Jesus Never Drove a DeSoto Denis O'Rourke, 2020-08-04 Los Angeles private investigators, Nick Gamble and his long time fiancée Vera Foxxe have retired and moved to Sun City Coyote, a Phoenix area Over-55 community that boasts America's lowest crime rate. It's true. Until Nick and Vera arrive, Sun City Coyote geriatrics have experienced death in only two ways, those time-tested ways of all retirement communities: natural causes, and my golf cart has the right of way, so move your F-ing Buick.

Maximum Performance Jim Schild, 2017-10-10 Since the early days of racing, Chrysler, Dodge, and Plymouth have dominated drag strips and race tracks. During 1955 alone, Chrysler 300s won 37 major stock car races and clinched both the NASCAR and AAA stock car championships. Although the impressive engine options of 1950s consistently out-performed the competition, they were a mere opening act for the extremes of performance that would be unleashed throughout the 1960s--the golden era of drag racing and factory super-performance cars. *Maximum Performance: Super Stock Drag Racing 1962-1969* details Chrysler's amazing dominance in this era. Its drivers were among drag racing's first paid professional racers, and this book covers the complete story of Mopar drag racing accompanied by historical imagery as well as contemporary photos. This is the real story behind Super Stock and Factory Experimental drag racing as told the people who lived it!--Publisher's description.

Chrysler Engines, 1922-1998 Willem L Weertman, 2007-10-26 This book chronicles over 75 years of engine design, development, and production at Chrysler Corporation. Every production engine built by Chrysler is covered in detail, with descriptions, pictures, specifications, and timelines provided for each. In addition to the specifications, the book also looks at the personalities behind the engines' development, and the vehicles in which the engines were used.

American Cars, 1960-1972 J. "Kelly" Flory, Jr., 2014-01-10 The automotive industry underwent great change in the 1960s and the early 1970s. The continuing trend toward market consolidation, the proliferation of sizes and nameplates, and the "need for speed" characterized this period, loosely labeled as the muscle car era. This is an exhaustive reference work to American made cars of model years 1960–1972. Organized by year (and summarizing the market annually), it provides a yearly update on each make's status and production figures, then details all models offered for that year. Model listings include available body styles, base prices, engine and transmission choices, power ratings, standard equipment, major options and their prices, curb weight and dimensions (interior and exterior), paint color choices, changes from the previous year's model, and sales figures. Also given are assembly plant locations and historical overviews of each model nameplate. The book is profusely illustrated with 1,018 photographs.

Fifties Flashback Dennis Adler, 2004 No other era in automotive history is as revered as the 1950s, when Detroit was the center of the auto world and the American V-8 was king of the road. With hundreds of color photos of beautiful restorations and a collection of rare archival photos, Dennis Adler has compiled a detailed history of the emerging postwar American auto industry.

Collecting Muscle Car Model Kits Tim Boyd,2018-05-15 In the 1960s, model kit building was a huge hobby. Kids built plastic kits of planes, tanks, race cars, space ships, creatures from scary movies, you name it. Before baseball card collecting, Pokémon, and video games, model kit building was one of the most popular hobby activities. Car and airplane kits were the most popular, and among the car kits, muscle cars, as we know them today, were one of the most popular categories. Many owners of real muscle cars today were not old enough to buy them when the cars were new, of course. Yet kids of the 1960s and 1970s worshiped these cars to an extent completely foreign to kids today. If you couldn't afford or were too young to buy a muscle car back then, what could you do? For many, the next best thing was to buy, collect, and build muscle car kits from a variety of kit companies. Hundreds were made. Many of these kits have become collectible today, especially in original, unassembled form. Although people still build kits today, there is a broad market for collectors of nostalgic model kits. People love the kits for the great box art, to rekindle fond memories of building them 40 years ago, or even as a companion to the full-scale cars they own today. Here, world-leading authority Tim Boyd takes you through the entire era of muscle car kits, covering the options, collectability, variety availability, and value of these wonderful kits today. Boyd also takes you through the differences between the original kits, the older reproduction kits, and the new reproduction kits that many people find at swap meets today. If you are looking to build a collection of muscle car kits, interested in getting the kits of your favorite manufacturer or even just of the cars you have owned, this book will be a valuable resource in your model kit search.

