*DeSoto* ,2006-03 DeSoto was settled in the early 1800s by pioneers who were interested in mining and farming. It became famous for the many artesian wells in the area and was named Fountain City. For many years, it remained a small country community, with a population of about 200 people in 1850. The railroad came to DeSoto in 1857, when the St. Louis and Iron Mountain Railroad established car shops here. This business, which employs about 500 people, has continued to this day under several railroad companies, the present one being the Union Pacific Railroad. DeSoto received All American City awards in 1953 and 1959 and was recognized as the Center of Population in the United States for the decade of 1980-1990.

**Doctor De Soto** William Steig,2013-07-30 From the incomparable William Steig, creator of Shrek, comes a story that proves even a fox can be out-foxed by a clever mouse in Doctor De Soto, a Newbery Honor Book. Doctor De Soto, the dentist, did very good work. With the aid of his able assistant, Mrs. De Soto, he copes with the toothaches of animals large and small. His expertise is so great that his fortunate patients never feel any pain. Since he's a mouse, Doctor De Soto refuses to treat dangerous animals--that is, animals who have a taste for mice. But one day a fox shows up and begs for relief from the tooth that's killing him. How can the kindhearted De Sotos turn him away? But how can they make sure that the fox doesn't give in to his baser instincts once his tooth is fixed? Those clever De Sotos will find a way. Doctor De Soto is a 1982 New York Times Book Review Notable Children's Book of the Year and Outstanding Book of the Year, a 1983 Boston Globe - Horn Book Awards Honor Book for Picture Books, and a 1983 Newbery Honor Book. Made into an animated short film in 1984 by American director and animator Michael Sporn.

**Looking for de Soto** Joyce Rockwood Hudson,2012-02-01 In 1984, Joyce Rockwood Hudson accompanied her husband, anthropologist Charles Hudson, on a 4,000-mile trek across the Southeast. His objective was to retrace and verify the route taken by Hernando de Soto four and a half centuries earlier. The effort would bring into question, and ultimately supplant, much of what was earlier thought to be the course of the Spanish explorer's journey. This is the journal Joyce Hudson kept during that trip. A kind of scholar's version of Blue Highways, the book is a warmly humane and almost daily account of the people the Hudsons met, the places they saw, and the things they did as they searched for De Soto's trail beneath railroad tracks and two-lane blacktops, along riverbanks and mountain ridges. Thus it is largely a travel story about rural and small-town life in eleven states, from Florida to Texas. Descriptions of the region's everchanging terrain, vegetation, and climate fill the book--colored at times by Joyce Hudson's troubled musings about Americans' increasing disconnectedness from the land and irreverence for the past. Conveying the rewards and frustrations of lives spent in painstaking scholarly inquiry, Looking for De Soto also offers a firsthand glimpse into the daily work of anthropologists and archaeologists: the exchanges of ideas, the ventures through swamps and down deeply rutted farm roads, the endless porings over maps, charts, and notes. As if writing a detective story, the author suspensefully paces the narrative with the accrual of geographical, artifactual, and documentary evidence, punctuating it with false leads and other setbacks, as mile after mile of the trail is redrawn. The story even has its villains--pothunters and private collectors; the builders of canals and dams that alter the courses of rivers and inundate ancient village sites; and the owners of corporate farms, who have leveled and eradicated ceremonial mounds with their massive agricultural machinery. Finally, a sense of the headlong cultural collision between Europeans and Native Americans pervades the book. De Soto and his six hundred conquistadores were the first Europeans to explore the interior of the southeastern United States and the only ones to witness its aboriginal society at its zenith. Hudson's evocation of this

encounter so central to the history of the New World may well send readers on their own excursions into the past. Looking for De Soto is a fascinating journey through today's South, illuminated by a richly informed perspective on its earlier days.

**DeSoto Parish** Emilia Gay Griffith Means, Liz Chrysler, 2011 Located in northwestern Louisiana, DeSoto Parish exemplifies the evolution of the Southern frontier. The parish was an early Louisiana meeting ground of Frenchmen from Natchitoches, who settled along Bayou Pierre and traded with the native Caddo Indians. In the 1840s, subsistence agriculture, cattle, and moderate trade were joined by the agriculture of the cotton kingdom with its flood of new settlers, who built small farms and sizable plantations. In the late 19th century, the economy diversified as the whistle of the railroad echoed against the roar of the lumber mills. Inhabiting new station-stop towns, DeSoto Parish residents built schools, filled churches, and settled their disputes in a fine new courthouse in the parish seat of Mansfield. Comings and goings, frozen by the flash of a camera, are presented in Images of America: DeSoto Parish.

**Lewis DeSoto** Lewis DeSoto, Dan Cameron, 1998 Exploring questions of personality and cultural identity, Lewis deSoto fashions site-specific and multimedia works that transport the viewer through layers of time, culture, and experience via elegant and complex networks of language, images, and sounds. Essay by Dan Cameron.

*It's Delightful! It's Delovely! It's... DeSoto Automobiles* Dennis David, 2006-11-01 In between DeSoto's introduction in 1928 and its demise in 1961 would come 32 years of wonderful styling, bright colors, and power to spare. DeSotos were billed as a lot of car for the money and sales proved it. DeSoto was purely an American effort. One look at the graceful flying lady mascot on the hood of a DeSoto S-11 is all it takes to see that it was a different era - a time in American automotive history that is forever gone. Revisit this era in a concise history of this magnificent marque - illustrated with colorful pictures, period advertising, artist renderings and contemporary black and white factory photos that show the fine details of these beautiful cars.

It's true. Until Nick and Vera arrive, Sun City Coyote geriatrics have experienced death in only two ways, those time-tested ways of all retirement communities: natural causes, and my golf cart has the right of way, so move your F-ing Buick.

**The Queen's Stallion** Isabel Vandervelde, 2014-10-30 Desoto came to steal treasure as he had done in Peru, where he found the gold and jewels of the Inca. But he was not happy at home, so he returned with an army from Spain to find new treasures. He had hundreds of soldiers as well as war dogs trained to kill the enemy and pigs to feed his men. But the most important thing he brought was a large herd of Spanish horses. Most of these horses were stolen or escaped into the forest of South Carolina. There they prospered and spread around among the surviving Indians. During the French and Indian War and the Revolution, Francis Marion used them to defeat the British. These horse survive today as the Marsh Tackeys, named by the South Carolina Legislature as the state horse.
