles against the leading figures of motor racing's golden age inspired the post-war generation of British champions. The son of wealthy parents, educated at Rugby and Cambridge, Seaman grew up in a privileged world of house parties, jazz and fast cars. But motor racing was no mere hobby: it became such an obsession that he dropped out of university to pursue his ambitions, squeezing money out of his parents to buy better cars. When he was offered a contract with the world-beating, state-sponsored

Mercedes team in 1937, he signed up despite the growing political tensions between Britain and Germany. A year later, he celebrated victory in the German Grand Prix with the beautiful 18-year-old daughter of the founder of BMW. Their wedding that summer would force a split with his family, a costly rift that had not been closed six months later when he crashed in the rain while leading at Spa, dying with his divided loyalties seemingly unresolved. He was just 26 years old. *A Race with Love and Death* is a gripping tale of speed, romance and tragedy. Set in an era of rising tensions, where the urge to live each moment to the full never seemed more important, it is a richly evocative story that grips from first to last.

Race and the Death Penalty David P. Keys, R. J. Maratea, 2016 In what has been called the Dred Scott decision of our times, the US Supreme Court found in *McCleskey v. Kemp* that evidence of overwhelming racial disparities in the capital punishment process could not be admitted in individual capital cases, in effect institutionalizing a racially unequal system of criminal justice. Exploring the enduring legacy of this radical decision nearly three decades later, the authors of *Race and the Death Penalty* examine the persistence of racial discrimination in the practice of capital punishment, the dynamics that drive it, and the human consequences of both. David P. Keys is associate professor of criminal justice at New Mexico State University. R.J. Maratea is assistant professor of criminal justice at New Mexico State University.

Grace and Justice on Death Row Brian W. Stolarz, 2016-10-04 A Washington Post bestseller! A chilling and compassionate look at how close an innocent man was to being put death with a foreword by Sister Helen Prejean, author of Dead Man Walking. What is worse than having a client on Death Row in Texas? Having a client on Death Row in Texas who is innocent and not knowing if you will be able to stop his execution in time. Grace and Justice on Death Row: A Race Against Time to Free an Innocent Man tells the story of Alfred Dewayne Brown, a man who spent over twelve years in prison (ten of them on Texas' infamous Death Row) for a high-profile crime he did not commit, and his lawyer, Brian Stolarz, who dedicated his career and life to secure his freedom. The book chronicles Brown's extraordinary journey to freedom against very long odds, overcoming unscrupulous prosecutors, corrupt police, inadequate defense counsel, and a broken criminal justice system. The book examines how a lawyer-client relationship turned into one of brotherhood.

Grace And Justice On Death Row also addresses many issues facing the criminal justice system and the death penalty – race, class, adequate defense counsel, and intellectual disability, and proposes reforms. Told from Stolarz’s perspective, this raw, fast-paced look into what it took to save one man’s life will leave you questioning the criminal justice system in this country. It is a story of injustice and redemption that must be told.

Dragons in the Snow Ed Power, 2020-08-12 Edward Power sets the reader down in the midst of a February 2017 blizzard that raked Utah’s Uinta Range as nine snowboarders made their way into the backcountry for a day of intense adventure. As the boarders were taking their first turns, expert avalanche forecaster Craig Gordon was tracking the storm and its impact, posting one of the most dire avalanche forecasts and warnings in his career. In *Dragons in the Snow*, Power delves into the research and science behind avalanche forecasting and rescue, weaving in the art of backcountry skiing as well as dramatic tales of avalanche accidents, rescues, and recoveries. And he paints compelling portraits of the men and women who have made the study of avalanches their life’s work. The tales told by these avalanche forecasters, as well as the stories of the backcountry riders who may wake the dragon make for not just a compelling read, but also a powerful tool for raising avalanche awareness in everyone who plays in the winter backcountry.

Dystopian States of America Matthew B. Hill, 2022-09-13 Dystopian States of America is a crucial resource that studies the impact of dystopian works on American society-including ways in which they reflect our deep and persistent fears about environmental calamities, authoritarian governments, invasive technologies, and human weakness. Dystopian States of America provides students and researchers with an illuminating resource for understanding the impact and relevance of dystopian and apocalyptic works in contemporary American culture. Through its wide survey of dystopian works in numerous forms and genres, the book encourages readers to connect with these works of fiction and understand how the catastrophically grim or disquieting worlds they portray offer insights into our own current situation. In addition to providing more than 150 encyclopedia articles on a large and representative sample of dystopian/apocalyptic narratives in fiction, film, television, and video games (including popular works that often escape critical inquiry), Dystopian States of America features a suite of critical essays on five themes-war, pandemics, totalitarianism, environmental calamity, and technological overreach-that serve as the foundation for most dystopian worlds of the imagination. These offerings complement one another, enabling readers to explore dystopian conceptions of America and the world from

multiple perspectives and vantage points.
