Ocean Crossing Wayfarer Frank Dye,2013-07-05 This classic sea story recounts Frank Dye's intrepid voyages in his open 16ft Wayfarer dinghy to Iceland and Norway, which must rank among the most hazardous sea adventures of our time. Encountering the whole gamut of weather, such is Frank Dye's seamanship that he and his crew survived gales up to Force 9, capsizing and a broken mast, finally arriving safely to a Scandinavian welcome. It is a hair raising unforgettable narrative in which we glimpse Frank's gifted boat-handling skills and his instinct for survival. 'Without doubt Frank Dye is one of this century's greatest small boat seamen.' Yachting Monthly 'Any reader who has been far offshore in bad weather will marvel at the sheer temerity of a man who would attempt Iceland and Norway in such a craft.' Yachting Monthly 'Frank and Margaret Dye have become dinghy sailing legends in their own time.' Yachts & Yachting

The Biggest Boat I Could Afford Lee Hughes,2004 Lee Hughes is a writer and sailing enthusiast.

The Sea Takes No Prisoners Peter Clutterbuck,2018-01-11 This is a classic real-life story of derring do on the high seas, complete with extreme risk, last-minute ingenuity and many near-misses. Beginning in the 1960s, this book tells of the real life adventures of the author as a boy – a time of boarding schools, long holidays and an unbelievable (to today's parents) amount of freedom and danger. Encouraged by his parents (who lived abroad) to become more independent and self-sufficient, Peter decided to see how far he could get in his family's small open dinghy Calypso. Aged 16, he spent a winter restoring her, before pootling straight out into a force 7 gale and very nearly capsizing, after which he headed back to land to plan even more extreme adventures. Calypso was a Wayfarer, a small (16ft) and very popular class of open dinghy; a boat designed for pottering around coastlines and estuaries during the day. But along with the occasional brave crewmate, Peter managed to sail her across the Channel, through the Bay of Biscay, down the French canals and into the Mediterranean, then up into the North Sea and the Baltic to Oslo, living aboard for three months at a time. These were some of the longest voyages that anyone had ever achieved in an open boat, where (as Peter says) you 'have to be like a tightrope walker, concentrating on balance day and night, fully aware of the consequence of relaxing your vigilance'. He survived huge waves, nine rudder breakages in heavy seas, dismasting, capsizes, and hallucinations caused by sleep deprivation. He also managed it on a tiny budget, working as a farm labourer, hitchhiking everywhere, and at times living on one meal of cereal a day, to save the maximum amount for his boat. Charming, quite British in style, beautifully written and a lovely insight into a seemingly golden time, this is primarily a great read, but will be of huge practical use to anyone wanting to go that bit further in their dinghy. It also includes a lovely Foreword by world-famous yachtsman Brian Thompson.

The Foiling Dinghy Book Alan Hillman,2018-03-06 Since the development of the International Moth into a fully foiling dinghy there has been an explosion in the popularity of the class with some of the world's top sailors competing in it and many others enjoying the exhilaration of 'flying'. However there is no doubt that it is a challenge to learn to fly a Moth and other designs are being introduced which are easier to sail and provide foiling opportunities for less dedicated, larger and less agile sailors. This book, the first to be published on dinghy foiling, explains how foils work and how to foil in the International Moth, Waszp and F101. Anyone who can sail a fast planning dinghy like the Laser should be able to foil and this book takes you through the skills and techniques required. Starting with the theory, the book goes through rigging and launching, then low riding sailing, tacking and gybing before moving onto flying and, of course, the foiling gybe and tack. All illustrated by hundreds of colour photographs and many diagrams. Alan Hillman has taught hundreds of sailors to foil, including some of the top names. Through this book his expertise is available to everyone and there is no excuse not to get up on the foils and fly!
