The Burma Delta Michael Adas,2011-04-20 In the decades following its annexation to the Indian Empire in 1852, Lower Burma (the Irrawaddy-Sittang delta region) was transformed from an underdeveloped and sparsely populated backwater of the Konbaung Empire into the world's largest exporter of rice. This seminal and far-reaching work focuses on two major aspects of that transformation: the growth of the agrarian sector of the rice industry of Lower Burma and the history of the plural society that evolved largely in response to rapid economic expansion.

Microclimatology of a Subarctic Spruce Forest and a Clearing at Big Delta, Alaska Fernand De Percin,1960 This analysis deals with the microclimatology of two greatly contrasting sites at Fort Greely, Big Delta, Alaska; one in a coniferous forest (Taiga) and the other in an adjacent clearing. Continuous measurements of the vertical distribution of temperature and wind, and the measurements of solar radiation, precipitation, and globe thermometer temperatures, supplemented by the usual visual and manual observations and measurements, such as sky cover, clouds, snow depth, etc., were conducted from June 1956 through September 1957. An analysis of the data for two months, June 1956 (summer) and December 1956 (winter) is presented. (Author).