Chrysler Dennis Adler, In recent years, Chrysler has made waves with a series of dramatic new show cars, exciting production vehicles like the Prowler and Viper, and its mega-merger with German juggernaut Daimler-Benz. It is generally accepted that Chrysler is the most forward-thinking of the Big Three American automakers, yet the company also has a wonderfully compelling past. Just in time to mark Chrysler's 75th anniversary, this beautifully illustrated history takes readers on a journey that spans the company's genesis in the 1920s to present. Marvelous archival black-and-white photography is accompanied by nostalgic period color imagery, print ads, and new color photography of classics. The story includes model from Dodge, Plymouth, Imperial, and DeSoto, while sidebars highlight key figures and stunning feats of engineering and styling.

Bear in Mind Terry Spear,2022-12-27 Grizzly bear shifter Amy Rutherford has special abilities where she can hear voices in her head—the thoughts and

feelings of others—and she needs to get control of it. It started way before she nearly died in a car accident during a rainstorm where her parents perished, and she's sure the crash wasn't an accident. But nobody believes her. She can't let go of what had happened, and storms bring on a case of Post-Traumatic Stress Syndrome. She is on a blind date while celebrating her sister and her husband's anniversary while a storm rages overhead at the dance club. She's assaulted by all the voices in her head, until one stands out. A man is observing her, hiding his dark secrets from her, or trying to—and she's not sure if he's one of the good guys, or not. Cedric Shader is a grizzly bear shifter and knows not to contact Amy the way he did at the dance club, instead of trying to meet her face to face first. But he senses her vulnerability and that she is experiencing psychic overload, just like he would when he was a kid. Now, he uses his ability to investigate murders, but the crime scene memories stay with him, though he tries hard to compartmentalize them, and he doesn't want her to witness them. He told himself he is here on a job, not to become involved with a woman who has psychic issues. But she's in trouble—and he's certain she needs him to teach her how to cope. Worse, she believes someone had murdered her parents, and he's beginning to wonder if she's right. With a break-in at her apartment, and a possible connection to the murder of her parents, they're running out of time before the person or persons kills again.

Conversations with LeAnne Howe Kirstin L. Squint, 2022-02-04 Conversations with LeAnne Howe is the first collection of interviews with the groundbreaking Choctaw author, whose genre-bending works take place in the US Southeast, Oklahoma, and beyond our national borders to bring Native American characters and themes to the global stage. Best known for her American Book Award–winning novel *Shell Shaker* (2001), LeAnne Howe (b. 1951) is also a poet, playwright, screenwriter, essayist, theorist, and humorist. She has held numerous honors including a Fulbright Distinguished Scholarship in Amman, Jordan, from 2010 to 2011, and she was the recipient of the Modern Language Association's first Prize for Studies in Native American Literatures, Cultures, and Languages for her travelogue, *Choctalking on Other Realities* (2013). Spanning the period from 2002 to 2020, the interviews in this collection delve deeply into Howe's poetics, her innovative critical methodology of tribalography, her personal history, and her position on subjects ranging from the Lone Ranger to Native American mascots. Two previously unpublished interviews, “‘An American in New York’: LeAnne Howe” (2019) and “Genre-Sliding on Stage with LeAnne Howe” (2020), explore unexamined areas of her personal history and how it impacted her creative work, including childhood trauma and her incubation as a playwright in the 1980s. These conversations along with 2019's *Occult Poetry Radio* interview also give important insights on the background of Howe's newest critically acclaimed work, *Savage Conversations* (2019), about Mary Todd Lincoln's hallucination of a “Savage Indian” during her time in Bellevue Place sanitarium. Taken as a whole, *Conversations with LeAnne Howe* showcases the development and continued impact of one of the most important Indigenous American writers of the twenty-first century.

The Mobilgas Economy Run Dave Hermanson, 2014-02-25 The Mobilgas Economy Runs were annual competitions in which new American production automobiles vied not for speed, but for fuel economy--even as the industry was turning out bigger, more powerful cars year by year. This first complete history of the runs (including the predecessor Gilmore Economy Runs) follows each year's competitors day by day, covers some aspects not reported at the time and features a wealth of photographs. It includes coverage of the related Mobil Mileage Rally, held for imported cars from 1958 through 1961. Complete results for all of the competitions are provided in an appendix.
