*Waves of Reprisal* Malcolm Little,2015-05-21 Hanyma, a spirited young woman from the remote village of Kepler, is at a crossroads in her life. She wants to explore the unfamiliar, wide-open country outside her croft. But rumblings of dark, inexorable forces terrorizing the sparsely-populated continent dampen her aspirations. That was before devastation gripped her. Now, driven by a wandering quest for vengeance, the headstrong survivalist struggles to combat a band of vicious marauders while simultaneously trying to comprehend all the strange phenomena discovered amidst ruins of technologically-advanced precursors. Before long, Hanyma is thrust into circumstances beyond her ability to control, and she must team with an unlikely ally from a far-gone past who is determined to complete a mission of global importance. Whether that mission succeeds or not may well depend on the callow wayfarer from Kepler. Can Hanyma put aside her bloodlust when the fate of humanity beckons? Will it matter when pitted against the crushing weight of a powerful, inscrutable enemy?

*Suicide Squads* Richard O'Neill,2015-06-25 In a detailed exploration of the hazardous 'Special Attack' weapons and forces of World War II, *Suicide Squads* examines the role of explosive motorboats, midget submarines, human torpedoes and kamikaze aircraft. In addition to weapon development, Richard O'Neil

describes the actions themselves including Pearl Harbour, the raid on Sydney Harbour and special forces mission at Guadalcanal, Midway and Okinawa. The bravery of the men from all sides who went to war in suicidal or near-suicidal weapons cannot be overestimated. The story of these special attack forces remains a testimony to ingenuity, desperation and courage.

*Descent into the Void (An action packed science fiction adventure)* Steve P. Vincent, 2022-11-28 Enjoy this explosive science fiction series by USA Today Bestselling author Steve P. Vincent... Sergeant Talon Stiler thought he'd been through hell. Then he got sent to Baker V. Stiler thought he was out - discharged from the Terran Union Marines with all four limbs and a gold watch - until a devastating attack by the hated alien Dioscuri drags him right back in again. In a flash, a war fought on the frontier of human-controlled space comes close to home, pushing humanity to the brink. Now responsible for the development of the Union's most secretive weapon system, Stiler and his ragtag crew of Marines have one chance to turn the tide of the war. Their mission: rescue a stranded scientist who might have discovered the key to winning the war from an occupied planet deep behind enemy lines. And that's the easy bit... If you like James S.A. Corey's *The Expanse* series, or novels by Frank Herbert, Kevin J. Anderson or Iain Banks, you'll be right at home in *The Frontier Saga*.

*Let the Galaxy Burn* Marc Gascoigne, Christian Dunn, 2006 In this massive anthology, Warhammer 40,000 fans will find classic stories that have been

unavailable for a while.

**The First Team** John Lundstrom, 2013-04-11 Hailed as one of the finest examples of aviation research, this comprehensive 1984 study presents a detailed and scrupulously accurate operational history of carrier-based air warfare. From the earliest operations in the Pacific through the decisive Battle of Midway, it offers a narrative account of how ace fighter pilots like Jimmy Thach and Butch O'Hare and their skilled VF squadron mates - called the first team - amassed a remarkable combat record in the face of desperate odds. Tapping both American and Japanese sources, historian John B. Lundstrom reconstructs every significant action and places these extraordinary fighters within the context of overall carrier operations. He writes from the viewpoint of the pilots themselves, after interviewing some fifty airmen from each side, to give readers intimate details of some of the most exciting aerial engagements of the war. At the same time he assesses the role the fighter squadrons played in key actions and shows how innovations in fighter tactics and gunnery techniques were a primary reason for the reversal of American fortunes. After more than twenty years in print, the book remains the definitive account and is being published in paperback for the first time to reach an even larger audience.
